

burden by averaging years 2–3 based on a 3-year OMB approval timeframe, which equaled to 8.25 respondents (number of ACE filers) and rounded to 8. For the number of annual responses, we used the average of years 2–3 which equaled to 452 annual responses (number of Unique ENDS products). We estimate the same estimate of 2 minutes (0.033 hours) per response as in table 2, and our total recurring burden is estimated to be a rounded 15 hours.

If this proposed rule is finalized, we estimate that ENDS tobacco product importers submitting the required STN will increase the burden under OMB control number 0910–0046 by 370 hours (355 first year burden hours + 15 subsequent (years 2–3) recurring hours).

To ensure that comments on information collection are received, OMB recommends that written comments be submitted through <https://www.regulations.gov> (see **ADDRESSES**). All comments should be identified with the title of the information collection.

In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3407(d)), we have submitted the information collection provisions of this proposed rule to OMB for review. These information collection requirements will not be effective until FDA publishes a final rule, OMB approves the information collection requirements, and the rule goes into effect. FDA will announce OMB approval of these requirements in the **Federal Register**.

X. Federalism
