BILLING CODE 6335-01-P

Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Cook Inlet Beluga Whale Protection Pretest Economic Survey.

OMB Control Number: None.

Form Number(s): NA.

Type of Request: Regular submission (request for review of a new information collection).

Number of Respondents: 298.

Average Hours per Response: Full survey, 25 minutes. Follow-up telephone call with short interview, 5 minutes.

Burden Hours: 102.

Needs and Uses: The population of Cook Inlet beluga whales found in the Cook Inlet of Alaska is one of five distinct population segments in United States (U.S.) waters. It was listed as endangered under the Endangered Species Act on October 22, 2008 (73 FR 62919). The public benefits associated with the results of protection actions on the Cook Inlet beluga whale, such as population increases, are primarily the result of the non-consumptive value people attribute to such protection (e.g., active use values associated with being able to view beluga whales and passive use values unrelated to direct human use). Little is known about these values, yet such information is needed for decision makers to more fully understand the trade-offs involved in choosing among potential protection alternatives and to complement other information available about the costs, benefits, and impacts of protection alternatives.

The National Marine Fisheries Service plans to conduct a pilot survey to test a survey instrument that will be used to collect data for measuring the economic benefits the public receives for providing additional protection, beyond current levels, to the Cook Inlet beluga whale. These preferences are currently not known, but are needed to assist in the evaluation of alternative measures to further protect and recover the species' population, such as in the evaluation of critical habitat designations. The pilot survey consists of conducting a small-scale mail-telephone survey of U.S. households that will collect information needed to evaluate the survey instrument and implementation procedures.

Affected Public: Individuals or households.

Frequency: One time.

Respondent's Obligation: Voluntary.

**Gulf of the Farallones National Marine Sanctuary Permit Application Project
Titled: Fine Scale, Long-Term Tracking
of Adult White Sharks**

AGENCY: Office of National Marine Sanctuaries (ONMS), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Draft environmental assessment; notice of availability; request for public comment.

SUMMARY: The Gulf of the Farallones National Marine Sanctuary (GFNMS) has developed a draft environmental assessment (EA) pursuant to the National Environmental Policy Act (42 U.S.C. 4321, *et seq.*) to analyze the potential impacts of issuing a research permit that would allow the attraction and approach of white sharks in the sanctuary. The purpose of the proposed study is to improve our knowledge of the full migratory cycle of white sharks by attaching location transmitters to up to eleven (11) white sharks that seasonally visit the sanctuary. The EA is available for download on the web site: http://farallones.noaa.gov/eco/sharks/pdf/ea_mcsi_permit2009.pdf.

DATES: Comments on this draft environmental assessment may be made on or before October 15, 2010.

ADDRESSES: Comments may be submitted by any of the following methods:

BILLING CODE 3510-NK-P

DEPARTMENT OF COMMERCE**International Trade Administration**

Government Programs To Assist Businesses Protect Their Intellectual Property Rights (IPR) in Foreign Markets: Request of the International Trade Administration's Office of Intellectual Property Rights, Department of Commerce

AGENCY: Office of Intellectual Property Rights, International Trade Administration, Department of Commerce.

ACTION: Request for written submissions from the public.

SUMMARY: The Department of Commerce invites public input and participation in shaping government programs for protecting the intellectual property rights of U.S. businesses, including Small- and Medium-Sized Enterprises (SMEs), in foreign markets. As evidenced by the launch of the President's National Export Initiative, improving U.S. Government support for U.S. business in overseas markets is an Administration priority. Unfortunately, American exporters face various barriers to entry in overseas markets including barriers related to intellectual property rights.

In coordination with the Intellectual Property Enforcement Coordinator ("IPEC") and to implement certain action items in the 2010 Joint Strategic Plan on Intellectual Property Enforcement submitted to Congress by the IPEC, the Department of Commerce is conducting a comprehensive review of existing U.S. Government efforts to educate, guide, and provide resources to U.S. businesses that are:

1. Acquiring intellectual property rights in foreign markets;

2. Contemplating exporting intellectual property-based products or choosing markets for export;

3. Actively entering foreign markets or facing difficulties entering foreign markets; or

4. Encountering difficulties enforcing their intellectual property rights in foreign markets.

The goal of the review is to improve efforts to support U.S. businesses facing barriers related to intellectual property rights protection and enforcement in overseas markets.

The Department of Commerce is hereby requesting written submissions from the public. In responding, please consider the questions and information requests posed below, but do not limit comments to these areas.

1. Describe your level of familiarity with intellectual property rights in general and intellectual property rights in foreign markets in particular.

2. Identify specific challenges businesses, including SMEs, face in protecting their intellectual property rights abroad.

3. In what countries or regions do businesses need the most assistance protecting their intellectual property rights? In responding please prioritize any countries identified.

4. Which specific types of intellectual property (copyrights, trademarks, patents, trade secrets) present the most challenges to SMEs? Should U.S. government programs focus on specific areas of intellectual property protection?

5. Suggest particular outreach, programs or assistance that the government can provide that would help U.S. businesses overcome those challenges.

6. Describe your familiarity with or use of current U.S. Government services and tools related to IPR protection and enforcement in foreign markets, and assess their usefulness and/or gaps.

7. Assess the adequacy of the intellectual property resources, tools, services and programs that the U.S. government currently provides to SMEs.

8. What specific outreach formats (e.g., conferences, webinars, publications, podcasts) work best for educating U.S. businesses on how to protect their IPR abroad?

9. Identify specific existing programs provided by the U.S. Government or governments of other countries that have been particularly effective at assisting U.S. businesses with protecting their intellectual property rights in foreign markets (including, if possible, specific examples illustrating the effectiveness of those methods).

10. Identify specific existing programs involving cooperation between stakeholders and the U.S. Government (or between stakeholders and other

governments) that have been particularly effective at assisting SMEs with the protection of their IP in foreign markets.

11. What additional role(s) should the government play in assisting businesses with the protection of their intellectual property rights abroad?

12. Identify additional resources and tools the U.S. Government could provide to support SMEs as they enforce their intellectual property rights in foreign markets.

13. Identify the most effective and efficient ways to inform U.S. businesses of new and existing government offerings that support U.S. businesses in their efforts to protect their intellectual property abroad.

14. In a recent report by the International Trade Commission, combining resources through trade associations or through less formal groups was one strategy SMEs suggested to reduce trade barriers. Describe ways the government can support SMEs as they pool resources to combat infringement abroad.

DATES: Submissions must be received on or before Friday, October 29, 2010, at 5 p.m.

ADDRESSES: Comments must be in English. All comments should be sent electronically via <http://www.regulations.gov>, docket number ITA-2010-0006.

To submit comments to <http://www.regulations.gov>, find the docket by entering the number ITA-2010-0006 in the "Enter Keyword or ID" window at the <http://www.regulations.gov> home page and click "Search."
