SUPPLEMENTARY INFORMATION:

I. Background

Section 404(c) of ERISA provides that if an individual account pension plan permits a participant or beneficiary to exercise control over assets in his account and the participant or beneficiary in fact exercises such control, that participant or beneficiary shall not be deemed to be a fiduciary by such exercise of control, and that no person otherwise a fiduciary shall be liable for any loss or breach that results from this exercise of control.

The opportunity to exercise control includes the opportunity to obtain sufficient information to make informed decisions with respect to investment alternatives. This regulation describes the type and extent of information required to be made available to participants and beneficiaries for this purpose. In the absence of such disclosures, participants might not be able to make informed decisions about investing their individual accounts, and persons who are otherwise fiduciaries with respect to these plans would not be afforded relief from the fiduciary responsibility provisions of Title I of ERISA with respect to these transactions.
