Pursuant to Section 122(d)(2) of CERCLA, 42 U.S.C. 9622(d)(2), notice is hereby given that on October 22, 2008, a proposed Consent Decree in *United States of America v. Domtar Paper Company LLC*, Civil Action No. 4:08-cv-179, was lodged with the United States District Court for the Eastern District of North Carolina.

In this action the United States sought to require the Defendant Domtar Paper Company LLC to conduct remedial design and remedial action to address releases and threatened releases of hazardous substances at the Domtar Paper Company LLC (formerly Weyerhaeuser Company) Plymouth Wood Treating Plant Superfund Site ("Site") near the town of Plymouth in Martin County, North Carolina. The United States also sought to recover certain past and future costs incurred by the Environmental Protection Agency ("EPA") during the performance of response actions at the Site.

Under the Consent Decree, the Defendant will perform the remedial design and remedial action at Operable Unit #4, which consists of the sediments and surface waters in Welch Creek and its associated wetlands, pursuant to the September 26, 2007 Record of Decision (ROD). The remedy provides for the placement of a thin layer of clean sand capping the upstream reach of the creek; long-term monitoring and maintenance of the cap; monitoring sediment mobility in the less-contaminated midstream reach of the creek; long-term testing and monitoring of sediments, surface water, and biota to document the performance of the remedy; and institutional controls to ensure public health and maintain the integrity of the remedy. The Defendant will also reimburse the Hazardous Substance Superfund for EPA's response costs incurred after March 5, 2007 at or in connection with Operable Unit 4.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Consent Decree.
