

development of alternatives to the proposed actions. One of the purposes of this notice of intent is to solicit input from the public as part of the overall scoping effort. In addition to this notice, the public has been notified of the environmental impact statement through the Umpqua National Forest's April 2001 Schedule of Proposed Actions (SOPA). Scoping for this project will also include a public field trip in the Fish Creek watershed on June 9, 2001. Based on the preliminary issues, the Responsible Official has determined that it is appropriate to proceed with an environmental impact statement.

Public comments are appreciated throughout the analysis process. The draft EIS is expected to be filed with the Environmental Protection Agency (EPA) and be available for public review by December 2001. The comment period on the draft EIS will be 45 days from the date the EPA publishes the notice of availability in the **Federal Register**. The final EIS is scheduled to be available in March 2002.

The Forest Service believes it is important to give reviewers notice of this early stage of public participation and of several court rulings related to public participation in the environmental review process. First, reviewers of a draft EIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could have been raised at the draft stage may be waived or dismissed by the court if not raised until after completion of the final EIS. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider and respond to them in the final EIS.

To assist the Forest Service in identifying and considering issues and concerns on the proposed actions, comments on the draft EIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft EIS or the merits of the alternatives formulated and discussed in the statement. (Reviewers may wish to refer to the Council on

Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act of 40 CFR 1503.3 in addressing these points.)

In the final EIS, the Forest Service is required to respond to substantive comments and responses received during the comment period that pertain to the environmental consequences discussed in the draft EIS and applicable laws, regulations, and policies considered in making a decision regarding the proposal. The Responsible Official is Don Ostby, Forest Supervisor for the Umpqua National Forest. The Responsible Official will document the decision and rationale for the decision in a Record of Decision. The decision will be subject to appeal regulations (36 CFR part 215).

Dated: May 22, 2001.

Don Ostby,

Forest Supervisor, Umpqua National Forest.

Rural Utilities Service

Georgia Transmission Corporation; Notice of Finding of No Significant Impact

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice of finding of no significant impact.

SUMMARY: Notice is hereby given that the Rural Utilities Service (RUS) has made a finding of no significant impact (FONSI) with respect to possible

financing assistance to Georgia Transmission Corporation for the construction of 5 diesel electric generators at the existing Egypt Substation located just north of Egypt-Ardmore Road and approximately 600 feet west of Georgia Highway 21 in Effingham County, Georgia.

FOR FURTHER INFORMATION CONTACT: Bob Quigel, Environmental Protection Specialist, Engineering and Environmental Staff, RUS, Stop 1571, 1400 Independence Avenue, SW., Washington, DC 20250-1571, telephone (202) 720-0468, e-mail at bquigel@rus.usda.gov.

SUPPLEMENTARY INFORMATION: The initial construction will involve the placement of 4, 1825 kilowatt diesels, an 8000 gallon fuel tank, 4, 2.5 million volt-amp transformers, and a 12 kilovolt circuit breaker with protective relaying. The Egypt Substation will be graded and expanded in such a manner as to allow for the addition of one more 1825

kilowatt diesel generator should the load on the substation increase beyond 7.3 megawatts ($4 \times 1825 = 7300$ kilowatts or 7.3 megawatts). The diesel generators will be constructed within sound attenuated enclosures with mufflers to reduce operating noise. In addition, a buffer of vegetation will be installed between the station and nearest residential properties to provide further attenuation of noise levels. The diesels will be unmanned as they can be operated from a remote location.

Copies of the FONSI are available for review at, or can be obtained from, RUS at the address provided herein or from Mr. R. Vince Howard, Georgia Transmission Corporation, 2100 East Exchange Place, Tucker, Georgia 30085-2088, telephone (770) 270-7635. Mr. Howard's e-mail address is vincent.howard@gatrans.com.
