

Needs and Uses: The information collection requirement is necessary as a basis for certifying enterprises or individuals to have access to DoD export-controlled militarily critical technical data subject to the provisions of 32 CFR part 250. Enterprises and individuals that need access to unclassified DoD-controlled militarily critical technical data must certify on DD Form 2345, Militarily Critical Technical Data Agreement, that data will be used only in ways that will inhibit unauthorized access and maintain the protection afforded by U.S. export control laws. The information collected is disclosed only to the extent consistent with prudent business practices, current regulations, and statutory requirements and is so indicated on the Privacy Act Statement of DD Form 2345.

Affected Public: Individuals or households; businesses or other for-profit; not-for-profit institutions.

Annual Burden Hours: 2,667.

Number Of Respondents: 8,000.

Responses Per Respondent: 1.

Annual Responses: 8,000.

Average Burden Per Response: 20 minutes.

Frequency: On occasion.

Dated: July 22, 2025.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 6001-FR-P

DEPARTMENT OF DEFENSE

Department of the Navy

[Docket ID: USN-2025-HQ-0070]

Proposed Collection; Comment Request

AGENCY: Department of the Navy, Department of Defense (DoD).

ACTION: 60-Day information collection notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the United States Marine Corps announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be

collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by September 23, 2025.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: Department of Defense, Office of the Assistant to the Secretary of Defense for Privacy, Civil Liberties, and Transparency, 4800 Mark Center Drive, Mailbox #24, Suite 05F16, Alexandria, VA 22350-1700.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to Headquarters Marine Corps Records, Reports, Directives, and Forms Management Section, 3000 Marine Corps, Pentagon Rm. 2B253, ATTN: Mr. Mark Kazzi, or call 571-256-8883.

SUPPLEMENTARY INFORMATION:

Title; *Associated Form;* and **OMB Number:** Marine Corps Officer Candidate Program Suitability Forms; NAVMC Form 10469, NAVMC Form 10064; OMB Control Number 0712-0002.

Needs and Uses: This information collection is necessary for the United States Marine Corps to verify a potential officer candidate's suitability for service. This information collection request consists of two forms used in this process: NAVMC Form 10469, "Academic Certification for Marine Corps Officer Candidate Program," and NAVMC Form 10064, "Personal Information Questionnaire." The NAVMC Form 10469 collects information about the candidate's educational background, and the NAVMC Form 10064 is used to evaluate the candidate's moral character. To accomplish officer procurement

requirements prescribed in 10 U.S.C. 8042, 10 U.S.C. Chapter 32, the Marine Corps Recruiting Command (MCRC) Officer Commissioning Manual (MCRC Order 1100.02), and Marine Corps Order 1130.76D, the Marine Corps Officer Selection Officer (OSO) must prospect, screen, and contract qualified individuals. The NAVMC 10469 and 10064 forms are a vital part of this process.

The NAVMC Form 10469 is used to verify a potential officer candidate's academic background and standardized test scores. During their initial interview with an OSO, applicants provide information about the colleges or universities they have attended. The OSO emails the NAVMC Form 10469 to the Registrar's office of the institutions identified by the applicant. The school Registrar's office completes the form with information regarding the student's degree plan, major, credit hours, and grades. The respondent will then digitally sign the form and return it to the OSO via email. It is then uploaded into the potential officer's application via the Marine Corps Recruiting Command's Automated Commissioning Package (ACP) database.

The NAVMC 10064 is completed by the five-character references provided by potential applicants during the Marine Corps Officer Candidate application process. The OSO will contact the references and provide the PIQ via email for completion. Once a reference has completed the form, they will sign it electronically and return it to the OSO via email. In limited cases, the respondent may request to hand deliver their response to the OSO or receive/return the PIQ via the U.S. Postal Service. A prepaid envelope is provided to the respondent if required. The PIQ is used by the OSO and the selection board to assess the personal and moral character of an applicant and as a tool to better assess the possibility of them becoming a Marine Corps Officer.

Affected Public: Individuals or households.

NAVMC Form 10469

Annual Burden Hours: 875.

Number of Respondents: 3,500

Responses per Respondent: 1.

Annual Responses: 3,500.

Average Burden per Response: 15 minutes.

NAVMC Form 10064

Annual Burden Hours: 875.

Number of Respondents: 3,500

Responses per Respondent: 1.

Annual Responses: 3,500.

Average Burden per Response: 15 minutes.

Total Burden

Annual Burden Hours: 1,750.
Number of Respondents: 7,000.
Annual Responses: 7,000.
Frequency: On occasion.

Dated: July 23, 2025.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Marine Corps Applied Suicide Intervention Skills Training (ASIST) Surveys; OMB Control Number 0712-ASIS.

Needs and Uses: Data collection is necessary to determine the effectiveness of the LivingWorks' Applied Suicide Intervention Skills Training (ASIST) used by the Marine Corps as part of its suicide prevention program and to assess whether it is an efficient use of the Marine Corps' resources. ASIST is widely used throughout the Marine Corps. Many chaplains have been trained to teach the class, and participants can be at the unit, command, or even family service center level. However, it currently is offered on an ad hoc basis—it is not a program of record, commands are not required to use it, and it is not conducted at regular or standardized training intervals within a standardized Training Effectiveness Evaluation Plan.

The ASIST basic course is a two-day in person workshop that teaches participants to recognize someone at-risk of suicide and then provide a skilled intervention and develop a safe plan with the at-risk individual. The efficiency and effectiveness of the ASIST program for the Marine Corps has never been evaluated. To assess the efficiency and effectiveness of the ASIST program for the Marine Corps, the Marine Corps has contracted CNA to gather data from current and past course participants. Questions in the ASIST Basic survey ask participants about expected outcomes of the ASIST course: knowledge, attitudes, and confidence in suicide intervention. ASIST participants that choose to become ASIST trainers attend ASIST Training for Trainers (T4T). T4T is a five-day in-person training that prepares participants to become ASIST trainers by teaching them skills to conduct the ASIST 2-day workshop. Questions in the ASIST

T4T survey ask questions about the sufficiency of the T4T course and the ability of trainers to adapt the course to the Marine Corps population. At the completion of the study, CNA will provide a report to the Chaplain of the Marine Corps detailing findings from the surveys and interviews. Only aggregate data will be reported. We expect that ASIST course participants will respond to the survey to be active participants in shaping future Marine Corps programming.

Affected Public: Individuals or households (Active Duty Marines).
Annual Burden Hours: 325.

Number of Respondents: 1,300.

Responses per Respondent: 1.

Annual Responses: 1,300.

Average Burden per Response: 15 minutes.

Frequency: One-time.

Dated: July 22, 2025.

BILLING CODE 6001-FR-P

DEPARTMENT OF ENERGY**Highly Enriched Uranium Blend Down to High-Assay Low-Enriched Uranium, at the Savannah River Site**

AGENCY: Office of Environmental Management, U.S. Department of Energy.

ACTION: Amended record of decision.

SUMMARY: The U.S. Department of Energy (DOE) is amending its August 5, 1996, Record of Decision (ROD) for the *Disposition of Surplus Highly Enriched Uranium Final Environmental Impact Statement* (DOE/EIS-0240) (hereafter referred to as the HEU EIS), and its April 19, 2022, Amended ROD for the *Savannah River Site Spent Nuclear Fuel Management Environmental Impact Statement* (DOE/EIS-0279) (hereafter referred to as the SRS SNF EIS). DOE now amends its previous decisions and will blend down approximately 2.2 metric tons (MT) of highly enriched uranium (HEU) to produce high-assay low-enriched uranium (HALEU) at H-Area at the Savannah River Site (SRS). DOE anticipates this activity would begin as early as 2025 and continue approximately 2 to 4 years consistent with program and policy priorities, and funding. DOE will transport the HALEU liquid to an offsite commercial vendor for fabrication into reactor fuel for use in nuclear reactors. Because the 2.2 MT of HEU will be blended down for use in reactor fuel, it will not be sent to the
