DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Statement of Organization, Functions, and Delegations of Authority

Part C (Centers for Disease Control and Prevention) of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health and Human Services (45 FR 67772-76), dated October 14, 1980, and corrected at 45 FR 69296, October 20, 1980, as amended most recently at 66 FR 39178-39179, dated July 27, 2001) is amended to reorganize the Vaccine Preventable Disease Eradication Division, National Immunization Program.

Section C-B, Organization and Functions, is hereby amended as follows:

Delete in its entirety the title and functional statement for the Vaccine Preventable Diseases Eradication

Division (HCJ5) and insert the following:

Global Immunization Division (HCJ5).

(1) Provides national leadership and coordination of the national Immunization Program (NIP) efforts to eradicate polio, control or eliminate measles, strengthen routine immunization programs, introduce new and under-utilized vaccines, and promote safe injection practices, in collaboration with the World Health Organization (WHO) and its regional offices, UNICEF, Rotary International, World Bank, USAID, American Red Cross, International Federation of Red Cross/Red Crescent Societies, UN Foundation, Bill and Melinda Gates Foundation, Path, other international organizations and agencies, and CDC Centers/Institute/Offices (CIOs); (2) provides short- and long-term consultation and technical assistance to WHO, UNICEF, and foreign countries involved in global immunization activities and participates in international advisory group meetings on immunization issues; (3) administers grants to WHO, PAHO, UNICEF, and other international partners as appropriate for the provision of technical, programmatic, and laboratory support, and vaccine procurement for initiatives to support global immunization targets; (4) designs and participates in international research, monitoring, and evaluation projects to increase the effectiveness of immunization strategies as may be developed; (5) develops strategies to improve the technical skills and problem-solving abilities of program managers and health care workers in other countries; (6) refines strategies developed for the eradication or control of vaccine-preventable diseases in the Western Hemisphere for implementation in other parts of the world; (7) assists other countries in projects to improve surveillance for polio, measles, and other vaccine preventable diseases (VPDs), including development of computerized systems for disease monitoring; (8) assists WHO, UNICEF, and other partner organizations in strengthening global epidemiologic and laboratory surveillance for polio, measles, and other VPDs; (9) prepares articles based on findings for publication in international professional journals and presentation at international conferences; (10) collaborates with other countries, WHO, UNICEF, and advocacy groups, to ensure the availability of sufficient funds to purchase an adequate supply of polio, measles, and other vaccines, and funds for technical
