

On July 25, 2023, Commerce notified the U.S. International Trade Commission (ITC) that it received an adequate substantive response from the respondent interested party and that, in accordance with 19 CFR 351.218(e)(2), it would conduct a full sunset review of the *Order*.⁸ For further details, see the Preliminary Decision Memorandum.⁹

Scope of the Order

The merchandise covered by this *Order* includes all grades and granulation sizes of citric acid, sodium citrate, and potassium citrate in their unblended forms, whether dry or in solution, and regardless of packaging type. For a full description of the scope of the *Order*, see the Preliminary Decision Memorandum.

Analysis of Comments Received

All issues raised in this sunset review are addressed in the Preliminary Decision Memorandum, including the likelihood of continuation or recurrence of dumping and the magnitude of the margins of dumping likely to prevail if the *Order* is revoked.¹⁰ A list of topics discussed in the Preliminary Decision Memorandum is included as the appendix to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. Preliminary Results of Sunset Review

Pursuant to sections 751(c)(1) and 752(c)(1) and (3) of the Act, Commerce determines that revocation of the *Order* would be likely to lead to continuation or recurrence of dumping at weighted-average dumping margins up to 19.30 percent.

Public Comment

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Service (NMFS) is requesting renewal of a currently approved collection of information. On October 10, 2008, NMFS published a final rule with regulations (0648–AS36) implementing seasonal speed restrictions along the east coast of the U.S. to reduce the incidence and severity of vessel collisions with endangered North Atlantic right whales (73 FR 60173). The final rule contained a mandatory collection-of-information requirement subject to the Paperwork Reduction Act (PRA). Specifically, 50 CFR 224.105(c) requires a logbook entry to document that a deviation from the speed limit was necessary for safe maneuverability under certain conditions. On November 18, 2021, the information collection was revised to include a voluntary survey of vessel operators to evaluate their ability and willingness to: (1) comply with North Atlantic right whale mandatory speed restrictions, and (2) cooperate with voluntary speed reduction efforts to protect North Atlantic right whales, which are promoted through NMFS outreach efforts. NOAA collects information from two types of vessels (pleasure yachts and large ocean-going vessels) in two different areas of the North Atlantic right whales' range using voluntary online surveys and small focus groups. The surveys collect information about vessel operators' time spent on the water, experience and knowledge about large whales, knowledge of North Atlantic vessel strike reduction efforts, opinions about these whales and conservation efforts, and their preferred means of receiving information. Results from this information collection will be used to develop effective outreach to these vessel communities, with the long-term goal of improving the communities' compliance with mandatory measures and cooperation with voluntary measures that support North Atlantic right whale vessel strike reduction conservation efforts.

II. Method of Collection

Vessel logbook entries are required from vessel operators if an exception to the vessel speed restriction is invoked, and the speed limit exceeded. Typically, paper logbooks are not routinely
