

permission to have authorized notices placed on the data at the contractor's expense. Contractors shall obtain from their subcontractors all data and rights necessary to fulfill the contractor's obligations to the Government under the contract. If a subcontractor refuses to accept terms affording the Government those rights, the contractor shall notify the contracting officer of the refusal.

FAR 52.227-15, Representation of Limited Rights Data and Restricted Computer Software. This provision requires an offeror to represent that it has reviewed the requirements for the delivery of technical data or computer software and state, in response to a solicitation, whether data proposed for fulfilling the data delivery requirements qualifies as limited rights data or restricted computer software. If the Government does not receive unlimited rights, the offeror must provide a list of the data that qualify as limited rights data or restricted computer software. The offeror would identify any proprietary data it would use during contract performance, in order that the contracting officer might ascertain if such proprietary data should be delivered.

FAR 52.227-16, Additional Data Requirements. This clause requires contractors to keep, for possible delivery to the Government, any data, in addition to data already required to be delivered under the contract, first produced or specifically used in performance of the contract for a period of three years from the final acceptance of all items delivered under the contract. The data delivered under this clause may be in the form of computations, preliminary data, records of experiments, etc. For any data to be delivered under this clause, the Government will pay the contractor for converting the data into a specific form, and for reproducing and delivering the data. The purpose of such recordkeeping requirements is to ensure that, if all data requirements are not known prior to contract award, the Government can fully evaluate the research in order to ascertain future activities and to insure that the research was completed and fully reported, as well as to give the public an opportunity to assess the research results and secure any additional information.

FAR 52.227-17, Rights in Data-Special Works. This clause is included in solicitations and contracts primarily for production or compilation of data. It is used in rare and exceptional circumstances to permit the Government to limit the contractor's rights in data by preventing the release, distribution, and publication of any data first produced in the performance of the

contract. This clause may also be limited to particular items and not the entire contract. This clause requires contractors to assign (with or without registration), or obtain the assignment of, the copyright to the Government or its designated assignee.

FAR 52.227-18, Rights in Data-Existing Works. This clause is used when the Government is acquiring existing audiovisual or similar works, such as books, without modification. This clause requires contractors to obtain a license for the Government to reproduce, prepare derivative works, and perform and display publicly the materials.

FAR 52.227-19, Commercial Computer Software License. This clause requires contractors to affix a notice on any commercial software delivered under the contract that provides notice that the Government's rights regarding the data are set forth in the contract.

FAR 52.227-20, Rights in Data-SBIR Program. This clause authorizes contractors under Small Business Innovation Research (SBIR) contracts to affix a notice to SBIR data delivered under the contract to limit the Government's rights to disclose data first produced under the contract. For omitted or incorrect markings of data that has not been disclosed without restriction outside the Government, the contractor may request, within 6 months (or a longer time approved by the contracting officer) after delivery of the data, permission to have authorized notices placed on the data at the contractor's expense. Contractors shall obtain from their subcontractors all data and rights necessary to fulfill the contractor's obligations to the Government under the contract. If a subcontractor refuses to accept terms affording the Government those rights, the contractor shall notify the contracting officer of the refusal.

FAR 52.227-21, Technical Data Declaration, Revision, and Withholding of Payment-Major Systems. This clause requires major systems contractors to certify that the data delivered under the contract is complete, accurate, and compliant with the requirements of the contract.

FAR 52.227-23, Rights to Proposal Data (Technical). This clause allows the Government to identify pages of a proposal that would not be subject to unlimited rights in the technical data.

The information collected is used to protect the Government's rights and interests.

[Notice BSC-RPM-2022-02; Docket No. BSC-RPM-2022-0004; Sequence 1]

Business Standards Council Review of Real Property Management Federal Integrated Business Framework Draft Business Data Elements: Request for Public Comment

AGENCY: Office of Government-wide Policy; General Services Administration, (GSA).

ACTION: Request for public comment.

SUMMARY: This notice informs the public of the opportunity to provide input on the proposed real property management business data elements that have been created in support of Federal shared services. This input will be used in the formulation of business standards for Federal real property management.

DATES: *Comments due:* Interested parties should submit comments by the method outlined in the **ADDRESSES** section immediately below on or before January 23, 2023.

ADDRESSES: Submit comments in response to Notice BSC-RPM-2022-02 by [Regulations.gov](https://www.regulations.gov): <http://www.regulations.gov>. Submit comments using the Federal eRulemaking portal by searching for "Notice BSC-RPM-2022-02." Select the link "Comment Now" that corresponds with "Notice BSC-RPM-2022-02." SUPPLEMENTARY INFORMATION: On April 26, 2019, the Office of Management and Budget (OMB) published OMB memorandum M–19–16, “Centralized Mission Support Capabilities for the Federal Government” (available at <https://www.whitehouse.gov/wp-content/uploads/2019/04/M-19-16.pdf>). Mission support business standards, established and agreed to by the CFO Act agencies, using the Federal Integrated Business Framework website at <https://ussm.gsa.gov/fibf/>, enable the Federal Government to better coordinate on the decision-making needed to determine what mission support services can be adopted and commonly shared. These business standards are an essential first step towards agreement on outcomes, data, and cross-functional end-to-end processes that will drive economies of scale and leverage the government’s buying power. The business standards will be used as the foundation for common mission support services shared by the CFO Act agencies.

GSA serves as the real property management business standards lead on the Business Standards Council. The goal of the real property management business standards is to drive real estate management consistency, equity, and standardization across the Federal Government.

GSA is seeking public feedback on these draft business data elements, including comments on the understandability of the standards, suggested changes, and usefulness of the draft standards to industry and agencies.

Guiding questions in the standards development include:

- Do the draft business standards appropriately document the business processes covered?
- Are the draft business standards easy to understand?
- Will your organization be able to show how your solutions or services, or both, can meet these draft business standards?

• What would you change about the draft business standards? Is there anything missing?

Comments will be used in the formulation of the final real property management business standards.

Saul Japson,

Acting Associate Administrator, Office of Government-wide Policy, General Services Administration.
