I. Background

The Institute of Museum and Library Services is the primary source of federal support for the Nation's libraries and museums. We advance, support, and empower America's museums, libraries, and related organizations through grant-making, research, and policy development. To learn more, visit www.imls.gov.

II. Current Actions

The purpose of the Native American Library Services Basic Grants Program is to assist Native American tribes in improving library services for their communities. IMLS recognizes that information needs and approaches to meeting them are evolving at an unprecedented pace in all communities, and to operate within this environment

effectively for the benefit of their users, libraries must be able to both strengthen existing services and move quickly to adopt new and emerging technologies.

The two goals for this program will be (1) to improve services for learning and accessing information in a variety of formats to support needs for education, workforce development, economic and business development, health information, critical thinking skills, and digital literacy skills; and (2) to enhance the skills of the current library workforce and leadership through training, continuing education, and opportunities for professional development.
