Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Amy Hapeman or Erin Markin, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The SWFSC proposes to continue long-term monitoring of leatherback sea turtles off the coasts of California, Oregon, and Washington. The purpose of the work is to determine abundance, distribution, size ranges, sex ratio, health status, diving behavior, local movements, habitat use, potential fishery impacts, and migratory routes for leatherbacks. Up to 70 sea turtles would be located annually through aerial surveys and subsequently approached from a research vessel or captured by hoop net. Upon approach or capture, researchers would examine, collect morphometric data and biological samples, and attach up to two transmitters to turtles before release. The permit would be valid for up to 10 years from the date of issuance.

Dated: July 6, 2017.

Fisheries of the Exclusive Economic Zone off Alaska; Stock Assessment of Eastern Bering Sea Tanner Crab; Center for Independent Experts Peer Review Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: NMFS has requested the Center for Independent Experts (CIE) to conduct a peer review of the agency's stock assessment of eastern Bering Sea Tanner crab (*Chionoecetes bairdi*). The CIE is a group affiliated with the University of Miami that provides independent peer reviews of NMFS science nationwide, including reviews of stock assessments for fish, shellfish and marine mammals. The eastern Bering Sea Tanner crab stock assessment is reviewed annually by the Alaska Fisheries Science Center, the North Pacific Fishery Management Council (NPFMC) Crab Plan Team, and the NPFMC Scientific and Statistical Committee. The CIE review will examine whether the assessment incorporates the best scientific information available for making management decisions and provides a reasonable approach to understanding the population dynamics and stock status of eastern Bering Sea Tanner crab. The public is invited to attend and observe the presentations and discussions between the CIE panel and the NMFS scientists who collected and processed the data, and designed the underlying model.

DATES: The public meeting will be held from July 31 through August 3, 2017, 9 a.m. to 5 p.m. Pacific Daylight Time.

ADDRESSES: The review will be held at the Alaska Fisheries Science Center, 7600 Sand Point Way NE., Seattle, WA 98115-6349. Visitors will need to provide proper ID and sign in at the front desk.

FOR FURTHER INFORMATION CONTACT: William Stockhausen, 206-526-4241.

SUPPLEMENTARY INFORMATION: The CIE panel will consist of three peer reviewers who will assess materials related to the topic, participate in a review workshop with the NMFS scientists who developed the model and the analytical approach, and produce a report. This review will be highly

technical in nature and will cover mathematical details of the analytical approach. More information about the CIE is available on its Web site at www.ciereviews.org.

Members of the public are invited to observe, and will be provided opportunities to contribute on July 31 through August 2, 2017. The final report will be available prior to the September NPFMC Plan Team meetings and will consist of individual reports from each panelist and a summary report. The results of the review will be presented during the September 2017 NPFMC Crab Plan Team meeting, which will be announced at a later time in the **Federal Register**.

Special Accommodations

These workshops will be physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Jennifer Ferdinand, 206–526–4076, at least 10 working days prior to the meeting date.
