

updating of CDC guidelines and other policy statements regarding prevention of healthcare-associated infections and healthcare-related conditions.

Matters to be Considered: The agenda will include the following updates: The Healthcare Personnel Guideline Workgroup; the Long-term Care/Post-acute Care Workgroup; the Neonatal Intensive Care Unit Workgroup; and updates from DHQP including DHQP's engagement on Coronavirus disease response. Agenda items are subject to change as priorities dictate.

Procedures for Public Comment: Time will be available for public comment. Members of the public who wish to provide public comments should plan to attend the public comment session at the start time listed. Please note that the public comment period may end before the time indicated, following the last call for comments.

Procedures for Written Comment: The public may submit written comments in advance of the meeting. Comments should be submitted in writing by email to the contact person listed above. The deadline for receipt of written public comment is February 25, 2021. All requests must contain the name, address, and organizational affiliation of the speaker, as well as the topic being addressed. Written comments should not exceed one single-spaced typed page in length. Written comments received in advance of the meeting will be included in the official record of the meeting.

The Director, Strategic Business Initiatives Unit, Office of the Chief Operating Officer, Centers for Disease Control and Prevention, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Kalwant Smagh,

*Director, Strategic Business Initiatives Unit,
Office of the Chief Operating Officer, Centers
for Disease Control and Prevention.*

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for

Disease Control and Prevention (CDC) has submitted the information collection request titled *Online Training for Law Enforcement to Reduce Risks Associated with Shift Work and Long Work Hours* to the Office of Management and Budget (OMB) for review and approval. CDC previously published a "Proposed Data Collection Submitted for Public Comment and Recommendations" notice on October 1, 2020 to obtain comments from the public and affected agencies. CDC received one comment related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain.

Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

Online training for law enforcement to reduce risks associated with shift work and long work hours—
Reinstatement without Change—
National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Police often work during the evening, at night, and sometimes irregular and long hours. Shift work and long work hours are linked to many health and safety risks due to disturbances to sleep and circadian rhythms. These work schedules also lead to difficulties with personal relationships due to having less time with family and friends, poor mood from sleep deprivation, and problems balancing work and personal responsibilities. These work schedules and inadequate sleep likely contribute to health problems seen in police: Shorter life spans, high occupational injury rates, and burden of chronic illnesses. One strategy to reduce these risks is training programs to inform employers and law enforcement officers about the risks and strategies to reduce their risks.

An Reinstatement is being requested due to delays recruiting participants and initiating data. The delays resulted from the COVID-19 pandemic and the civil unrest after George Floyd's death on May 25 2020. Law enforcement leaders requested that the data collection be delayed until the end of June 2020. As a result, NIOSH is requesting a one-year extension of the data collection end date to May 31, 2021. This pilot study is part of a project awarded National Occupational Research Agenda (NORA) funding. The National Institute for Occupational Safety and Health is authorized to carry out this data collection through Occupational Safety and Health Act of 1970.

The purpose of this project is to develop a training program to relay the risks linked to shift work and long work hours and give workplace strategies for employers and personal strategies for the officers to reduce the risks. Once finalized, the training will be available on the NIOSH website. The training will be pilot tested with 30 recent graduates of a police academy and 30 experienced officers. The study will recruit 60 law enforcement officers during a 30-minute phone call. All respondents will work full-time on fixed night shifts. The pilot test will use a pre-test-post-test design to examine sleep (both duration and quality), worktime sleepiness, and knowledge retained. Pre-test measures will be collected two weeks before the

training. Post-test measures will be collected the week of the training (week three of the study), one week after the training (week four) and at eight and nine weeks after the training (weeks 11 and 12 of the study). Additional post-test measures will include feedback about the training and if specific behaviors changed.

Before starting the pretest, the respondent will sign an informed consent form. The pilot pre-test will start with the respondent filling out a 10 minute online survey that includes four short surveys: (1) Demographic information and work experience; (2) the Epworth Sleepiness Scale; (3) the Pittsburgh Sleep Quality Index; and (4) a knowledge test. The respondent will be fitted with a wrist actigraph, which will record activity and estimate the times of sleep. The respondents will keep an online sleep activity diary and wear the actigraph continuously during weeks one to four of the study. The online sleep activity diary takes approximately two minutes a day to complete. The sleep diary and actigraph

are being used together to obtain a more accurate timing of respondent's sleep and activity.

During the third week of the study, the respondent will take the 2.5 hour online training program. Immediately after completing the training, the respondent will take the post-test knowledge test and will provide feedback about the training including barriers to using the training information and what influential people in their life would want them to do with the training information. At the end of week four, the respondent will return the actigraph. No data collection will occur during weeks five to 10 of the study.

The second post-test period will be weeks 11 and 12 of the study to gather longer-term outcomes. At the beginning of week 11, the respondents will be fitted with an actigraph. The respondent will wear the actigraph and complete the sleep activity diary for the next 14 days. At the end of week 12 of the study, the respondent will complete the Epworth Sleepiness Scale, Pittsburgh

Sleep Quality Index, and Changes in Behaviors After Training. The combined response time is five minutes.

The burden table lists three 10-minute meetings during the post-test period when they will return the actigraph at the end of week four, be fitted with an actigraph at the beginning of week 11 and return it at the end of week 12. The respondents will complete the sleep activity diary for 42 days total (two minutes each day). The total burden hours for the diary is 84.

Study staff will use the findings from the pilot test to make improvements to the training program. The research team will reinforce or expand training content that showed less than desired results on the pilot test. Potential impacts of this project include improvements in management practices such as the design of work schedules and improvements in officers' personal behaviors for coping with the demands of shift work and long work hours. The total estimated annualized burden hours is 334. There are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Law enforcement officers	phone call for recruitment & informed consent.	60	1	30/60
Law enforcement officers	Initial meeting	60	1	15/60
Law enforcement officers	Knowledge survey	60	2	5/60
Law enforcement officers	Epworth Sleepiness Scale	60	2	1/60
Law enforcement officers	Pittsburgh Sleep Quality Index	60	2	2/60
Law enforcement officers	Demographics and work experience	60	1	2/60
Law enforcement officers	Sleep diary	60	42	2/60
Law enforcement officers	Online training	60	1	150/60
Law enforcement officers	Feedback about Training, Barriers, and Influential People.	60	1	5/60
Law enforcement officers	Changes in Behaviors after Training	60	1	2/60
Law enforcement officers	Actigraph fitting and return	60	3	10/60

Jeffrey M. Zirger,

Centers for Disease Control and Prevention

Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended, and the Determination of the Director, Strategic Business Initiatives Unit, Office of the Chief Operating Officer, CDC, pursuant to Public Law 92-463. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Disease, Disability, and Injury Prevention and Control Special Emphasis Panel (SEP)—Notice of Funding Opportunity (NOFO) DP21-003, Reducing Inequities in Cancer Outcomes through Community-Based Interventions on Social Determinants of Health.

Date: April 6, 2021–April 8, 2021.

Time: 10:00 a.m.–6:00 p.m., EDT.

Place: Teleconference.

Agenda: To review and evaluate grant applications.

FOR FURTHER INFORMATION CONTACT: Jaya Raman Ph.D., Scientific Review Officer, CDC, 4770 Buford Highway, Mailstop F80, Atlanta, Georgia 30341, Telephone: (770) 488-6511, JRaman@cdc.gov.
