

recreational BFT fishery. Under the Atlantic Tunas Convention Act of 1975 (ATCA, 16 U.S.C. 971), the United States is required to adopt regulations, as necessary and appropriate, to implement recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT), including recommendations on a specified BFT quota. BFT catch reporting helps the U.S. monitor this quota monitoring and supports scientific research consistent with ATCA and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act, 16 U.S.C. 1801 *et seq.*). Recreational anglers are required to report specific information regarding their catch after they land a BFT.

Atlantic billfish and swordfish are managed internationally by ICCAT and nationally under ATCA and the Magnuson-Stevens Act. This collection provides information needed to monitor the recreational catch of Atlantic blue and white marlin, which is applied to the recreational limit established by ICCAT, and the recreational catch of North Atlantic swordfish, which is applied to the U.S. quota established by ICCAT. This collection also provides information on recreational landings of West Atlantic sailfish which is unavailable from other established monitoring programs. Collection of sailfish catch information is authorized under the Magnuson-Stevens Act for purposes of stock management.

II. Method of Collection

Respondents reporting BFT landings in states (and the United States Virgin Islands and Puerto Rico) other than Maryland and North Carolina may use either an internet Web site or an interactive voice response (IVR) telephone system. Respondents reporting Atlantic marlin, West Atlantic sailfish, or North Atlantic swordfish in states (and the United States Virgin Islands and Puerto Rico) other than Maryland or North Carolina may use either an internet Web site or a toll-free telephone number to report landings information. In Maryland and North Carolina, a paper reporting system is used for all of the aforementioned species. Under state law, respondents in Maryland and North Carolina must submit a landing card at a state-operated reporting station. States that participate in a landing card program must submit weekly reports and one annual report to NOAA to summarize landings and results to date.

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Gulf of Mexico Individual Fishing Quota Program Regulations

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: NMFS, Southeast Region, will hold workshops to discuss administrative changes to the Gulf of Mexico Individual Fishing Quota (IFQ) programs. Workshops will be open to the public. Topics to be discussed during the workshops include: Ex-vessel price reporting, share and allocation price reporting, landing notification and landing transaction procedures, measures to enhance IFQ enforceability, offloading requirements, and other administrative changes.

DATES: The workshop dates are:

1. Wednesday, September 5, 2012, 6 p.m. to 8 p.m., Galveston, TX;
2. Tuesday, September 18, 2012, 6 p.m. to 8 p.m., Madeira Beach, FL; and
3. Wednesday, September 19, 2012, 6 p.m. to 8 p.m., Panama City, FL.

ADDRESSES: The workshop locations are:

1. Galveston—Holiday Inn, 5002 Seawall Boulevard, Galveston, TX;
2. Madeira Beach—City of Madeira Beach, 300 Municipal Drive, Madeira Beach, FL; and
3. Panama City—Courtyard Marriott, 905 East 23rd Place, Panama City, FL.

FOR FURTHER INFORMATION CONTACT:

NMFS, Southeast Regional Office, IFQ Customer Service, phone: 866-425-7627; email: SER-IFQ.Support@noaa.gov.

SUPPLEMENTARY INFORMATION: The primary purpose of these workshops is to discuss potential changes to Gulf of Mexico IFQ programs. The red snapper IFQ program was implemented in 2007 and the grouper-tilefish IFQ program was implemented in 2010. During this time frame, NMFS has received input and comments from fishermen, dealers, and state and Federal law enforcement agents on potential administrative changes to the IFQ program. Additionally, price reporting problems associated with submission of ex-vessel, share, and allocation price data are hindering NMFS from fully evaluating the economic effects of the IFQ program. NMFS is seeking input from fishermen, dealers, and other constituents on ways to improve price reporting. NMFS is also seeking input on procedural changes to landing notifications, landing transactions, offloading requirements, and other measures intended to enhance IFQ enforcement. No management actions will be decided at the workshops. Constituents will be asked to provide recommendations for further consideration by NMFS.
