SUPPLEMENTARY INFORMATION:

A. General

The Computer Matching and Privacy Protection Act of 1988, (Pub. L. 100–503), amended by the Privacy Act of 1974, (5 U.S.C. 552a) as amended, requires a Federal agency participating in a computer matching program to publish a notice in the **Federal Register** for all matching programs.

The Privacy Act, as amended, regulates the use of computer matching by Federal agencies when records contained in a Privacy Act System of

Records are matched with other Federal, State, or local government records. It requires Federal agencies involved in computer matching programs to:

(1) Negotiate written agreements with the other agency or agencies participating in the matching programs;

(2) Obtain the approval of the matching agreement by the Data Integrity Boards (DIB) of the participating Federal agencies;

(3) Publish notice of the computer matching program in the **Federal Register**;

(4) Furnish detailed reports about matching programs to Congress and OMB;

(5) Notify applicants and beneficiaries that their records are subject to matching; and

(6) Verify match findings before reducing, suspending, terminating, or denying a person's benefits or payments. The last notice for this matching program was published at 85 FR 83632 (December 22, 2020).

B. RRB Computer Matches Subject to the Privacy Act

We have taken appropriate action to ensure that all of our computer matching programs comply with the requirements of the Privacy Act, as amended.

Participating Agencies

Railroad Retirement Board (RRB) and the Social Security Administration (SSA), Match #1007.

Authority for Conducting the Matching Program

Section 7(b)(7) of the Railroad Retirement Act (45 U.S.C. 231f(b)(7)) provides that the Social Security Administration shall supply information necessary to administer the Railroad Retirement Act. Sections 202, 205(o) and 215(f) of the Social Security Act (42 U.S.C. 402, 405(o) and 415(f)) relate to benefit provisions, inclusion of railroad compensation together with wages for payment of benefits under certain circumstances, and the re-computation of benefits.

Purpose(s)

The RRB will, on a daily basis, obtain from SSA a record of the wages reported to SSA for persons who have applied for benefits under the Railroad Retirement Act and a record of the amount of benefits paid by that agency to persons who are receiving or have applied for benefits under the Railroad Retirement Act. The wage information is needed to compute the amount of the tier I annuity component provided by sections 3(a), 4(a) and 4(f) of the Railroad Retirement

Act (45 U.S.C. 231b(a), 45 U.S.C. 231c(a) and 45 U.S.C. 231c(f)). The benefit information is needed to adjust the tier I annuity component for the receipt of the Social Security benefit. This information is available from no other source.

Second, the RRB will receive from SSA the amount of certain social security benefits which the RRB pays on behalf of SSA. Section 7(b)(2) of the Railroad Retirement Act (45 U.S.C. 231f(b)(2)) provides that the RRB shall make the payment of certain social security benefits. The RRB also requires this information in order to adjust the amount of any annuity due to the receipt of a social security benefit. Section 10(a) of the Railroad Retirement Act (45 U.S.C. 231i(a)) permits the RRB to recover any overpayment from the accrual of social security benefits. This information is not available from any other source.

Third, once a year the RRB will receive from SSA a copy of SSA's Master Benefit Record for earmarked RRB annuitants. Section 7(b)(7) of the Railroad Retirement Act (45 U.S.C. 231f(b)(7)) requires that SSA provide the requested information. The RRB needs this information to make the necessary cost-of-living computation adjustments quickly and accurately for those RRB annuitants who are also SSA beneficiaries.

SSA will receive weekly from RRB earnings information for all railroad employees. SSA will match the identifying information of the records furnished by the RRB against the identifying information contained in its Master Benefit Record and its Master Earnings File. If there is a match, SSA will use the RRB earnings to adjust the amount of Social Security benefits in its Annual Earnings Reappraisal Operation. This information is available from no other source.

The SSA will also receive daily from RRB earnings information on selected individuals. The transfer of information may be initiated either by RRB or by SSA. SSA needs this information to determine eligibility to Social Security benefits and, if eligibility is met, to determine the benefit amount payable. Section 18 of the Railroad Retirement Act (45 U.S.C. 231q(2)) requires that earnings considered as compensation under the Railroad Retirement Act be considered as wages under the Social Security Act for the purposes of determining entitlement under the Social Security Act if the person has less than 10 years of railroad service or has 10 or more years of service but does not have a current connection with the

railroad industry at the time of his/her death.

Categories of Individuals

All applicants for benefits under the Railroad Retirement Act and current beneficiaries will have a record of any social security wages and the amount of any social security benefits furnished to the RRB by SSA. In addition, all persons who ever worked in the railroad industry after 1936 will have a record of their service and compensation furnished to SSA by RRB.

Information pertaining to the payment or denial of an individual's claim for benefits under the Railroad Retirement Act: Name, address, social security number, claim number, proofs of age, marriage, relationship, death, military service, creditable earnings and service months (including military service), entitlement to benefits under the Social Security Act, programs administered by the Veterans Administration, or other benefit systems, rates, effective dates, medical reports, correspondence and telephone inquiries to and about the beneficiary, suspension and termination dates, health insurance effective date, option, premium rate and deduction, direct deposit data, employer pension information, citizenship status and legal residency status (for annuitants living outside the United States), and tax withholding information (instructions of annuitants regarding number of exemptions claimed and additional amounts to be withheld, as well as actual amounts withheld for tax purposes).
