

Background

On May 10, 2012, Commerce published the AD orders on OBAs from the China and Taiwan.¹ On November 27, 2017, Commerce published the most recent continuation of the *Orders*.² On October 3, 2022, Commerce initiated the current sunset reviews of the *Orders* pursuant to section 751(c) of the Act.³ Consistent with 19 CFR 351.218(d)(1)(iii)(B), because no domestic interested party filed a *timely* notice of intent to participate in these proceedings,⁴ we concluded that “no domestic interested party has responded to the notice of initiation under section 751(c)(3)(A) of the Act,” and “{notified} the {U.S. International Trade Commission} in writing as such.”⁵

Scope of the Orders

The OBAs covered by the *Orders* are all forms (whether free acid or salt) of compounds known as triazinylaminostilbenes (*i.e.*, all derivatives of 4,4'-bis [1,3,5- triazin-2-yl]⁶ amino-2,2'- stilbenedisulfonic

acid), except for compounds listed in the following paragraph. The stilbenic OBAs covered by the *Orders* include final stilbenic OBA products, as well as intermediate products that are themselves triazinylaminostilbenes produced during the synthesis of stilbenic OBA products.

Excluded from the *Orders* are all forms of 4,4'-bis[4-anilino-6-morpholino-1,3,5-triazin-2-yl]⁷ amino-2,2'-stilbenedisulfonic acid, C40H40N12O8S2 (“Fluorescent Brightener 71”). The *Orders* cover the above-described compounds in any state (including but not limited to powder, slurry, or solution), of any concentrations of active stilbenic OBA ingredient, as well as any compositions regardless of additives (*i.e.*, mixtures or blends, whether of stilbenic OBAs with each other, or of stilbenic OBAs with additives that are not stilbenic OBAs), and in any type of packaging.

These OBAs are classifiable under subheading 3204.20.8000 of the Harmonized Tariff Schedule of the United States (HTSUS), but they may also enter under subheadings 2933.69.6050, 2921.59.4000 and 2921.59.8090. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

Revocation

Pursuant to section 751(c)(3)(A) of the Act, if no domestic interested party responds to a notice of initiation, Commerce shall, within 90 days after the initiation of review, revoke the order. Because no domestic interested party filed a *timely* notice of intent to participate in these proceedings, consistent with 19 CFR 351.218(d)(1)(iii)(B), we concluded that “no domestic interested party has responded to the notice of initiation under section 751(c)(3)(A) of the Act.” Consequently, Commerce is revoking the *Orders*.

Effective Date of Revocation

Pursuant to section 751(c)(3)(A) of the Act and 19 CFR 351.222(i)(2)(i), Commerce intends to instruct U.S. Customs and Border Protection to terminate the suspension of liquidation of the merchandise subject to the *Orders* entered, or withdrawn from the warehouse, on or after November 27, 2022, the fifth anniversary of the date of publication of the last continuation notice.⁸ Entries of subject merchandise

prior to the effective date of revocation will continue to be subject to suspension of liquidation and AD deposit requirements. Commerce will complete any pending reviews of these orders and will conduct administrative reviews of subject merchandise entered prior to the effective date of revocation in response to appropriately filed requests for review.

Notification to Interested Parties

We are issuing and publishing these final results in accordance with sections 751(c) and 777(i)(1) of the Act, and 19 CFR 351.218(f)(4) and 19 CFR 351.222(i)(1)(i).

Dated: December 22, 2022.

Assistant Secretary for Enforcement and Compliance.

SUPPLEMENTARY INFORMATION:**Background**

Regulations at 50 CFR part 679, subpart E, governing the Observer Program, require the deployment of NMFS-certified observers (observers) and electronic monitoring (EM) systems to collect information necessary for the conservation and management of the Bering Sea and Aleutian Islands (BSAI) and Gulf of Alaska (GOA) groundfish and halibut fisheries. Fishery managers use information collected by observers and EM to monitor quotas, manage groundfish and prohibited species catch, and document and reduce fishery interactions with protected resources. Scientists use observer-collected
