SOCIAL SECURITY ADMINISTRATION

Agency Information Collection Activities: Emergency Consideration Request

In compliance with Public Law 104-13, the Paperwork Reduction Act of 1995, the Social Security Administration (SSA) is providing notice of its information collections that require submission to the Office of Management and Budget (OMB). SSA is requesting emergency consideration from OMB by 06/02/2000 of the information collection listed below.

1. *Annual Earning Test-Direct Mail Follow-up Program Notices-0960-0369*. In 1997, as part of the initiative to reinvent government, SSA began to use the information reported on W-2's and self-employment tax returns to adjust benefits under the earnings test rather than have beneficiaries make a separate report, which often showed the same information. As a result, beneficiaries under full retirement age (FRA) complete forms SSA-L9778-SM-SUP, SSA-L9779-SM-SUP and SSA-L9781-SM (the "Midyear Mailer" forms) under this information collection.

With the passage of the Senior Citizen Freedom to Work Act of 2000, the annual earnings test (AET) at FRA was eliminated. As a result, SSA designed 2 new Midyear Mailer forms, the SSA-L9784-SM and the SSA-L9785-SM, to request an earnings estimate in the year of FRA for the period prior to the month of FRA. Social Security benefits may be

adjusted based on the information provided and this information is needed to comply with the recent change to the law. Consequently, the Midyear Mailer program has become an even more important tool in helping SSA to ensure that Social Security payments are correct. Respondents are beneficiaries who must update their current year estimate of earnings, give SSA an estimate of earnings for the following year and an earnings estimate (in the year of FRA) for the period prior to the month of FRA.

Number of Respondents: 315,000.

Frequency of Response: 1.

Average Burden Per Response: 10 minutes.

Estimated Annual Burden: 52,500 hours.

You can obtain a copy of the collection instruments and/or OMB clearance package by calling the SSA Reports Clearance Officer on (410) 965-4145, or by writing to him. Written comments and recommendations regarding the information collection should be submitted to the SSA Reports Clearance Officer and to the OMB Desk Officer at the addresses at the end of this document. Comments and recommendations should be received before June 2, 2000.

SUPPLEMENTARY INFORMATION:

Comments Invited

You may obtain an electronic copy of the advisory circular identified in this notice at the following Internet address: www.faa.gov/avr/air/airhome.htm. If you do not have access to the Internet, you may request a copy by contacting Susan Boylon, Program Management Branch, ANM-114, FAA Transport Airplane Directorate, Aircraft Certification Service, 1601 Lind Avenue SW., Renton, WA 98055-4056; telephone (425) 227-1152. Interested persons are invited to comment on the proposed AC by submitting such written data, views, or arguments, as they may desire. Commenters should identify AC 25-XX, and submit comments, in duplicate, to the address specified above. All communications received on or before the closing date for comments will be considered by the Transport Standards Staff before issuing the final AC.

Discussion

This AC contains guidance for the latest amendment of the regulations and applies to all transport category airplanes for which a new, amended, or supplemental type certificate is required. This guidance should be

applied to any portion of the airplane structure that has been modified. In the past, advisory and guidance information applicable to transport airplane structure has been published as AC's. Advisory circulars have not been developed for all of the regulatory requirements applicable to transport airplane structure, however. In many instances, certification of new technology airplanes resulted in the need to interpret the existing regulations and to apply new regulations. Issue papers and special conditions were generated to document the compliance method agreed upon between the applicant and the FAA. In other instances, applicants, FAA Aircraft Certification Office (ACO) managers, and foreign regulatory authorities have requested interpretation of the intent of specific regulations. This guidance was documented in the form of policy memorandums that were distributed to all ACO's, letters to applicants and foreign airworthiness authorities, and issue papers. In many instances, this information was not organized in a manner that allowed easy access, and applicants were not aware of revised policy. This AC formalizes existing policy so that the public and FAA personnel have access to this information. The methods and procedures described in this AC have evolved after many years and represent current certification practice.

Issued in Renton, Washington, on May 8, 2000.

Vi L. Lipski,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service, ANM-100.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

The Texas Mexican Railway Company

[Waiver Petition Docket Number FRA-2000-7040]

The Texas Mexican Railway Company (TM) seeks a permanent waiver of compliance from certain provisions of the Safety Appliances Standards, 49 CFR part 231, and the Power Brakes and Drawbars regulations, 49 CFR part 232, concerning RoadRailer® train operations over their railroad system. Specifically, TM requests relief from the requirements of 49 CFR part 231, which specifies the number, location and dimensional specifications for handholds, ladders, sill steps, uncoupling levers, and handbrakes; and § 232.2, which regulates drawbar height.

TM would like to begin operations of RoadRailer® equipment over its system in connection with the Burlington Northern Santa Fe Railway (BNSF) and/or the Kansas City Southern Railroad to and from interchange with the Transportation Ferroviaria Mexicana at Laredo, Texas, with movement of the equipment between interchange points at Beaumont, Houston, or Corpus Christi, Texas. TM requests that FRA consider this waiver under the same conditions as granted to BNSF under Docket Number FRA 1999-5895.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number 1999-5894) and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL-401 (Plaza Level), 400 7th Street, SW, Washington, DC 20590. Communications received within 15 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9:00 a.m.-5:00 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's web site at <http://dms.dot.gov>.
