21. *Title:* Roll of Tapered Bags Suitable for Dispensing Bags Singly. Tapered bags are dispensed singly from a roll. They may be made of plastic, paper, aluminum foil, or aluminum foil laminated with plastic. The bags are connected on the roll alternately top-to-top and bottom-to-bottom. Each bag is tapered towards its bottom such that its top-to-top connection with the next bag is wider than the bottom-to-bottom connection. The taper may be formed by folding the bags so that a dispensed bag may be unfolded to have a bottom as wide as the top. Each bottom-to-bottom connection separates the bags along a row of perforations adjacent to a sealed seam of each bag that defines the bag and insures its integrity. A row of closely spaced perforations along the connecting portion between any two bags allows a single end bag to be separated by pulling and tearing along the row of perforations.

SUPPLEMENTARY INFORMATION: The nation is commemorating the 30th anniversary of the passage of Title IX, the landmark legislation prohibiting recipients of Federal funds from discriminating on the basis of sex. Since this legislation was enacted, there has been a dramatic increase in the number of women participating in athletics at the high school and college levels. The Secretary of Education has determined that this anniversary provides an appropriate time to review the application of Title IX to educational institutions' efforts to provide equal opportunity in athletics to women and men. In order to do so, the Secretary established the Commission on Opportunity in Athletics. The Commission will produce a report no later than January 31, 2002, outlining its findings relative to the opportunities for men and women in athletics in order to improve the effectiveness of Title IX.

Comments are encouraged on the following priority areas:

1. Are Title IX standards for assessing equal opportunity in athletics working to promote opportunities for male and female athletes?

2. Is there adequate Title IX guidance that enables colleges and school districts to know what is expected of them and to plan for an athletic program that effectively meets the needs and interests of their students?

3. Is further guidance or are other steps needed at the junior and senior high school levels where the availability or absence of opportunities will critically affect the prospective interests and abilities of student athletes when they reach college age?

4. How should activities such as cheerleading or bowling factor into the analysis of equitable opportunities?

5. How do revenue producing and large-roster teams affect the provision of equal athletic opportunities? The Department has heard from some parties that whereas some men athletes will "walk-on" to intercollegiate teams—without athletic financial aid and without having been recruited—women rarely do this. Is this accurate and, if so, what are its implications for Title IX analysis?

6. In what ways do opportunities in other sports venues, such as the Olympics, professional leagues, and community recreation programs, interact with the obligations of colleges and school districts to provide equal athletic opportunity? What are the implications for Title IX?

7. Apart from Title IX enforcement, are there other efforts to promote athletic opportunities for male and female students that the Department

might support, such as public-private partnerships to support the efforts of schools and colleges in this area?
