

address and telephone number, when and where the accident occurred, type of equipment involved in the accident, and signature.

CONTESTING RECORD PROCEDURES:

The Army's rules for accessing records, and for contesting contents and appealing initial agency determinations are contained in Army Regulation 340-21; 32 CFR part 505; or may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Records and reports of accident, injury, fire, morbidity, law enforcement, traffic accident investigations, vehicle accident reports, and marine accident/casualty reports, individual sick clips, and military aviation records/reports.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

BILLING CODE 5001-06-M

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Intent To Prepare an Environmental Impact Statement for the Proposed Hackensack Meadowlands Ecosystem Restoration Project, Hackensack Meadowlands District, Bergen and Hudson Counties, NJ: Feasibility Phase

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: In compliance with the National Environmental Policy Act (NEPA), the New York District of the U.S. Army Corps of Engineers (Corps) is preparing an Environmental Impact Statement (EIS) in accordance with Council on Environmental Quality regulations as defined and amended in 40 CFR parts 1500-1508 (promulgated pursuant to NEPA); Corps' principles and guidelines as defined in Engineering Regulations (ER) 1105-2-100, Planning Guidance Notebook, and ER 200-2-2, Procedures for Implementing NEPA; and other applicable Federal and State environmental laws for the proposed ecosystem restoration project in the Hackensack Meadowlands District, Bergen and Hudson Counties, New Jersey.

The study area, known as the Hackensack Meadowlands District, is located approximately five miles west of New York City in northern New Jersey, and comprises 30.4 square miles in

portions of 14 municipalities in two counties; Carlstadt, East Rutherford, Little Ferry, Lyndhurst, Moonachie, North Arlington, Ridgefield, Rutherford, South Hackensack, and Teterboro in Bergen County and Jersey City, Kearny, North Bergen, and Secaucus in Hudson County. The District is bisected by the Hackensack River and the western spur of the NJ Turnpike (US Interstate 95) and approximately bordered to the north by State Route 46; to the east by US routes 1 and 9 (Tonnel Avenue) and the freight railroad owned by Norfolk Southern and CSX Corporation (the former Conrail main line); to the south by the Port Authority Trans Hudson (PATH) railroad and the Pulaski Skyway; and to the west by the Pascack Valley and (former) Kingsland railroads and State Route 17.

ADDRESSES: U.S. Army Corps of Engineers, New York District, 26 Federal Plaza, New York, NY, 10278-0090.

FOR FURTHER INFORMATION CONTACT: Mr. Bill Shadel, Project Biologist and NEPA Coordinator, Planning Division, Environmental Analysis Branch; (212) 264-0570; or William.P.Shadel@usace.army.mil.

SUPPLEMENTARY INFORMATION: 1. The Hackensack Meadowlands Ecosystem Restoration Study is being carried out under the Corps' General Investigations Program. The study was authorized under the authorization of the Hudson-Raritan Estuary Feasibility Study in a resolution of the Committee on Transportation and Infrastructure of the U.S. House of Representatives, dated April 15, 1999, which reads:

Resolved by the Committee on Transportation and Infrastructure of the United States House of Representatives, That, the Secretary of the Army is requested to review the reports of the Chief of Engineers on the New York and New Jersey Channels, published as House Document 133, 74th Congress, 1st Session; the New York and New Jersey Harbor Entrance Channels and Anchorage Areas, published as Senate Document 45, 84th Congress, 1st Session; and the New York Harbor, NY Anchorage Channel, published as House Document 18, 71st Congress, 2nd Session, as well as other related reports with a view to determining the feasibility of environmental restoration and protection relating to water resources and sediment quality within the New York and New Jersey Port District, including but not limited to creation, enhancement, and restoration of aquatic, wetland, and adjacent upland habitats.

Section 324 of the Water Resources Development Act (WRDA) of 1992, as amended by Section 550 of the WRDA of 1996, authorized the Secretary of the Army to provide design and

construction assistance to the New Jersey Meadowlands Commission of the State of New Jersey for the development of an environmental improvement Program within the Hackensack Meadowlands District.

2. To advance the restoration of specific sites during the preparation of the EIS, separate Environmental Assessments will be completed for Anderson Creek in Secaucus and other sites throughout the Hackensack Meadowlands District.

3. Federal agencies interested in participating as a Cooperating Agency are requested to submit a letter of intent to Colonel Richard J. Polo, Jr., District Engineer (*see ADDRESSES*).

4. It is estimated that a draft EIS will be completed by April 2007, subject to availability of funds.

Leonard Houston,

Chief, Environmental Analysis Branch, Planning Division.

BILLING CODE 3710-06-M

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Intent To Prepare an Environmental Impact Statement for the Proposed Lower Passaic River Ecosystem Restoration Project, Essex, Hudson, Passaic, and Bergen Counties, NJ: Feasibility Phase

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: In compliance with the National Environmental Policy Act (NEPA), the New York District of the U.S. Army Corps of Engineers (Corps) is preparing an Environmental Impact Statement (EIS) in accordance with Council on Environmental Quality regulations as defined and amended in 40 CFR parts 1500-1508 (promulgated pursuant to NEPA); Corps' principles and guidelines as defined in Engineering Regulations (ER) 1105-2-100, Planning Guidance Notebook, and ER 200-2-2, Procedures for Implementing NEPA; and other applicable Federal and State environmental laws for the proposed ecosystem restoration project in the Lower Passaic River Basin located in the counties of Essex, Hudson, Passaic, and Bergen in New Jersey.

The study area is identified as the Lower Passaic River and its basin, which comprises the tidally influenced portion of the river from the Dundee

Dam to Newark Bay and the watershed of this portion of the river; the study area does not include the watershed and river upstream of the dam. Extensive habitat loss and degradation have greatly reduced the functional and structural integrity of ecosystems within the Lower Passaic River Basin. Both the U.S. Environmental Protection Agency and the Corps will develop a comprehensive watershed-based plan for both the remediation and restoration of the Lower Passaic River Watershed. This will include the identification of remediation actions and ecosystem restoration opportunities in the study area to support broader estuary-wide restoration efforts. Remediation actions may include sediment removal, cap placement, *in-situ* or *ex-situ* sediment decontamination, and shoreline stabilization, while complimentary restoration goals may include the restoration, creation, and enhancement of benthic habitat, aquatic habitat, tidal and non-tidal wetlands, riparian habitat, flood plains and other terrestrial habitats as well as shoreline stabilization. The Corps intends to prepare an EIS for the ecosystem restoration portion of this joint study.

ADDRESSES: U.S. Army Corps of Engineers, New York District, 26 Federal Plaza, New York, NY 10278–0090.

FOR FURTHER INFORMATION CONTACT: Mr. Bill Shadel, Project Biologist and NEPA Coordinator, Planning Division, Environmental Analysis Branch; (212) 264–0570; or William.P.Shadel@usace.army.mil.

SUPPLEMENTARY INFORMATION: 1. The Lower Passaic River Ecosystem Restoration Study, the Water Resources Development Act component of this joint study, is being carried out under the Corps' General Investigations Program. The study was authorized under the Hudson-Raritan study authorization, in a resolution of the Committee on Transportation and Infrastructure of the U.S. House of Representatives, dated 15 April 1999, which reads:

Resolved by the Committee on Transportation and Infrastructure of the United States House of Representatives, That, the Secretary of the Army is requested to review the reports of the Chief of Engineers on the New York and New Jersey channels, published as House Document 133, 74th Congress, 1st Session; the New York and New Jersey Harbor Entrance Channels and Anchorage Areas, published as Senate Document 45, 84th Congress, 1st Session; and the New York Harbor, NY Anchorage channel, published as House Document 18, 71st Congress, 2nd Session, as well as other related reports with a view to determining

the feasibility of environmental restoration and protection relating to water resources and sediment quality within the New York and New Jersey Port District, including but not limited to creation, enhancement, and restoration of aquatic, wetland, and adjacent upland habitats.

A public scoping meeting is scheduled for spring 2005. Results from the public scoping meeting with Federal, State, and local agencies, as well as the public, will be addressed in the EIS.

3. Federal agencies interested in participating as a Cooperating Agency are requested to submit a letter of intent to Colonel Richard J. Polo, Jr., District Engineer (see **ADDRESSES**).

4. It is estimated that a draft EIS will be completed by March 2007, subject to availability of funds.

Leonard Houston,

*Chief, Environmental Analysis Branch,
Planning Division.*

BILLING CODE 3710–06–M

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before February 28, 2005.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each

proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: December 22, 2004.

Angela C. Arrington,

Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer.

Office of Postsecondary Education

Type of Review: Extension.

Title: Final Performance Report for the Jacob K. Javits Fellowship Program.

Frequency: Annually.

Affected Public: Not-for-profit institutions; Businesses or other for-profit.

Reporting and Recordkeeping Hour Burden:

Responses: 115.

Burden Hours: 690.

Abstract: This information collection provides the U.S. Department of Education with information needed to determine if grantees have made substantial progress toward meeting the Program's objectives and allow Program staff to monitor and evaluate the Program. The Congress has mandated (through the Government's Performance and Results Act of 1993) that the U.S. Department of Education provide documentation about the progress being made by the Program.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 2656. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to Department of Education, 400 Maryland Avenue, SW.,
