Any additional comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OPPT-2010-0568, which is available for online viewing at <http://www.regulations.gov>, or in person inspection at the OPPT Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the Pollution Prevention and Toxics Docket is 202-566-0280. Use <http://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public disclosure is restricted by statute. Title: Asbestos-Containing Materials in Schools and Asbestos Model Accreditation Plans.

ICR Status: This is a request to renew an existing approved collection that is scheduled to expire on March 31, 2011. Under 5 CFR 1320.12(b)(2), the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The Asbestos Hazard Emergency Response Act (AHERA) authorizes EPA to promulgate rules appropriate for Local Education Agencies (LEAs) to conduct inspections, develop management plans, and design or conduct response actions with respect to the presence of asbestos-containing materials in school buildings. AHERA also requires states to develop model accreditation plans for persons who perform asbestos inspections, develop management control plans, and design or conduct response actions. This information collection addresses the burden associated with reporting and recordkeeping requirements imposed on LEAs by the asbestos in schools rule, and reporting and recordkeeping requirements imposed on state agencies and training providers related to the model accreditation plan rule.

Responses to the collection of information are mandatory (*see* 40 CFR 763 subpart E). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to range between about 5.5 hours and 140 hours per response, depending upon the category of the respondent. Burden is defined in 5 CFR 1320.3(b).

Respondents/Affected Entities: Entities potentially affected by this action are local education agencies (LEAs, *e.g.*, elementary or secondary

public school districts or a private school or school system); asbestos training providers to schools and educational systems; and state education departments or commissions or state public health departments or commissions.

Frequency of Collection: On occasion.

Estimated average number of responses for each respondent: 1.

Estimated No. of Respondents: 133,980.

Estimated Total Annual Burden on Respondents: 2,592,888 hours.

Estimated Total Annual Costs: \$86,972,753.

Changes in Burden Estimates: This request reflects an increase of 62,288 hours (from 2,530,600 hours to 2,592,888 hours) in the total estimated respondent burden from that currently in the OMB inventory. This increase reflects EPA's estimates of an increased number of LEAs and training providers affected by this information collection. Most of this increase is associated with an increase in the number of schools with nonfriable asbestos-containing materials (ACM). The Supporting Statement provides details on the change in burden estimate. The change is an adjustment.

Dated: February 23, 2011.

Director, Collection Strategies Division.

Title: Residential Lead-Based Paint Hazard Disclosure Requirements.

ICR Status: This is a request to renew an existing approved collection. This ICR is scheduled to expire on March 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: Section 1018 of the Residential Lead-Based Paint Hazard Reduction Act of 1992 (42 U.S.C. 4852d) requires that sellers and lessors of most residential housing built before 1978 disclose known information on the presence of lead-based paint and lead-based paint hazards, and provide an EPA-approved pamphlet to purchasers and renters before selling or leasing the housing. Sellers of pre-1978 housing are also required to provide prospective purchasers with 10 days to conduct an inspection or risk assessment for lead-based paint hazards before obligating purchasers under contracts to purchase the property. The rule does not apply to rental housing that has been found to be free of lead-based paint, zero-bedroom dwellings, housing for the elderly, housing for the handicapped or short-term leases. This information collection addresses the information collection-related requirements related to each affected party as described below.

1. Sellers of pre-1978 residential housing. Sellers of pre-1978 housing must attach certain notification and disclosure language to their sales/leasing contracts. The attachment lists the information disclosed and acknowledges compliance by the seller, purchaser and any agents involved in the transaction.

2. Lessors of pre-1978 residential housing. Lessors of pre-1978 housing

must attach notification and disclosure language to their leasing contracts. The attachment, which lists the information disclosed and acknowledges compliance with all elements of the rule, must be signed by the lessor, lessee and any agents acting on their behalf. Agents and lessors must retain the information for three years from the completion of the transaction.

3. Agents acting on behalf of sellers or lessors. Section 1018 of the Residential Lead-Based Paint Hazard Reduction Act of 1992 specifically directs EPA and HUD to require agents acting on behalf of sellers or lessors to ensure compliance with the disclosure regulations.

Responses to the collection of information are mandatory (see 40 CFR part 745, Subpart F, and 24 CFR part 35, Subpart H). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA’s regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average about 0.18 hours per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are persons engaged in selling, purchasing or leasing certain residential dwellings built before 1978, or who are real estate agents representing such parties.

Frequency of Collection: On occasion.
Estimated average number of responses for each respondent: 1.
Estimated No. of Respondents: 39,124,000.

Estimated Total Annual Burden on Respondents: 6,937,330 hours.

Estimated Total Annual Costs: \$126,120,374.

Changes in Burden Estimates: This request reflects a decrease of 807,286 hours (from 7,744,616 hours to 6,937,330 hours) in the total estimated respondent burden from that currently in the OMB inventory. This decrease reflects a reduction in the estimated annual number of real estate sales and residential property rentals involving target housing subject to the rule's requirements and an overall decrease in estimated real estate sales. The Supporting Statement provides details on the change in burden estimate. The change is an adjustment.
