Notification to Interested Parties

Interested parties must submit applications for disclosure under APO in accordance with 19 CFR 351.305. Parties wishing to participate in these investigations should ensure that they meet the requirements of 19 CFR 351.103(d) (e.g., by filing the required letter of appearance). Note that Commerce has temporarily modified certain of its requirements for serving documents containing business proprietary information, until further notice.⁴⁶

This notice is issued and published pursuant to sections 732(c)(2) and 777(i) of the Act, and 19 CFR 351.203(c).

Dated: August 17, 2023.

Lisa W. Wang,

Assistant Secretary for Enforcement and Compliance.

Appendix—Scope of the Investigations

The products covered by these investigations are all types of youth and adult mattresses. The term “mattress” denotes an assembly of materials that at a minimum includes a “core,” which provides the main support system of the mattress, and may consist of innersprings, foam, other resilient filling, or a combination of these materials. Mattresses also may contain: (1) “upholstery,” the material between the core and the top panel of the ticking on a single-sided mattress, or between the core and the top and bottom panel of the ticking on a double-sided mattress; and/or (2) “ticking,” the outermost layer of fabric or other material (e.g., vinyl) that encloses the core and any upholstery, also known as a cover.

The scope of these investigations is restricted to only “adult mattresses” and “youth mattresses.” “Adult mattresses” are frequently described as “twin,” “extra-long twin,” “full,” “queen,” “king,” or “California king” mattresses. “Youth mattresses” are typically described as “crib,” “toddler,” or “youth” mattresses. All adult and youth mattresses are included regardless of size and size description or how they are described (e.g., frameless futon mattress and tri-fold mattress).

The scope encompasses all types of “innerspring mattresses,” “non-innerspring mattresses,” and “hybrid mattresses.” “Innerspring mattresses” contain innersprings, a series of metal springs joined together in sizes that correspond to the dimensions of mattresses. Mattresses that contain innersprings are referred to as “innerspring mattresses” or “hybrid mattresses.” “Hybrid mattresses” contain two

or more support systems as the core, such as layers of both memory foam and innerspring units.

“Non-innerspring mattresses” are those that do not contain any innerspring units. They are generally produced from foams (e.g., polyurethane, memory (viscoelastic), latex foam, gel infused viscoelastic (gel foam), thermobonded polyester, polyethylene) or other resilient filling.

Mattresses covered by the scope of these investigations may be imported independently, as part of furniture or furniture mechanisms (e.g., convertible sofa bed mattresses, sofa bed mattresses imported with sofa bed mechanisms, corner group mattresses, day-bed mattresses, roll-away bed mattresses, high risers, trundle bed mattresses, crib mattresses), or as part of a set (in combination with a “mattress foundation”). “Mattress foundations” are any base or support for a mattress. Mattress foundations are commonly referred to as “foundations,” “boxsprings,” “platforms,” and/or “bases.” Bases can be static, foldable, or adjustable. Only the mattress is covered by the scope if imported as part of furniture, with furniture mechanisms, or as part of a set, in combination with a mattress foundation.

Excluded from the scope of these investigations are “futon” mattresses. A “futon” is a bi-fold frame made of wood, metal, or plastic material, or any combination thereof, that functions as both seating furniture (such as a couch, love seat, or sofa) and a bed. A “futon mattress” is a tufted mattress, where the top covering is secured to the bottom with thread that goes completely through the mattress from the top through to the bottom, and it does not contain innersprings or foam. A futon mattress is both the bed and seating surface for the futon.

Also excluded from the scope are airbeds (including inflatable mattresses) and waterbeds, which consist of air- or liquid-filled bladders as the core or main support system of the mattress.

Also excluded is certain multifunctional furniture that is convertible from seating to sleeping, regardless of filler material or components, where such filler material or components are upholstered, integrated into the design and construction of, and inseparable from, the furniture framing, and the outermost layer of the multifunctional furniture converts into the sleeping surface. Such furniture may, and without limitation, be commonly referred to as “convertible sofas,” “sofabeds,” “sofa chaise sleepers,” “futons,” “ottoman sleepers,” or a like description.

Also excluded from the scope of these investigations are any products covered by the existing antidumping duty orders on uncovered innerspring units from the People’s Republic of China, South Africa, and the Socialist Republic of Vietnam. See *Uncovered Innerspring Units from the People’s Republic of China, South Africa, and Socialist Republic of Vietnam: Continuation of Antidumping Duty Orders*, 84 FR 55285 (October 16, 2019).

Also excluded from the scope of these investigations are bassinet pads with a

nominal length of less than 39 inches, a nominal width of less than 25 inches, and a nominal depth of less than 2 inches.

Additionally, also excluded from the scope of these investigations are “mattress toppers.” A “mattress topper” is a removable bedding accessory that supplements a mattress by providing an additional layer that is placed on top of a mattress. Excluded mattress toppers have a height of four inches or less.

The products subject to these investigations are currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) subheadings: 9404.21.0010, 9404.21.0013, 9404.21.0095, 9404.29.1005, 9404.29.1013, 9404.29.1095, 9404.29.9085, 9404.29.9087, and 9404.29.9095. Products subject to these investigations may also enter under HTSUS subheadings: 9401.41.0000, 9401.49.0000, and 9401.99.9081. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise subject to these investigations is dispositive.

National Oceanic and Atmospheric Administration

Final Revised Management Plan for the He’eia National Estuarine Research Reserve

AGENCY: Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration, Department of Commerce.

ACTION: Notice of approval for the final revised management plan for the He’eia National Estuarine Research Reserve.

SUMMARY: Notice is hereby given that the Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce approves the revised management plan for the He’eia National Estuarine Research Reserve in Hawai’i. In accordance with the Coastal Zone Management Act and its implementing regulations. The University of Hawai’i Institute of Marine Biology revised the reserve’s management plan, which replaces the management plan previously approved in 2016.

ADDRESSES: The revised management plan can be downloaded or viewed at <https://heeianerr.org/resources/>. The document is also available by sending a written request to the point of contact identified below.

FOR FURTHER INFORMATION CONTACT: Leah Keller of NOAA’s Office for

https://enforcement.trade.gov/tlei/notices/factual_info_final_rule_FAQ_07172013.pdf.

⁴⁶ See *Temporary Rule Modifying AD/CVD Service Requirements Due to COVID-19: Extension of Effective Period*, 85 FR 41363 (July 10, 2020).

Coastal Management, *leah.keller@noaa.gov*, (808) 465-2720.

SUPPLEMENTARY INFORMATION: Pursuant to 15 CFR 921.33(c), Hawai'i must revise the management plan for the He'eia National Estuarine Research Reserve at least every five years. Major changes to a reserve's management plan may be made only after receiving written approval from NOAA. NOAA approves changes to management plans via notice in the **Federal Register**. On July 22, 2022 NOAA issued a notice in the **Federal Register** announcing a thirty-day public comment period for the proposed revision of this management plan (87 FR 43790).

Appendix D of the plan contains a summary of written and oral comments received, and an explanation of how comments were incorporated.

The management plan outlines the reserve's strategic goals and objectives; administrative structure; programs for conducting research and monitoring, education, and training; resource protection, restoration, and manipulation plans; public access and visitor use plans; consideration for future land acquisition; and facility development to support reserve operations. Since 2016, this research reserve has supported community-led ahupua'a scale restoration in the He'eia estuary with the removal of 20 acres (80,000 square meters) of invasive mangroves and plants, replacing them with native plant species; agroforestry and lo'i cultivation; produced publications on Native Hawaiian land and sea management practices; and restored the He'eia fishpond.¹ As a newly established reserve, the reserve hired staff consisting of a reserve manager, research coordinator, education coordinator, coastal training program coordinator, and research technician. These staff play an important role in building community-supported education, research, stewardship, and training programming across the He'eia community. The reserve also installed and launched monitoring equipment across the ahupua'a to monitor water quality, abiotic and biotic features, and changes related to sea level rise and coastal inundation; completed needs assessments for education and training needs in He'eia; and supported various graduate assistants, fellows, and research interns. The revised management plan will serve as the

guiding document for the 1,385-acre (5.6-square kilometer) He'eia National Estuarine Research Reserve for the next five years.

NOAA reviewed the environmental impacts of the revised management plan and determined that this action is categorically excluded from further analysis under the National Environmental Policy Act, as amended, 42 U.S.C. 4321 *et seq.*, and the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA (40 CFR 1500-1508 (2022)), consistent with NOAA Administrative Order 216-6A.

Authority: 16 U.S.C. 1451 *et seq.*; 15 CFR 921.33.

Keelin S. Kuipers,

Deputy Director, Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration.

[RTID 0648-XD259]

South Atlantic Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meetings.

SUMMARY: The South Atlantic Fishery Management Council (Council) will hold meetings of the following: Mackerel Cobia Committee, Habitat Protection and Ecosystem-Based Management (Habitat) Committee, Southeast Data, Assessment and Review (SEDAR) Committee, and the Snapper Grouper Committee. The meeting week will also include a formal public comment session and a meeting of the Full Council.

DATES: The Council meeting will be held from 8:30 a.m. on Monday, September 11, 2023, until 12 p.m. on Friday, September 15, 2023.

ADDRESSES: *Meeting address:* The meeting will be held at the Town and Country Inn, 2008 Savannah Highway, Charleston, SC 29407; phone: (843) 571-1000. The meeting will also be available via webinar. See **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Kim Iverson, Public Information Officer, SAFMC; phone: (843) 302-8440 or toll

free: (866) SAFMC-10; fax: (843) 769-4520; email: *kim.iverson@safmc.net*.

SUPPLEMENTARY INFORMATION: Meeting information, including agendas, overviews, and briefing book materials will be posted on the Council's website at: <http://safmc.net/safmc-meetings/council-meetings/>. Webinar registration links for the meeting will also be available from the Council's website.

Public comment: Public comment on agenda items may be submitted through the Council's online comment form available from the Council's website at: <http://safmc.net/safmc-meetings/council-meetings/>. Written comments will be accepted from August 25, 2023, until September 15, 2023. These comments are accessible to the public, part of the Administrative Record of the meeting, and immediately available for Council consideration. A formal public comment session will also be held during the Council meeting.

The items of discussion in the individual meeting agendas are as follows:

Council Session I, Monday, September 11, 2023, 8:30 a.m. Until 5 p.m.

The Council will receive reports from state agencies, Council liaisons, NOAA Office of Law Enforcement, and the U.S. Coast Guard. The Council will review public hearing comments on the Joint Commercial Electronic Logbook Amendment and consider approving the amendment for Secretarial review. The Council will receive updates on East Coast Climate Change Scenario Planning, the Council's Allocation Review Process, the Southeast Reef Fish Monitoring Survey (SERFS), and the Southeast Area Monitoring and Assessment Program (SEAMAP). The Council will receive information on a Marine Recreational Information Program pilot study on the recreational Fishing Effort Survey design. The Council will also discuss the National Marine Fisheries Service (NMFS) Draft Procedural Directive providing guidance on Council authority for stocks that may extend across the geographic areas of more than one Council.

Mackerel Cobia Committee, Tuesday, September 12, 2023, 8:30 a.m. Until 10 a.m.

The Committee will review options for Amendment 13 to the Coastal Migratory Pelagics Fishery Management Plan addressing catch level adjustments for Spanish mackerel. The Committee will also receive an update on plans for conducting port meetings for the mackerel fishery.

¹ An ahupua'a is a Hawaiian conceptualization of community that typically extends from the mountains to the ocean, and includes zones for forest, various forms of indigenous agro-ecology and aquaculture, as well as nearshore zones for fisheries management.
