

Objectives and Scope of FESAC Activities

The Committee advises the Directors of the Bureau of Economic Analysis (BEA) and the U.S. Census Bureau, as well as the Commissioner of the U.S. Department of Labor's Bureau of Labor Statistics (BLS), on statistical methodology and other technical matters related to the design, collection, tabulation, and analysis of federal economic statistics.

Description of the FESAC Member Duties

The Committee functions solely as an advisory committee to the senior officials of BEA, the Census Bureau, and BLS (the agencies). Important aspects of the committee's responsibilities include, but are not limited to:

- a. Recommending research to address important technical problems arising in federal economic statistics.
- b. Identifying areas in which better coordination of the agencies' activities would be beneficial;
- c. Exploring ways to enhance the agencies' economic indicators to make them timelier, more accurate, and more specific to meeting changing demands and future data needs;
- d. Improving the means, methods, and techniques to obtain economic information needed to produce current and future economic indicators; and
- e. Coordinating, in its identification of agenda items, with other existing academic advisory committees chartered to provide agency-specific advice, for the purpose of avoiding duplication of effort.

The Committee meets once or twice a year, budget permitting. Additional meetings may be held as deemed necessary by the Under Secretary for Economic Affairs or the Designated Federal Official. All Committee meetings are open to the public in accordance with the Federal Advisory Committee Act.

FESAC Membership

The Committee will comprise approximately 16 members who serve at the pleasure of the Secretary of Commerce. Members shall be appointed by the Under Secretary for Economic Affairs in consultation with the agencies. Committee members shall be professionals in appropriate disciplines, including economists, statisticians, survey methodologists, computer scientists, data scientists, and behavioral scientists who are experts in their fields, recognized for their scientific, professional, and operational achievements and objectivity.

Membership will represent data users with expertise from the public sector, academia, and the private sector. Members will be chosen to achieve a balanced membership that will meet the needs of the agencies.

Members shall serve as Special Government Employees (SGEs) and shall be subject to ethics rules applicable to SGEs.

A FESAC member term is three years.

Members may serve more than one term as described in the FESAC Charter, available at: <https://apps.bea.gov/fesac/>.

Compensation for Members

Members of the Committee serve without compensation but may receive reimbursement for Committee-related travel and lodging expenses.

Solicitation of Nominations

The Committee is currently filling one or more positions on the FESAC.

The Under Secretary of Economic Affairs, in consultation with the agencies, will consider nominations of all qualified individuals to ensure that the Committee includes the areas of experience noted above. Individuals may nominate themselves or other individuals, and professional associations and organizations may nominate one or more qualified persons for membership on the Committee. Nominations shall state that the nominee is willing to serve as a member and carry out the duties of the Committee. A nomination package should include the following information for each nominee:

1. A letter of nomination stating the name, affiliation, and contact information for the nominee, the basis for the nomination (*i.e.*, what specific attributes recommend the nominee for service in this capacity), and the nominee's field(s) of experience;
2. a biographical sketch of the nominee;
3. a copy of the nominee's curriculum vitae; and
4. the name, return address, email address, and daytime telephone number at which the nominator can be contacted.

The Committee aims to have a balanced representation among its members, considering such factors as geography, age, sex, race, ethnicity, technical expertise, community involvement, and knowledge of programs and/or activities related to FESAC. Individuals will be selected based on their expertise in or representation of specific areas as needed by FESAC.

All nomination information should be provided in a single, complete package. Interested applicants should send their nomination package to Gianna Marrone, Committee Management Official, at Gianna.Marrone@bea.gov (subject line "FESAC Nomination").

Authority: Federal Advisory Committee Act (FACA), as amended, 5 U.S.C., App.

Dated: October 13, 2022.

Sabrina L. Montes,

Bureau of Economic Analysis, Designated Federal Official, Federal Economic Statistics Advisory Committee.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XC447]

Atlantic Highly Migratory Species; Atlantic Highly Migratory Species Southeast Data, Assessment, and Review Workshops Advisory Panel

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; nominations for shark stock assessment advisory panel.

SUMMARY: NMFS solicits nominations for the Atlantic Highly Migratory Species (HMS) Southeast Data, Assessment, and Review (SEDAR) Workshops Advisory Panel, also known as the "SEDAR Pool." The SEDAR Pool is comprised of a group of individuals who may be selected to consider data and advise NMFS regarding the scientific information including, but not limited to, data and models used in stock assessments for oceanic sharks in the Atlantic Ocean, Gulf of Mexico, and Caribbean Sea. Nominations are being sought for 5-year appointments (2023–2028). Individuals with definable interests in the recreational and commercial fishing and related industries, environmental community, academia, and non-governmental organizations will be considered for membership on the SEDAR Pool.

DATES: Nominations must be received on or before November 23, 2022.

ADDRESSES: You may submit nominations and request the SEDAR Pool Statement of Organization, Practices, and Procedures electronically via email to SEDAR.pool@noaa.gov.

Additional information on SEDAR and the SEDAR guidelines can be found

at <http://sedarweb.org/>. The terms of reference for the SEDAR Pool, along with a list of current members, can be found at <https://www.fisheries.noaa.gov/atlantic-highly-migratory-species/southeast-data-assessment-and-review-and-atlantic-highly>.

FOR FURTHER INFORMATION CONTACT: Karyl Brewster-Geisz, (301) 425–8503.
SUPPLEMENTARY INFORMATION: Atlantic HMS fisheries (tunas, billfish, swordfish, and sharks) are managed under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act; 16 U.S.C. 1801 *et seq.*) and the Atlantic Tunas Convention Act (16 U.S.C. 971 *et seq.*). The 2006 Consolidated Atlantic HMS Fishery Management Plan (2006 Consolidated HMS FMP) and its amendments are implemented by regulations at 50 CFR part 635.

Background

Section 302(g)(2) of the Magnuson-Stevens Act states that each Council shall establish such advisory panels as are necessary or appropriate to assist it in carrying out its functions under the Act. For the purposes of this section, NMFS applies the above provision to Atlantic HMS management (see section 304(g)(1) of the Magnuson-Stevens Act, which provides that the Secretary will prepare FMPs for HMS and consult with advisory panels under section 302(g) for such FMPs). As such, NMFS has established the SEDAR Pool under this section. The SEDAR Pool currently consists of 32 individuals, each of whom may be selected to review data and advise NMFS regarding the scientific information including, but not limited to, data and models used in stock assessments for oceanic sharks in the Atlantic Ocean, Gulf of Mexico, and Caribbean Sea. While the SEDAR Pool was created specifically for Atlantic oceanic sharks, it may be expanded to include other HMS, as needed.

The primary responsibility of individuals in the SEDAR Pool is to review, at SEDAR workshops, the scientific information including, but not limited to, data and models used in stock assessments that are used to advise NMFS about the conservation and management of Atlantic HMS specifically, but not limited to, Atlantic sharks. Individuals in the SEDAR Pool, if selected for a particular workshop, may participate in the various data, assessment, and review workshops during the SEDAR process of any HMS stock assessment. In order to ensure that the review is unbiased, individuals who

participated in a data and/or assessment workshop for a particular stock assessment will not be allowed to serve as SEDAR Pool reviewers for the same stock assessment. However, these individuals may be asked to attend the review workshop to answer specific questions from the reviewers concerning the data and/or assessment workshops. Members of the SEDAR Pool may serve as members of other advisory panels concurrent with, or following, their service on the SEDAR Pool.

Procedures and Guidelines

A. Participants

The SEDAR Pool is comprised of individuals representing the commercial and recreational fishing communities for Atlantic sharks, the environmental community active in the conservation and management of Atlantic sharks, and the academic community that have relevant expertise either with sharks and/or stock assessment methodologies for marine fish species. In addition, individuals who may not necessarily work directly with sharks, but who are involved in fisheries with similar life history, biology, and fishery issues may be part of the SEDAR Pool. Members of the SEDAR Pool must have demonstrated experience in the fisheries, related industries, research, teaching, writing, conservation, or management of marine organisms. The distribution of representation among the interested parties is not defined or limited.

Additional members of the SEDAR Pool may also include representatives from each of the 5 Atlantic Regional Fishery Management Councils, each of the 18 Atlantic states, both the U.S. Virgin Islands and Puerto Rico, and each of the relevant interstate commissions: the Atlantic States Marine Fisheries Commission and the Gulf States Marine Fisheries Commission.

If NMFS requires additional members to ensure a diverse pool of individuals for data or assessment workshops, NMFS may request individuals to become members of the SEDAR Pool outside of the annual nomination period.

SEDAR Pool members serve at the discretion of the Secretary. Not all members will attend each SEDAR workshop. Rather, NMFS will invite certain members to participate at specific stock assessment workshops dependent on their ability to participate, discuss, and offer scientific input and advice regarding the species being assessed.

NMFS is not obligated to fulfill any requests (*e.g.*, requests for an assessment

of a certain species) that may be made by the SEDAR Pool or its individual members. Members of the SEDAR Pool who are invited to attend stock assessment workshops will not be compensated for their services, but may be reimbursed for their travel-related expenses to attend such workshops.

B. Nomination Procedures for Appointments to the SEDAR Pool

Member tenure will be for 5 years. Nominations are sought for terms beginning early in 2023 and expiring in 2028. Nomination packages should include:

1. The name, address, phone number, and email of the applicant or nominee;
2. A description of the applicant's or nominee's interest in Atlantic shark stock assessments or the Atlantic shark fishery;
3. A statement of the applicant's or nominee's background and/or qualifications; and
4. A written commitment that the applicant or nominee shall participate actively and in good faith in the tasks of the SEDAR Pool, as requested.

C. Meeting Schedule

Individual members of the SEDAR Pool meet to participate in stock assessments at the discretion of the Office of Sustainable Fisheries, NMFS. Stock assessment timing, frequency, and relevant species will vary depending on the needs determined by NMFS and SEDAR staff. NMFS began in 2022 and will continue into 2024, a research track assessment to be followed by an operational assessment for the hammerhead shark species in the hammerhead shark management group. Following the hammerhead operational assessment, NMFS anticipates beginning a research track assessment for bull, spinner, tiger, and finetooth sharks. During an assessment year, meetings and meeting logistics will be determined according to the SEDAR Guidelines. All meetings are open for observation by the public.

Dated: October 19, 2022.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
