

Exchange will authorize and approve Remote Authorizations based on certain qualifications. Each remote PACE terminal will then be individually identified and associated with a particular Remote Authorization holder such that all activity on any particular PACE terminal will be specifically identified and associated, by the use of the Remote Authorization, with an authorized and qualified specialist or registered clerk. The Exchange is proposing to issue Remote Authorizations primarily as a surveillance tool to monitor its remote specialists' operations. Remote Authorization is not transferable and is independent of Exchange membership requirements. Although PACE remote clerks will be required to obtain a Remote Authorization, there is nothing in the Remote Authorization which will grant them any more rights or privileges than a current on-floor clerk possesses. Rule 104, for example, would continue to restrict members in their dealings with non-members, including clerks. Additionally, Rule 748 would require the remote location of a specialist unit to be under the supervision and control of a member and of an appropriately qualified supervisor. The Remote Authorization requirement is designed to permit the Exchange to better surveil the activities of specialists and clerks that utilize the PACE system remotely.¹⁰ Remote Authorization holders will be subject to an on-floor training program as a condition of Remote Authorization, subject to waiver under certain circumstances, pursuant to the terms of Phlx Rule 461(n)(2)(B)(ii).

Implementation. For an initial period, the Exchange intends to limit its remote program to specialist member organizations that maintain concurrent equity floor operations. The EAES Committee will determine the identity and the total number of individual securities that will be included in the remote program. In the future, the Exchange may determine to accept applications from specialist units that do not have concurrent equity floor operations.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with section 6(b) of the Act¹¹ in general, and furthers the objectives of section 6(b)(5)¹² in particular, in that it is

designed to promote just and equitable principles of trade; to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities; to remove impediments to and perfect the mechanism of a free and open market and a national market system; and, in general, to protect investors and the public interest; and is not designed to permit unfair discrimination between customers, issuers, brokers or dealers. Specifically, the Exchange believes that the proposed rule change will promote efficiency by potentially reducing the costs associated with transactions on the Exchange, and will promote liquidity and competition on the Exchange by enabling specialists to make markets either on or off of the Phlx's physical trading floor. In particular, by allowing Phlx specialists to conduct their activities off of the Exchange's physical trading floor, while retaining the availability of on-floor market making, the Exchange believes that the proposal will permit Phlx specialists to choose the most efficient and cost-effective way to conduct business. At the same time, remote specialists will have full access to the information and functions available on the PACE terminal/trading system, and the PACE trading system will maintain and display limit orders represented by remote specialists consistent with the practice applicable to other Phlx specialists. Accordingly, the Exchange believes that the proposal uses technology in a manner that should promote competition in the securities markets, consistent with the congressional mandate set forth in section 11A of the Act.¹³

B. Self-Regulatory Organization's Statement on Burden on Competition

The Phlx does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Phlx has neither solicited nor received written comments with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal**

Register or within such longer period (I) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Phlx consents, the Commission will:

(A) by order approve such proposed rule change, or,

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested person are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section. Copies of such filing will also be available for inspection and copying at the principal office of the Phlx. All submissions should refer to File No. SR-Phlx-2001-98 and should be submitted by December 4, 2001.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁴
