Tetraethyl Orthosilicate; Exemption From the Requirement of a Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes an exemption from the requirement of a

tolerance for residues of tetraethyl orthosilicate when used as an inert ingredient (binder) in pesticides applied to growing crops and raw agricultural commodities after harvest and pesticides applied to animals. Exponent on behalf of LNouvel, Inc. submitted a petition to EPA under the Federal Food, Drug, and Cosmetic Act (FFDCA), requesting establishment of an exemption from the requirement of a tolerance. This regulation eliminates the need to establish a maximum permissible level for residues of tetraethyl orthosilicate when used in accordance with the terms of this exemption.

DATES: This regulation is effective July 10, 2020. Objections and requests for hearings must be received on or before September 8, 2020, and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).
