

Mitigation

Mitigation is included in the Final EIS for Cultural Resources, Water Resources, and Wildlife Resources. Mitigation for cultural resources was developed for potential effects to 20 National Register of Historic Places eligible historic properties and includes development of a Historic Properties Treatment Plan and Memorandum of Availability. Mitigation for Water Resources was developed for surface disturbance, fencing, and potential groundwater drawdown effects to spring sites and includes monitoring for triggers, and different mitigation types to reduce effects. Mitigation for wildlife was developed for potential effects to desert kangaroo rats, greater sage-grouse, and burrowing owls, and includes flushing burrows, use of the State of Nevada Conservation Credit System, and installation of artificial burrows.

Based on the analyses contained in the Final EIS for the proposed Project, and after carefully considering input received from the public and cooperating agencies, the BLM has selected the Proposed Action as the BLM's preferred alternative and the No Action Alternative as the environmentally preferred alternative.

Comments on the Draft EIS received from the public and internal BLM review were considered and incorporated as appropriate into the Final EIS. Public comments resulted in the addition of clarifying text, but did not significantly change proposed decisions.

Public Meeting for the Missouri Basin Resource Advisory Council

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of public meeting.

SUMMARY: In accordance with the Federal Land Policy and Management Act of 1976 and the Federal Advisory Committee Act of 1972, the U.S. Department of the Interior, Bureau of Land Management (BLM) Missouri Basin Resource Advisory Council (RAC) will meet as follows.

DATE: The RAC will meet on July 15, 2025, from 8 a.m. to 4 p.m. Mountain Time (MT).

ADDRESSES: The meeting will be held virtually using a web-based video-conferencing application. The meeting is open to the public. A public-comment period will be held from 11 a.m. to noon MT. Individuals who wish to attend must register with the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice at least 7 business days prior to the meeting date.

FOR FURTHER INFORMATION CONTACT: Mark Jacobsen, Missouri Basin RAC Coordinator, BLM Eastern Montana-Dakotas District, 111 Garryowen Road, Miles City, Montana 59301; telephone: 406–233–2831; email: [mjacobse@blm.gov](mailto:mjacobsen@blm.gov). Persons in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The 15-member council advises the Secretary of the Interior, through the BLM, on a variety of planning and management issues associated with public land management in Central and Eastern Montana, and North and South Dakota. Agenda topics will include North-Central Montana and Eastern Montana/Dakotas District reports, Field Office reports, a public comment period, and other topics the RAC may wish to cover. A final agenda will be posted on the RAC's web page at <https://www.blm.gov/get-involved/resource-advisory-council/near-you/montana-dakotas/missouri-basin-rac> two weeks in advance of the meeting.

Public Comment Procedures: The BLM welcomes comments from all interested parties. A public-comment period will be held from 11 a.m. to noon MT. Depending on the number of persons wishing to comment and time available, the time for individual oral comments may be limited. Written comments to the RAC can be emailed in advance of the meeting to the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice. All comments will be provided to the RAC. Please include “RAC Comment” in your submission.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may

be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Requests for Accommodations: Please make requests in advance for sign language interpreter services, assistive listening devices, language translation services, or other reasonable accommodations. We ask that you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice at least 14 business days prior to the meeting to give the Department of the Interior sufficient time to process your request. All reasonable accommodation requests are managed on a case-by-case basis.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–722–725 and 731–TA–1690–1693 (Final)]

Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From Cambodia, Malaysia, Thailand, and Vietnam

Determinations

On the basis of the record ¹ developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that an industry in the United States is materially injured by reason of imports of crystalline silicon photovoltaic cells, whether or not assembled into modules (“CSPV products”), from Malaysia and Vietnam and that a U.S. industry is threatened with material injury by reason of imports of CSPV products from Cambodia and Thailand, provided for in statistical reporting numbers 8541.42.0010 and 8541.43.0010 of the Harmonized Tariff Schedule of the United States,² that have been found by the U.S. Department of Commerce (“Commerce”) to be sold in the United States at less than fair value (“LTFV”)

¹ The record is defined in § 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

² CSPV products may also be imported under subheadings 8501.71, 8501.72, and 8501.80 and statistical reporting number 8507.20.8010.

and subsidized by the governments of Cambodia, Malaysia, Thailand, and Vietnam.^{3 4}

Background

The Commission instituted these investigations effective April 24, 2024, following receipt of petitions filed with the Commission and Commerce by the American Alliance for Solar Manufacturing Trade Committee. The final phase of the investigations was scheduled by the Commission following notification of preliminary determinations by Commerce that imports of CSPV products from Cambodia, Malaysia, Thailand and Vietnam were subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)) and sold at LTFV within the meaning of 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the final phase of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on December 30, 2024 and subsequently after (89 FR 106578, December 30, 2024; 90 FR 1191, January 7, 2025; and 90 FR 2023, January 10, 2025). The Commission conducted its hearing on April 15, 2025. All persons who requested the opportunity were permitted to participate.

The Commission made these determinations pursuant to §§ 705(b) and 735(b) of the Act (19 U.S.C. 1671d(b) and 19 U.S.C. 1673d(b)). It completed and filed its determinations in these investigations on June 9, 2025. The views of the Commission are contained in USITC.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-611 and 731-TA-1428 (Review)]

Aluminum Wire and Cable From China

Determinations

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the countervailing and antidumping duty orders on aluminum wire and cable from China would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted these reviews on November 1, 2024 (89 FR 87401) and determined on February 4, 2025, that it would conduct expedited reviews (90 FR 11181, March 4, 2025).

The Commission made these determinations pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determinations in these reviews on June 9, 2025. The views of the Commission are contained in USITC Publication 5635 (June 2025), entitled *Aluminum Wire and Cable from China: Investigation Nos. 701-TA-611 and 731-TA-1428 (Review)*.

By order of the Commission.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-760-763 and 731-TA-1743-1746 (Preliminary)]

Silicon Metal From Angola, Australia, Laos, Norway, and Thailand

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of silicon metal from Australia, Laos, and Norway, provided for in subheadings 2804.69.10 and 2804.69.50 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value ("LTFV") and subsidized by the governments of Australia, Laos, and Norway. The Commission also determines that there is a reasonable indication that a U.S. industry is threatened with material injury by reason of imports of silicon metal from Angola that are allegedly sold in the United States at LTFV and imports of silicon metal from Thailand that are allegedly subsidized by the government of Thailand.²

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in § 207.21 of the Commission's rules, upon notice from the U.S. Department of Commerce ("Commerce") of affirmative preliminary determinations in the investigations under §§ 703(b) or 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under §§ 705(a) or 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Any other party may file an entry of appearance for the final phase of the investigations after

⁴ The Commission also finds that imports subject to Commerce's affirmative critical circumstances determination are not likely to undermine seriously the remedial effect of the countervailing and antidumping duty orders on CSPV products from Vietnam. Because of its threat determination, no critical circumstances findings with regard to imports of this product from Thailand were reached.
