ACTION: Notice of intent; request for applications.

SUMMARY: NMFS announces its request for applications for the 2014 shark research fishery from commercial shark fishermen with directed or incidental

The only commercial vessels authorized to land sandbar sharks are those participating in the shark research fishery. Shark research fishery permittees may also land other large coastal sharks (LCS), small coastal sharks (SCS), and pelagic sharks. Commercial shark fishermen who are interested in participating in the shark research fishery need to submit a completed Shark Research Fishery Permit Application in order to be considered.

DATES: Shark Research Fishery Applications must be received no later than 5 p.m., local time, on December 23, 2013.

ADDRESSES: Please submit completed applications to the Highly Migratory Species (HMS) Management Division at:
