

Proposed Action, which are considered in the draft EIS. Under Alternative 1, the FAA would consider issuing a launch site operator license only for the operation of a launch site to support horizontal launches. This is considered a feasible alternative because a significant number of launches of horizontal LVs are projected, and most X Prize Cup activities would be located at the airfield.

Under Alternative 2, the FAA would consider issuing a launch site operator license only for the operation of a launch site to support vertical launches. This is considered a feasible alternative because a significant number of launches are projected to be of vertical LVs.

Under the No Action Alternative, the FAA would not issue a launch site operator license to the NMSA. Subsequently, the need to support commercial launches and host the X Prize Cup would not be met by the State of New Mexico.

Resource areas were considered to provide a context for understanding and assessing the potential environmental effects of the Proposed Action, with attention focused on key issues. The resource areas considered included compatible land use; Section 4(f) lands and farmlands; noise; visual resources and light emissions; historical, architectural, archaeological, and cultural resources; air quality; water quality, wetlands, wild and scenic rivers, coastal resources, and floodplains; fish, wildlife, and plants; hazardous materials, pollution prevention, and solid waste; socioeconomic, environmental justice, and children's environmental health and safety risks; and energy supply and natural resources. Construction impacts and secondary (induced) impacts are also considered. Additional analyses considered in the appendices include geology and soils; mineral resources; air space; health and safety; and transportation.

Petitions for Exemption

Docket No.: FAA-2006-25466.

Petitioner: Southwest Airlines Co.

Section of 14 CFR Affected:

§§ 121.391(a) and 121.393(b).

Description of Relief Sought: To clarify or amend Southwest Airlines, Co. (Southwest), current Exemption No. 9382, which allows Southwest to substitute a pilot for one required flight attendant crewmember during boarding at an intermediate stop and to reduce the number of required flight attendants onboard during the deplaning of passengers at an intermediate stop. The clarification or amendment Southwest seeks would broaden the exemption to include all stops from the time the aircraft door is opened upon arrival at the gate until the door is closed prior to the next flight operation. Southwest also requests that the certificate holder may substitute for the required flight attendants other persons qualified in the emergency evacuation procedures for that aircraft as required in § 121.417, for all stops, if these persons are identified to the passengers.
