Draft Report on Carcinogens Monographs for 1-Bromopropane and Cumene; Availability of Documents; Request for Comments; Notice of Meeting

SUMMARY: Peer review meeting of the Draft Report on Carcinogens (RoC) Monographs for 1-Bromopropane and Cumene. These documents were prepared by the Office of the Report on Carcinogens (ORoC), Division of the National Toxicology Program (DNTP), National Institute of Environmental Health Sciences (NIEHS).

DATES: Meeting: March 21, 2013, 1:00 p.m. to approximately 5:00 p.m. Eastern Daylight Time (EDT) and March 22, 2013, from 8:30 a.m. until adjournment, approximately 2:00 p.m. EDT.

Document Availability: Draft monographs will be available by January

23, 2013, at <http://ntp.niehs.nih.gov/go/36639>.

Public Comments Submissions: Deadline is March 7, 2013.

Pre-Registration for Meeting and/or Oral Comments: Deadline is March 19, 2013.

ADDRESSES: *Meeting Location:* NIEHS, Keystone Building, Room 1003AB, 530 Davis Drive, Morrisville, NC 27560.

Agency Meeting Web page: The draft monographs, draft agenda, registration and other meeting materials are at <http://ntp.niehs.nih.gov/go/36639>.

Webcast: The meeting will be available via webcast at <http://www.niehs.nih.gov/news/video/index.cfm>.

FOR FURTHER INFORMATION CONTACT: Dr. Lori D. White, NTP Designated Federal Official, Office of Liaison, Policy and Review, DNTP, NIEHS, P.O. Box 12233, MD K2-03, Research Triangle Park, NC 27709. Phone: (919) 541-9834, Fax: (301) 480-3272, Email: whitel@niehs.nih.gov. Hand Delivery/Courier: 530 Davis Drive, Room 2136, Morrisville, NC 27560.

SUPPLEMENTARY INFORMATION:

Background: The Report on Carcinogens (RoC) is a congressionally mandated, science-based, public health report that identifies agents, substances, mixtures, or exposures (collectively called "substances") in our environment that may put people in the United States at increased risk for cancer. The NTP prepares the RoC on behalf of the Secretary of Health and Human Services.

The NTP follows an established, four-part process for preparation of the RoC (<http://ntp.niehs.nih.gov/go/rocprocess>). A RoC Monograph is prepared for each candidate substance selected for review for the RoC. 1-Bromopropane and cumene were selected as candidate substances following solicitation of public comment and review by the NTP Board of Scientific Counselors review on June 21-22, 2012 (<http://ntp.niehs.nih.gov/go/9741>). A draft RoC monograph consists of a (1) cancer evaluation component that reviews all information that may bear on a listing decision, assesses its quality and sufficiency for reaching a listing decision, applies the RoC listing criteria to the relevant scientific information, and recommends a listing status for the candidate substance in the RoC and (2) a substance profile that contains the NTP's preliminary listing recommendation and a summary of the scientific evidence considered key to reaching that recommendation. This meeting is planned for peer review of

the draft RoC Monographs for 1-bromopropane and cumene.

1-Bromopropane (CASRN 106-94-5) is a brominated hydrocarbon that is currently used as a solvent in a variety of industrial and commercial applications. It is used as a solvent cleaner to degrease electronics, precision optics, and metals, as a solvent vehicle in industries that use aerosolized adhesives (e.g., foam cushion manufacturing), as a spot remover in the textile industry, and as a solvent in the dry cleaning industry. Additional information about the review of 1-bromopropane for the RoC is available at <http://ntp.niehs.nih.gov/go/37896>.

Cumene (CASRN 98-82-8, isopropylbenzene) is an alkylated benzene found in fossil fuels, such as blended gasoline and kerosene, and products of incomplete combustion. It is a high production volume chemical in the United States with the majority of its use in the synthesis of acetone and phenol. Additional information about the review of cumene for the RoC is available at <http://ntp.niehs.nih.gov/go/37895>.

Meeting and Registration: The meeting is open to the public with time set aside for oral public comment; attendance at the NIEHS is limited only by the space available. The meeting is scheduled for March 21, 2013, 1:00 p.m. to approximately 5:00 p.m. EDT and March 22, 2013, from 8:30 a.m. until adjournment, approximately 2:00 p.m. EDT. Two days are set aside for the meeting; however, it may adjourn sooner if the panel completes its peer review of the draft monographs. Pre-registration to attend the meeting and/or provide oral comments is by March 19, 2013, at <http://ntp.niehs.nih.gov/go/36639>. Visitor and security information is available at <http://www.niehs.nih.gov/about/visiting/index.cfm>. Individuals with disabilities who need accommodation to participate in this event should contact Danica Andrews at phone: (919) 541-2595 or email: andrewsda@niehs.nih.gov. TTY users should contact the Federal TTY Relay Service at (800) 877-8339. Requests should be made at least five business days in advance of the event.

The preliminary agenda and draft monographs should be posted on the NTP Web site (<http://ntp.niehs.nih.gov/go/36639>) by January 23, 2013.

Additional information will be posted when available or may be requested in hardcopy, see **FOR FURTHER INFORMATION CONTACT**. Following the meeting, a report of the peer review will be prepared and made available on the NTP Web site. Registered attendees are

encouraged to access the meeting Web page to stay abreast of the most current information regarding the meeting.

Request for Comments: The NTP invites written and oral public comments on the draft monographs. The deadline for submission of written comments is March 7, 2013, to enable review by the peer review panel and NTP staff prior to the meeting. Pre-registration to provide oral comments is by March 19, 2013, at <http://ntp.niehs.nih.gov/go/36639>. Public comments and any other correspondence on the draft monographs should be sent to the **FOR FURTHER INFORMATION CONTACT**. Persons submitting written comments should include their name, affiliation, mailing address, phone, email, and sponsoring organization (if any) with the document. Written comments received in response to this notice will be posted on the NTP Web site, and the submitter will be identified by name, affiliation, and/or sponsoring organization.

Public comment at this meeting is welcome, with time set aside for the presentation of oral comments on the draft monographs. In addition to in-person oral comments at the meeting at the NIEHS, public comments can be presented by teleconference line. There will be 50 lines for this call; availability will be on a first-come, first-served basis. The lines will be open from 1:00 p.m. until approximately 5:00 p.m. EDT on March 21 and from 8:30 a.m. EDT until adjournment on March 22, although oral comments will be received only during the formal public comment periods indicated on the preliminary agenda. Each organization is allowed one time slot. At least 7 minutes will be allotted to each speaker, and if time permits, may be extended to 10 minutes at the discretion of the chair. Persons wishing to make an oral presentation are asked to register online at <http://ntp.niehs.nih.gov/go/36639> by March 19, 2013, and if possible, to send a copy of their slides and/or statement or talking points at that time. Written statements can supplement and may expand the oral presentation. Registration for oral comments will also be available at the meeting, although time allowed for presentation by on-site registrants may be less than that for pre-registered speakers and will be determined by the number of speakers who register on-site.

Background Information on the RoC: Published biennially, each edition of the RoC is cumulative and consists of substances newly reviewed in addition to those listed in previous editions. The 12th RoC, the latest edition, was published on June 10, 2011 (available at

<http://ntp.niehs.nih.gov/go/roc12>). The 13th RoC is under development. For each listed substance, the RoC contains a substance profile, which provides information on: Cancer studies that support the listing—including those in humans, animals, and studies on possible mechanisms of action—information about potential sources of exposure to humans, and current Federal regulations to limit exposures.

Background Information on NTP Peer Review Panels: NTP panels are technical, scientific advisory bodies established on an “as needed” basis to provide independent scientific peer review and advise the NTP on agents of public health concern, new/revised toxicological test methods, or other issues. These panels help ensure transparent, unbiased, and scientifically rigorous input to the program for its use in making credible decisions about human hazard, setting research and testing priorities, and providing information to regulatory agencies about alternative methods for toxicity screening. The NTP welcomes nominations of scientific experts for upcoming panels. Scientists interested in serving on an NTP panel should provide a current *curriculum vitae* to the **FOR FURTHER INFORMATION CONTACT**. The authority for NTP panels is provided by 42 U.S.C. 217a; section 222 of the Public Health Service (PHS) Act, as amended. The panel is governed by the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), which sets forth standards for the formation and use of advisory committees.
