

The average tuition at a public four-year college has increased by more than 250 percent over the past three decades, while incomes for families in the middle three quintiles (that is, incomes ranging from \$27,219 to \$115,896) grew by only 7, 14, and 24 percent respectively, according to data from the College Board and the U.S. Census. Declining state funding has forced students to shoulder a higher proportion of college costs, and tuition has almost doubled as a share of public college revenues over the past 25 years, growing from 25 percent to 47 percent, according to data from the State Higher Education Executive Officers Association. While a college education remains a worthwhile investment overall, the average borrower now graduates with more than \$26,000 in debt. Only 58 percent of first-time, full-time students who began college in 2004 earned a four-year degree within six years. Loan default rates are rising, and too many young adults are burdened with debt as they seek to start a family, buy a home, launch a business, or save for retirement.

In August 2013, President Obama outlined his agenda for combating rising college costs and making college affordable for American families. His plan will measure college performance through a new ratings system so students and families have the information to select schools that provide the best value. After this ratings system is well established, Congress can tie Federal student aid to college performance so that students maximize their Federal aid at institutions providing the best value. The plan will also promote innovation and competition by taking down barriers that stand in their way and shining a light on the most cutting-edge college practices and new technologies for providing high value at low costs. And to help student borrowers struggling with their existing debt, the President is committed to ensuring that all borrowers who need it can have access to the Pay As You Earn plan that caps loan payments at 10 percent of income.

Additional information on the proposals is available in the "FACT SHEET on the President's Plan to Make College More Affordable: A Better Bargain for the Middle Class," which is posted online at www.whitehouse.gov/the-press-office/2013/08/22/fact-sheet-president-s-plan-make-college-more-affordable-better-bargain-.

Open Forum Arrangements

Please check for updated information on the forum locations, logistics, and other outreach activities, at www.ed.gov.

Individuals desiring to present comments or feedback at an open forum must register by sending an email at least three days prior to the open forum to collegefeedback@ed.gov with the subject "Open Forum Registration." It is likely that each participant will be limited to five minutes for comments. The Department will notify registrants of the location and time slot reserved for them. An individual may make only one presentation at the open forums. If we receive more registrations than we are able to accommodate, the Department reserves the right to reject the registration of an entity or individual that is affiliated with an entity or individual that is already scheduled to present comments and to select among registrants to ensure that a broad range of entities and individuals is allowed to present. We will accept walk-in registrations for any remaining time slots on a first-come, first-served basis at the Department's on-site registration table. Transcripts from the open forums will be made available on the www.ed.gov Web site for public viewing. Speakers may also submit written comments. Please see the **ADDRESSES** section for instructions.

Other Feedback

In addition to the open forums, the Department will seek input in a variety of venues and formats. During the months of October, November, and December 2013, the Department will host town halls and roundtables, and it will participate in events organized by other organizations. We also encourage the public to submit comments. Please see the **ADDRESSES** section for instructions.
