The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). Please visit <https://www.epa.gov/dockets/commenting-epa-dockets> for additional submission methods; the full EPA public comment policy; information about CBI, PBI, or multimedia submissions; and general guidance on making effective comments.

II. General Information

A. Where can I find the document?

The draft revision of the *Technical Guidance for Assessing Environmental Justice in Regulatory Analysis* is available at <https://www.epa.gov/environmental-economics/epa-draft-revision-technical-guidance-assessing-environmental-justice>.

B. What is the purpose of the document?

The *Technical Guidance for Assessing Environmental Justice in Regulatory Analysis* (Guidance) addresses the issue of how to analytically consider environmental justice in regulatory analyses. It directs EPA analysts to assess whether environmental justice concerns exist prior to the rulemaking and whether such concerns are likely to be exacerbated or mitigated for each regulatory option under consideration. The technical guidance makes recommendations designed to ensure greater consistency across EPA assessments of EJ concerns for

regulatory actions. The recommendations encourage analysts to conduct the highest quality analysis feasible, recognizing that data limitations, time and resource constraints, and analytic challenges will vary by media and circumstance. They are not designed to be prescriptive and do not mandate the use of a specific approach. Updates to the technical guidance reflect advancements in the state of the science; other new peer-reviewed Agency guidance documents; and new priorities and direction related to the conduct of environmental justice analysis, including Executive Order 14096. The technical guidance builds on the EPA's experience in evaluating environmental justice as part of the rulemaking analytic process and underscores the EPA's ongoing commitment to ensuring the just treatment and meaningful involvement of all people with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. The technical guidance will enable the EPA to conduct better analysis of regulations which will ultimately enable the EPA to make better decisions.

C. How will my comments be used?

Public comment received on the draft revision of the *Technical Guidance for Assessing Environmental Justice in Regulatory Analysis* will be reviewed and considered for incorporation into or modification of text in the final revised draft of the Guidance. The final draft Guidance will then undergo internal EPA review and revision, and then be finalized for publication following peer review by the EPA's Science Advisory Board. An EPA Science Advisory Board (SAB) review of this document will be announced in December 2023. Information on the SAB review can be found here: https://sab.epa.gov/ords/sab/r/sab_apex/sab/home.

General Description of Collection: Section 214 of the FACT Act requires financial institutions that wish to share information about consumers with their affiliates, to inform such consumers that they have the opportunity to opt out of such marketing solicitations. The disclosure notices and consumer responses thereto comprise the elements

of this collection of information. There is no change in the method or substance of the collection.

3. *Title:* Covered Financial Company Asset Purchaser Eligibility Certification.

OMB Number: 3064–0194.

Forms: 7300/10.

Affected Public: Any individual or entity that is a potential purchaser of

assets from (1) the FDIC as receiver for a Covered Financial Company (CFC); or (2) a bridge financial company (BFC) which requires the approval of the FDIC, as receiver for the predecessor CFC and as the sole shareholder of the BFC (e.g., the BFC’s sale of a significant business line).

Burden Estimate:

SUMMARY OF ESTIMATED ANNUAL BURDEN
[OMB No. 3064–0194]

Information collection (obligation to respond)	Type of burden (frequency of responses)	Number of respondents	Number of responses per respondents	Time per response (HH:MM)	Annual burden (hours)
Covered Financial Company Asset Sales Purchaser Eligibility Certification.	Reporting	66	1	02:30	165
<i>Total Annual Burden (Hours):</i>	165

Source: FDIC.

General Description of Collection: The Covered Financial Company (CFC) Asset Purchaser Eligibility implements the statutory requirement that assets held by the FDIC in the course of liquidating any covered financial company not be sold to persons who contributed in specified ways to the demise of a covered financial company. The FDIC implemented this requirement in its regulations at 12 CFR 380.13. Prospective purchasers are required to complete and submit a Purchaser Eligibility Certification (PEC) to the FDIC. The PEC is a self-certification by a prospective purchaser that it does not fall into any of the categories of individuals or entities that are prohibited by statute or regulation from purchasing assets of a CFC. The PEC will be required of any individual or entity that is a potential purchaser of assets from the FDIC, whether in its corporate capacity or as a conservator or receiver, for (1) a CFC; or (2) a Bridge Financial Company (BFC).

The FDIC is increasing the total burden associated with this collection from 5 hours to 165 hours. The estimate for the number of respondents has increased from 10 to 66. The responses per respondent is unchanged from the 2021 submission. The estimate for hours per response represents a 1.5-hour increase from the 2021 submission. This

increase is due to a change in calculation methodology.

Request for Comment

Comments are invited on: (a) Whether the collections of information are necessary for the proper performance of the FDIC’s functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collections, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collections of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
