SUPPLEMENTARY INFORMATION:

Comment Period

The EPA has received numerous requests for extending the public comment period for this proposed rule. Based on the information provided in the requests, the EPA has determined that an extension of 30 days is appropriate. Accordingly, the public comment period will now end on November 30, 2011. Note that, on August 23, 2011, the EPA published in the **Federal Register** the proposed rule titled, "Oil and Natural Gas Sector: New Source Performance Standards and National Emission Standards for Hazardous Air Pollutants Reviews." In that notice, the EPA announced that all comments must be received by October 24, 2011. The EPA conducted three public hearings on this proposed rule, the last of which was held on September 29, 2011, in Arlington, Texas. See 76 FR 53371, August 26, 2011. Under section 307(d) of the Clean Air Act (CAA), the EPA must keep the record open for 30 days after completion of the hearings to provide an opportunity for submission of rebuttal and supplementary information. On October 20, 2011, the EPA published a **Federal Register** notice correcting the comment period closing date to October 31, 2011. See 76 FR 65138, October 20, 2011.

Federal Emergency Management Agency

44 CFR Part 67

[Docket ID FEMA-2011-0002; Internal Agency Docket No. FEMA-B-1226]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule.

SUMMARY: Comments are requested on the proposed Base (1% annual-chance) Flood Elevations (BFEs) and proposed BFE modifications for the communities listed in the table below. The purpose of this proposed rule is to seek general information and comment regarding the proposed regulatory flood elevations for the reach described by the downstream and upstream locations in the table below. The BFEs and modified BFEs are a part of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP). In addition, these elevations, once finalized, will be used by insurance agents and others to calculate appropriate flood insurance premium rates for new buildings and the contents in those buildings.

DATES: Comments are to be submitted on or before January 26, 2012.

ADDRESSES: The corresponding preliminary Flood Insurance Rate Map (FIRM) for the proposed BFEs for each community is available for inspection at the community's map repository. The respective addresses are listed in the table below.

You may submit comments, identified by Docket No. FEMA-B-1226, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-4064, or (email) Luis.Rodriguez3@fema.dhs.gov.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-4064, or (email) Luis.Rodriguez3@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in those buildings.

Comments on any aspect of the Flood Insurance Study and FIRM, other than the proposed BFEs, will be considered. A letter acknowledging receipt of any comments will not be sent.

National Environmental Policy Act. This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Executive Order 12866, Regulatory Planning and Review. This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866, as amended.

Executive Order 13132, Federalism. This proposed rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This proposed rule meets the applicable standards of Executive Order 12988.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Order in MB Docket No. 11-154, DA 11-1766, adopted and released on October 21, 2011, which extends the reply comment filing deadline established in the NPRM published under FCC No. 11-138 at 76 FR 59963, September 28, 2011. The full text of this document is available for inspection and copying during normal business hours in the FCC Reference Center, 445 12th Street, SW., Washington, DC 20554. Background

1. The NPRM in this proceeding established a comment deadline of October 18, 2011 and a reply comment deadline of October 28, 2011. On October 19, 2011, the National Association of Broadcasters (NAB) requested that the reply comment deadline be extended by one week, due to the volume of substantive material filed in the initial comments and the groundbreaking nature of the issues considered in the proceeding. We grant NAB's request in part.

2. As set forth in Section 1.46(a) of the Commission's Rules, 47 CFR 1.46(a), the Commission's policy is that extensions of time shall not be routinely granted. Given the importance of the issues in this proceeding and in the interest of encouraging thoughtful consideration of these issues, however, we believe that granting in part NAB's request is necessary to facilitate the development of a full record. Due to the Commission's statutory deadline in this proceeding, we find that the requested one week extension is too long, and

instead we grant a four day extension of the reply comment deadline.

Ordering Clauses

Pursuant to Section 4(i) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), and Sections 0.61, 0.283, and 1.46 of the Commission's rules, 47 CFR 0.61, 0.283, and 1.46, the Motion for Extension of Time filed by NAB is granted in part, and the deadline to file reply comments in this proceeding is extended to November 1, 2011.
