SUPPLEMENTARY INFORMATION:

A. Purpose

The U.S. Government conducts criminal checks to establish that applicants or incumbents working for the Government under contract may have unescorted access to federally controlled facilities. GSA uses GSA Form 850, Contractor Information Worksheet, and digitally captured fingerprints to conduct an FBI National Criminal Information Check (NCIC) for each contractor's physical access determination to GSA-controlled facilities and/or logical access to GSA-controlled information systems. Manual fingerprint card SF-87 is used for exception cases such as contractor's significant geographical distance from fingerprint enrollment sites.

The Office of Management and Budget (OMB) Guidance M-05-24 for Homeland Security Presidential Directive (HSPD) 12, authorizes Federal departments and agencies to ensure that contractors have limited/controlled access to facilities and information systems. GSA Directive CIO P 2181.1 Homeland Security Presidential Directive-12, Personal Identity Verification and Credentialing (available at <http://www.gsa.gov/hspd12>), states that GSA contractors must undergo a minimum of an FBI National Criminal Information Check (NCIC) to receive unescorted physical access to GSA-controlled facilities and/or logical access to GSA-controlled information systems.

Contractors' Social Security Number is needed to keep records accurate, because other people may have the same name and birth date. Executive Order 9397, Numbering System for Federal Accounts Relating to Individual Persons, also allows Federal agencies to use this number to help identify individuals in agency records.

SUPPLEMENTARY INFORMATION:

Background

GSA, in compliance with the FedRAMP Authorization Act of 2022 (the Act), established the FSCAC, a statutory advisory committee in accordance with the provisions of FACA, as amended (5 U.S.C. 10). The Federal Risk and Authorization Management Program (FedRAMP) within GSA is responsible for providing a standardized, reusable approach to security assessment and authorization for cloud computing products and services that process unclassified information used by agencies.

The FSCAC will provide advice and recommendations to the Administrator of GSA and the FedRAMP Director, the FedRAMP Board, and agencies on technical, financial, programmatic, and operational matters regarding the secure adoption of cloud computing products and services. The FSCAC will ensure effective and ongoing coordination of agency adoption, use, authorization, monitoring, acquisition, and security of cloud computing products and services to enable agency mission and administrative priorities. The purposes of the Committee are:

- To examine the operations of FedRAMP and determine ways that authorization processes can continuously be improved, including the following:
 - Measures to increase agency reuse of FedRAMP authorizations.
 - Proposed actions that can be adopted to reduce the burden, confusion, and cost associated with FedRAMP authorizations for cloud service providers (CSPs).
 - Measures to increase the number of FedRAMP authorizations for cloud computing products and services offered by small businesses concerns (as defined by section 3(a) of the Small Business Act (15 U.S.C. 632(a)).
 - Proposed actions that can be adopted to reduce the burden and cost of FedRAMP authorizations for agencies.
 - Collect information and feedback on agency compliance with, and implementation of, FedRAMP requirements.

- Serve as a forum that facilitates communication and collaboration among the FedRAMP stakeholder community.

The FSCAC will meet no fewer than three (3) times a calendar year. Meetings shall occur as frequently as needed, called, and approved by the DFO.

Purpose of the Meeting and Agenda

The August 14, 2025, public meeting will be dedicated to advice and recommendations for reducing the burden and cost of managing Plans of Action and Milestones (POA&Ms) for cloud services and agencies and to develop recommendations for an updated standard. FSCAC is to propose key elements of this standard by addressing at least the following questions:

1. What are the major pain points with the current POA&M implementation for CSPs and agencies?
2. What are the security gaps and increased risks (including missed opportunities) that result from the current model?
3. What are the benefits of the current model?
4. What would a new set of POA&M requirements for FedRAMP that addresses the major pain points, and gaps while maintaining or increasing the benefits of such a process for all parties look like?

Members of the public will have the opportunity to provide oral public comments during this meeting, and may also submit public comments in writing prior to this meeting by completing the public comment form on our website, <https://gsa.gov/fscac>. The meeting agenda will be posted on <https://gsa.gov/fscac> prior to the meeting and can be accessed by selecting the “Federal Secure Cloud Advisory Committee meetings” tab on the left, and then selecting the “August 14, 2025—Virtual” meeting accordion in order to view all meeting materials, agendas, and registration information.
