

were amended to reflect the new determination. On February 14, 2005, Canada alleged that the United States had not properly implemented the recommendations and rulings and requested the establishment of a dispute settlement panel under Article 21.5 of the DSU to review this implementation. The panel was established on February 25, 2005.

In its request under Article 21.5, Canada alleges that the ITC failed to implement the recommendations and rulings of the DSB by (1) failing to make a determination of threat of material injury based on facts; (2) failing to demonstrate a causal relationship between allegedly dumped and subsidized imports of softwood lumber from Canada and threatened injury to the domestic industry; and (3) failing to examine in an unbiased and objective manner any and all known factors other than the allegedly dumped and subsidized imports that were injuring or threatening to injure the domestic industry.

The specific measures identified by Canada as inconsistent with U.S. WTO obligations under the AD Agreement and SCM Agreement are: (1) Section 129 Consistency Determination, Softwood Lumber from Canada, (24 Nov. 2004), Inv. Nos. 701-TA-414 and 731-TA-928; and (2) Notice of Amendment to Antidumping and Countervailing Duty Orders on Certain Softwood Lumber Products From Canada (20 Dec. 2004), 69 FR 75917 (Dep't. Commerce, December 20, 2004).

The European Communities and the People's Republic of China have indicated their interest to participate in the dispute as third parties.
