**Glycine From the People's Republic of China: Extension of Preliminary Results of Antidumping Duty Administrative Review**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of extension of time limit for preliminary results of antidumping duty administrative review.

**SUMMARY:** The Department of Commerce ("the Department") is extending the time limit for the preliminary results of the review of glycine from the People's Republic of China. This review covers the period March 1, 2003, through February 29, 2004.

**EFFECTIVE DATE:** November 2, 2004.

**FOR FURTHER INFORMATION CONTACT:** Hallie Noel Zink, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone (202) 482-6907.

**Time Limits****Statutory Time Limits**

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order for which a review is requested and a final determination within 120 days after the date on which the preliminary determination is published. However, if it is not practicable to complete the review within these time periods, Section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary determination to a maximum of 365 days after the last day of the anniversary month.

**Background**

On April 28, 2004, the Department published a notice of initiation of the administrative review of the antidumping duty order on glycine from the People's Republic of China. See *Notice of Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 69 FR 23170 (April 28, 2004). The preliminary results of this administrative review are currently due no later than December 1, 2004.

**Extension of Time Limit for Preliminary Results of Review**

We determine that it is not practicable to complete the preliminary results of this review within the original time limit because the Department needs to gather more information in order to further analyze the Respondent's production process, as well as to evaluate what would be the most appropriate surrogate values to use during the period of review. Therefore, the Department is extending the time limit for completion of the preliminary results, 120 days, *i.e.*, until no later than March 31, 2005. This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: October 27, 2004.

[OMB Control No. 9000-0134]

**Submission for OMB Review; Environmentally Sound Products**

**AGENCIES:** Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of request for public comments regarding an extension to an existing OMB clearance.

**SUMMARY:** Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Federal Acquisition Regulation (FAR) Secretariat has submitted to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning environmentally sound products. A request for public comments was published at 69 FR 53420 on September 1, 2004. No comments were received.

**DATES:** Submit comments on or before December 2, 2004.

**FOR FURTHER INFORMATION CONTACT:** Craig Goral, Contract Policy Division, GSA (202) 501-3856.

**ADDRESSES:** Submit comments regarding this burden estimate or any other aspect

of this collection of information, including suggestions for reducing this burden to the General Services Administration, FAR Secretariat, 1800 F Street, NW, Room 4035, Washington, DC 20405. Please cite OMB Control No. 9000-0134, Environmentally Sound Products, in all correspondence.

**SUPPLEMENTARY INFORMATION:****A. Purpose**

This information collection complies with Section 6002 of the Resource Conservation and Recovery Act (RCRA) (42 U.S.C. 6962). RCRA requires the Environmental Protection Agency (EPA) to designate items which are or can be produced with recovered materials. RCRA further requires agencies to develop affirmative procurement programs to ensure that items composed of recovered materials will be purchased to the maximum extent practicable. Affirmative procurement programs required under RCRA must contain, as a minimum (1) a recovered materials preference program and an agency promotion program for the preference program; (2) a program for requiring estimates of the total percentage of recovered materials used in the performance of a contract, certification of minimum recovered material content actually used, where appropriate, and reasonable verification procedures for estimates and certifications; and (3) annual review and monitoring of the effectiveness of an agency's affirmative procurement program.

The items for which EPA has designated minimum recovered material content standards are (1) cement and concrete containing fly ash, (2) paper and paper products, (3) lubricating oil containing re-refined oil, (4) retread tires, and (5) building insulation products. The FAR rule also permits agencies to obtain pre-award information from offerors regarding the content of items which the agency has designated as requiring minimum percentages of recovered materials. There are presently no known agency designated items.

In accordance with RCRA, the information collection applies to acquisitions requiring minimum percentages of recovered materials, when the price of the item exceeds \$10,000 or when the aggregate amount paid for the item or functionally equivalent items in the preceding fiscal year was \$10,000 or more.

Contracting officers use the information to verify offeror/contractor compliance with solicitation and contract requirements regarding the use of recovered materials. Additionally, agencies use the information in the

annual review and monitoring of the effectiveness of the affirmative procurement programs required by RCRA.

## DEPARTMENT OF EDUCATION

### Notice of Proposed Information Collection Requests

**AGENCY:** Department of Education.

**SUMMARY:** The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

**DATES:** Interested persons are invited to submit comments on or before January 3, 2005.

**SUPPLEMENTARY INFORMATION:** Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) title; (3) summary of the collection; (4) description of the need for, and proposed use of, the information; (5) respondents and frequency of collection; and (6) reporting and/or recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.
