**AGENCY:** Environmental Protection

Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to approve the West Virginia hospital/medical/infectious waste incinerator (HMIWI) 111(d)/129 plan submitted on August 18, 1999 by the West Virginia Division of Environmental Protection (WV DEP), and the subsequent plan amendment of April 19, 2000. The plan establishes emission limitations for existing

HMIWIs, and provides for the implementation and enforcement of those limitations. In the final rules section of today's Federal Register, EPA is approving the plan. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that rule, no further activity is contemplated in relation to this rule. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this rule. Clean Air Act Proposed Full Approval of Operating Permit Program; State of Montana

**AGENCY:** Environmental Protection

Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The EPA is preparing to approve the operating permit program submitted by the State of Montana. Montana's program was submitted for

the purpose of meeting the Federal Clean Air Act directive that states develop, and submit to EPA, programs for issuing operating permits to all major stationary sources and to certain other sources within the states' jurisdiction. In the "Rules and Regulations" section of this Federal Register, the EPA is promulgating full approval of the Montana program as a direct final rule without prior proposal because the State is currently running the program and the Agency views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for the approval is set forth in the preamble to the direct final rule. If no adverse comments are received in response to that rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action must do so at this time.
