#### FOR FURTHER INFORMATION CONTACT:

Andrew Hon, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington DC 20555-0001; telephone: 301-415-8480, email: [Andrew.Hon@nrc.gov](mailto:Andrew.Hon@nrc.gov).

**SUPPLEMENTARY INFORMATION:** The NRC has granted the request of Tennessee Valley Authority (the licensee) to withdraw its October 2, 2013, application (ADAMS Accession No. ML13280A267) for proposed amendment to Facility Operating License Nos. DPR-77 and DPR-79 issued to the licensee for operation of the Sequoyah Nuclear Plant, Units 1 and 2, located in Hamilton County, Tennessee.

The licensee requested to revise Units 1 and 2 TSs 3.7.5, "Ultimate Heat Sink," to place additional limitations on the maximum average Essential Raw Cooling Water (ERCW) System supply header water temperature during operation with one ERCW pump per loop and operation with one ERCW supply strainer per loop. In addition, the one-time limitations on Unit 1 ultimate heat sink (UHS) temperature and the associated license condition requirements used for the Unit 2 steam generator replacement project are proposed to be deleted. The proposed changes would place additional temperature limitations on the UHS TS Limiting Condition for Operation 3.7.5 with associated required actions, to support maintenance on plant component without requiring a dual unit shutdown.

This proposed amendment request was noticed in 78 FR 74184 dated December 10, 2013 and supplemented by letters dated December 11, 2013 (ML13354A715), August 18, 2014 (ML14231B294) and October 22, 2015 (ML15295A427).

Dated at Rockville, Maryland, this 28th day of October 2015.

For the Nuclear Regulatory Commission.

**Shana R. Helton,**

*Chief, Plant Licensing Branch II-2, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.*

## PRIVACY AND CIVIL LIBERTIES OVERSIGHT BOARD

**[Notice-PCLOB-2015-05; Docket No. 2015-0001; Seq. No. 5]**

### Notice of a Closed Meeting

Time and Date: Monday, November 9, 2015 from 9:30 a.m. through 12:30 p.m. (Eastern Standard Time).

Place: 2100 K Street NW., Washington, DC 20427.

Status: Closed. Pursuant to 5 U.S.C. 552b(c)(1) and 6 CFR 1003.5(a), it has been determined that this meeting will be closed to the public as the Board will be reviewing and discussing matters properly classified in accordance with Executive Order 13526.

Matters To Be Considered: On April 8, 2015, during an open Sunshine Act meeting, the Board voted to select certain counterterrorism-related activities governed by Executive Order 12333, and conduct focused, in-depth examinations of those activities. The November 9, 2015 closed meeting will discuss these in-depth examinations.

Contact Person for More Information: Ms. Sharon Bradford Franklin, Executive Director, 202-331-1986.

Dated: November 2, 2015.

**Eric Broxmeyer,**

*General Counsel, Privacy and Civil Liberties Oversight Board.*

## OFFICE OF SCIENCE AND TECHNOLOGY POLICY

### Identifying Sources of Agricultural Innovation

**ACTION:** Notice of Request for Information.

**SUMMARY:** The purpose of this Request for Information (RFI) is to discover new ideas that will spur innovation in agriculture and food systems and raise the profile of agricultural research. According to recent projections from The United Nations, the global population could reach 9.15 billion people by 2050. In the future, to meet the demand for food and other plant-derived products from a global

population of this size, an increase of global agriculture production by as much as 70 percent will be required. More than four-fifths of the necessary production gains will need to occur on existing agricultural land through sustainable intensification that makes effective use of land and water resources. The Office of Science and Technology Policy (OSTP) therefore seeks information about programs, public or private, that are actively working to innovate agricultural science, as well as areas of need in research, education, and training. Input is sought from biological and agricultural stakeholders, including researchers in academia and industry, non-governmental organizations, scientific and professional societies, and other interested members of the public.

**DATES:** Responses must be received by December 4, 2015 to be considered.

**ADDRESSES:** You may submit responses by any of the following methods (webform is preferred):

- **Webform:** Use <https://www.whitehouse.gov/webform/request-information-agricultural-innovation> to submit responses.

- **Mail:** ATTN: Elizabeth Stulberg, Office of Science and Technology Policy, 1650 Pennsylvania Avenue NW., Washington, DC 20504. If submitting a response by mail, please allow sufficient time for mail processing.

**Instructions:** Response to this RFI is voluntary. Respondents need not reply to all questions; however, they should clearly indicate the number of each question to which they are responding. Responses must be unclassified and should not contain any information that might be considered proprietary, confidential, or personally identifying (such as home address or social security number). Responses to this RFI may be posted without change online. Please note that the U.S. Government will not pay for response preparation, or for the use of any information contained in the response.

**FOR FURTHER INFORMATION CONTACT:** Elizabeth Stulberg, [estulberg@eop.ostp.gov](mailto:estulberg@eop.ostp.gov), Office of Science and Technology Policy, Science Division.

#### SUPPLEMENTARY INFORMATION:

#### Information Requested

The purpose of this RFI is to solicit feedback from researchers in academia and industry, non-governmental organizations, scientific and professional societies, and other interested members of the public on the research, education, and training programs that are successfully working to push the cutting edge of agricultural
