**SUPPLEMENTARY INFORMATION:** The Canadian National Railroad requested a temporary deviation for Elgin, Joliet, and Eastern Railroad Drawbridge, across the Illinois Waterway, mile 270.6, near Morris, Illinois to remain in the closed-to-navigation position for eighty-four hours while the existing lift span is removed and the replacement lift span is installed. The Elgin, Joliet, and Eastern Railroad Drawbridge currently operates in accordance with 33 CFR

117.5, which states the general requirement that drawbridges shall open promptly and fully for the passage of vessels when a request to open is given in accordance with the subpart.

There are no alternate routes for vessels transiting this section of the Illinois Waterway.

The Elgin, Joliet, and Eastern Railroad Drawbridge, in the closed-to-navigation position, provides a vertical clearance of 26.3 feet above flat pool. Due to construction activities, vessels will be unable to pass the bridge site during this 84-hour period. Navigation on the waterway consists primarily of commercial tows and recreational watercraft. This temporary deviation has been coordinated with waterway users. No objections were received.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.
