

Friday 9:00 a.m. to 8:00 p.m. CST, and Saturday 9:00 a.m. to 6:00 p.m. CST.

SUPPLEMENTARY INFORMATION: In the “Rules and Regulations” Section of today’s **Federal Register**, we are publishing a direct final Notice of Deletion of the Belvidere Municipal Landfill Superfund Site without prior Notice of Intent to Delete because we view this as a noncontroversial revision and anticipate no adverse comment(s). We have explained our reasons for this deletion in the preamble to the direct final Notice of Deletion, and those reasons are incorporated herein. If we receive no adverse comment(s) on this deletion action, we will not take further action on this Notice of Intent to Delete. If we receive adverse comment(s), we will withdraw the direct final Notice of Deletion, and it will not take effect. We will, as appropriate, address all public comments in a subsequent final Notice of Deletion based on this Notice of Intent to Delete. We will not institute a second comment period on this Notice of Intent to Delete. Any parties interested in commenting must do so at this time.

For additional information, see the direct final Notice of Deletion which is located in the *Rules* section of this **Federal Register**.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[EPA–HQ–SFUND–1993–0003; FRL–9920–05–OSWER]

National Oil and Hazardous Substances Pollution Contingency Plan; Proposed Rule; Withdrawal

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule; withdrawal.

SUMMARY: The Environmental Protection Agency (EPA) is withdrawing its May 10, 1993 proposal to add the ASARCO, Inc. (Globe Plant) site in Denver, Colorado to the Superfund National Priorities List (NPL) because the site is being deferred to the State of Colorado. The majority of the cleanup work at this site has been completed under state oversight. An enforceable agreement is in place to complete the cleanup and maintain the remedy, which will be protective of human health and the environment.

DATES: The proposed rule to add the ASARCO Inc. (Globe Plant) site to the NPL published at 58 FR 27507 (May 10, 1993) is withdrawn effective December 11, 2014.

FOR FURTHER INFORMATION CONTACT:

Terry Jeng, phone: (703) 603–8852, email: jeng.terry@epa.gov, Site Assessment and Remedy Decisions Branch, Assessment and Remediation Division, Office of Superfund Remediation and Technology Innovation (Mailcode 5204P), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460.

SUPPLEMENTARY INFORMATION: The ASARCO, Inc. (Globe Plant) site was proposed for addition to the NPL on May 10, 1993. Since that time the State of Colorado has been overseeing the remediation of the site under a Consent Decree with ASARCO, Inc. The remedy is nearing completion and redevelopment of the site, which will support long-term maintenance of the remedy, is imminent. Therefore, consistent with the EPA’s November 2002 policy “Guidelines for Withdrawing a Proposal to List a Site on the NPL (De-proposal)” <http://www.epa.gov/superfund/sites/npl/hrsres/policy/dprop.pdf> the ASARCO, Inc. (Globe Plant) site’s 1993 proposal to list is being withdrawn.

Please refer to Docket ID Number EPA–HQ–SFUND–1993–0003 for supporting documentation regarding this action.

The following outlines the basis for this withdrawal:

1. There are no further Fund-financed response actions necessary at this site. This site has been deferred to the State of Colorado. Completion of the remedy and long-term maintenance is being conducted under a State of Colorado Consent Decree.

2. EPA Region 8 conducted a reassessment of the site to evaluate current conditions. The site reassessment report, approved on July 2, 2014, found that the site no longer poses

a significant threat to public health or the environment.

3. Future land use has been restricted through an environmental covenant so that no residential development can occur.

4. The planned redevelopment of the site into an industrial park will provide additional protections to public health and the environment by ensuring the long-term maintenance of the remedy.

List of Subjects in 40 CFR Part 300

Environmental protection, Air pollution control, Chemicals, Hazardous substances, Hazardous waste, Intergovernmental relations, Natural resources, Oil pollution, Penalties, Reporting and recordkeeping requirements, Superfund, Water pollution control, Water supply.

DEPARTMENT OF DEFENSE

Defense Acquisition Regulations System

48 CFR Chapter 2

RIN 0750–AI46

Defense Federal Acquisition Regulation Supplement: Appendix F—Energy Receiving Reports (DFARS Case 2014–D024)

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Proposed rule.

SUMMARY: DoD is proposing to amend the Defense Federal Acquisition Regulation Supplement (DFARS) to identify the electronic Wide Area Workflow Energy Receiving Report as the equivalent of the paper forms for the Material Inspection and Receiving Report, for overland shipments, and the Material Inspection And Receiving Report, Tanker/Barge, for waterborne shipments.

DATES: Comments on the proposed rule should be submitted in writing to the address shown below on or before February 9, 2015, to be considered in the formation of a final rule.
