ADDRESSES: Megan Fry, NAGPRA Coordinator, University of Florida, Florida Museum of Natural History, 1659 Museum Road, Gainesville, FL 32611, telephone (352) 273–1921, email megan.fry@floridamuseum.ufl.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the FLMNH, and

additional information on the determinations in this notice, including the results of consultation, can be found in its inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Human remains representing at least 14 individuals have been identified from Walkers Landing (8NA28), of Nassau County, Florida. The 22 associated funerary objects include a pink mound fill which corresponds to the Bullen publication description of the burial mound context, a shell labelled “Burial 2”, as well as several faunal bones and shells. Walkers Landing (Acc. 74–43;82–13; 73–20; S–164–172; FM EAP 0115), also referred to as Walker Point, was excavated in 1971 by E. Thomas Hemmings of the Florida Museum of Natural History (Hemmings and Deagan 1973). The site had been heavily disturbed by relic hunters prior to Hemmings' excavations which were carried out under the auspices of the landowners. In addition to the burials excavated (some disturbed) fragmentary bones were found in the relic hunters' spoil. Identification of select skeletal elements was made by Adelaide K. Bullen (1973). The FLMNH undertook building wide fumigation with Vikane (sulfuryl fluoride) several times since this collection has entered the museum. No other exposure to potentially hazardous substances is known to FLMNH.

Cultural Affiliation

Based on the information available and the results of consultation cultural affiliation is reasonably identified by the geographical location of the human remains described in this notice.

Determinations

The FLMNH has determined that:

- The human remains described in this notice represent the physical remains of 14 individuals of Native American ancestry.
- The 22 objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a connection between the human remains and associated funerary objects described in this notice and the Seminole Tribe of Florida and The Muscogee (Creek) Nation.

authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

Repatriation of the human remains and associated funerary objects described in this notice to a requestor may occur on or after July 3, 2025. If competing requests for repatriation are received, the FLMNH must determine the most appropriate requestor prior to repatriation. The FLMNH is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.
