

Center (OJP TFSC) Needs Assessment and Evaluation Package is designed to identify the financial needs of territory grantees and obtain feedback on OJP's Territories Financial Support Center. Data collection items generally include ratings of various aspects of the training and technical assistance activities, ratings of presenters, open-ended questions about what was most helpful and what could be improved, and needs of grantees. The data will then be used to advise OJP and OJP TFSC on ways to improve the support that it provides to territory grantees.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* There are approximately 11,850 respondents who will require an average of 8 minutes (ranging from 2 to 45 minutes across all forms) to respond to a single form each year.

6. *An estimate of the total public burden (in hours) associated with the collection:* The total annual public burden hours for this information collection are estimated to be 404 hours per year.

BILLING CODE 4410-18-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act

On October 3, 2022, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Northern District of Ohio in the lawsuit entitled *United States v. Dover Chemical Corporation*, Civil Action No. 5:17-cv-02335. The proposed decree resolves state and federal allegations under section 107 of the Comprehensive Environmental Response, Compensation, and Liability Act of natural resource damages, or NRD, associated with the Dover Chemical Corporation Superfund Site, or Site, and the surrounding NRD

assessment area. The proposed decree is related to a 2017 complaint and a resulting 2018 consent decree that implemented the final Superfund remedial work at the Site, and expressly reserved the right of the United States to pursue compensation for NRD. Simultaneous with the lodging of the proposed consent decree, the trustees have published a Draft Restoration Plan/ Environmental Assessment that informs the public about the proposed NRD restoration and protection projects included in the negotiated settlement.

The United States Fish and Wildlife Service and the Ohio Environmental Protection Agency, or Ohio EPA, are joint trustees for the biological and surface water resources impacted by contamination at the Site, while Ohio EPA is the trustee for the ground water resource. The trustees began an NRD assessment in 2009 that identified injuries to the surface water, biological resources, and ground water resources in the assessment area caused by hazardous substances.

Under the proposed decree, Dover Chemical Corporation agrees to implement projects that will restore and protect 28.5 acres of wetlands in Stark County and protect 195 acres of riparian habitat in Tuscarawas, Jefferson, Columbiana, and/or Belmont counties. Dover Chemical Corporation will also pay \$880,000 to Ohio to fund projects near the Site to protect, restore, or enhance state ground water resources. Finally, Dover Chemical Corporation will pay for costs incurred by Ohio and the United States to assess injuries to natural resources associated with the Site.

The publication of this notice opens a period for public comment on the proposed consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Dover Chemical Corporation*, D.J. Ref. No. 90-11-3-11517/1. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

<i>To submit comments:</i>	<i>Send them to:</i>
By email	<i>pubcomment-ees.enrd@usdoj.gov.</i>
By mail	Assistant Attorney General, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

During the public comment period, the consent decree may be examined and downloaded at this Justice

Department website: <https://www.justice.gov/enrd/consent-decrees>. We will provide a paper copy of the consent decree upon written request and payment of reproduction costs. Please mail your request and payment to: Consent Decree Library, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

Please enclose a check or money order for \$27.75 (25 cents per page reproduction cost) payable to the United States Treasury. For a paper copy without the exhibits and signature pages, the cost is \$11.25.

The Fish and Wildlife Service and the Ohio EPA are seeking concurrent public comment on the Draft Restoration Plan/ Environmental Assessment, or Draft RP/EA. The Draft RP/EA informs the public about the proposed NRD restoration and protection projects included in the negotiated settlement. The trustees invite the public to view and comment on the Draft RP/EA from October 3 to November 2, 2022 at <https://fws.gov/project/dover-chemical-corp-nrdar-sugar-creek-ohio>.

Patricia McKenna,

Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

DEPARTMENT OF LABOR

Agency Information Collection Activities; Job Openings and Labor Turnover Survey (JOLTS)

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Bureau of Labor Statistics (BLS)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before November 10, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. Comments are invited

on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT:

Nicole Bouchet by telephone at 202-693-0213, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The Job Openings and Labor Turnover Survey (JOLTS) collects data on job vacancies, labor hires, and labor separations. The data can be used as demand-side indicators of labor shortages. These indicators of labor shortages at the national level greatly enhance policy makers' understanding of imbalances between the demand and supply of labor. Presently there is no other economic indicator of labor demand with which to assess the presence of labor shortages in the U.S. labor market. The availability of unfilled jobs is an important measure of tightness of job markets, symmetrical to unemployment measures. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on July 1, 2022 (87 FR 39565).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL-BLS.

Title of Collection: Job Openings and Labor Turnover Survey (JOLTS).

OMB Control Number: 1220-0170.

Affected Public: Private Sector—Businesses or other for-profits, State, Local, or Tribal Governments, Federal Government.

Total Estimated Number of Respondents: 8,663.

Total Estimated Number of Responses: 103,956.

Total Estimated Annual Time Burden: 17,326 hours.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, the reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (*See* 29 U.S.C. 657). The OSH Act also requires OSHA to obtain such information with a minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (*See* 29 U.S.C. 657).

The Standard on Dipping and Coating Operations (29 CFR 1910.126(g)(4)) requires employers to post a conspicuous sign near each piece of electrostatic detearing equipment that
