National Environmental Policy Act

The 1982 amendments to the ESA, in section 4(b)(1)(A), restrict the information that may be considered when assessing species for listing. Based on this limitation of criteria for a listing decision and the opinion in *Pacific Legal Foundation v. Andrus*, 675 F.2d 825 (6th Cir. 1981), We have concluded that ESA listing actions are not subject to the environmental assessment requirements of the National Environmental Policy Act (NEPA). (See NOAA Administrative Order 216–6.)

Executive Order 12866, Regulatory Flexibility Act and Paperwork Reduction Act

As noted in the Conference Report on the 1982 amendments to the ESA, economic impacts cannot be considered when assessing the status of a species. Therefore, the economic analysis requirements of the Regulatory Flexibility Act are not applicable to the listing process. In addition, this rule is exempt from review under Executive Order 12866. This proposed rule does not contain a collection-of-information requirement for the purposes of the Paperwork Reduction Act.

Federalism

In keeping with the intent of the Administration and Congress to provide continuing and meaningful dialogue on issues of mutual State and Federal interest, this proposed rule will be given to the relevant state agencies in each state in which the species is believed to occur, who will be invited to comment. We have conferred with the State of Washington in the course of assessing the status of Southern Resident killer whales, and considered, among other things, state and local conservation measures. Washington has listed killer whales under the Washington Administrative Code 232–12–014 and is coordinating with us to develop a State recovery plan. As the process continues, we intend to continue engaging in informal and formal contacts with Washington, and other affected local or regional entities, giving careful consideration to all written and oral comments received. We also intend to consult with appropriate elected officials in the establishment of a final rule.

This document corrects errors in Table 8 to the proposed specifications.

SUPPLEMENTARY INFORMATION: NMFS proposed 2005 and 2006 harvest specifications and PSC allowances for the groundfish fishery of the BSAI on December 8, 2004 (69 FR 70974). That rule lists proposed pollock allocations to the seven inshore catcher vessel pollock cooperatives. Allocations in the proposed rule reflect cooperative applications for 2005 that are due to NMFS by December 1 of each year. All of the changes based on these applications were not reflected in the proposed Table 8. This document corrects the proposed rule by reflecting accurately all of the applications received for the 2005 year.

Correction

As published, proposed rule FR Doc. 04–26952, December 8, 2004 (69 FR 70974) contains an error and needs to be corrected. The corrected table adds member vessel PACIFIC CHALLENGER to the Peter Pad Fleet Cooperative and corrects data in columns 2, 3, 4, and 5 for the Westward Fleet Cooperative. The corrected table reads as follows:
