NUCLEAR REGULATORY COMMISSION**[EA-04-225]****In the Matter of AVI Food Systems, Inc.; Confirmatory Order (Effective Immediately)****I**

AVI Food Systems, Inc. (AVI) is an independently owned and operated food service company serving various industries in the Midwest and Eastern United States including the Davis-Besse plant which is regulated by the U.S. Nuclear Regulatory Commission (NRC or Commission). AVI headquarters is located in Warren, OH.

II

On February 9, 2004, and July 8, 2004, the NRC's Office of Investigations (OI) began investigations to determine if former AVI employees at the Davis-Besse facility were the subject of employment discrimination in violation of 10 CFR 50.7. In OI Report Nos. 3-2004-006 and 3-2004-018, OI concluded that AVI employees were the subject of discrimination. By letter dated February 25, 2005, the NRC identified to FirstEnergy Nuclear Operating Company (FENOC) the NRC's concern and offered FENOC and AVI the opportunity to attend a predecisional enforcement conference or to request alternative dispute resolution (ADR) in which a neutral mediator with no decision-making authority would facilitate discussions between the NRC, FENOC and AVI, and if possible, assist the NRC and the parties in reaching an agreement on resolving the concerns. FENOC and AVI chose to participate in ADR. On May 11, 2005, the NRC and AVI met at the Davis-Besse facility in Oak Harbor, Ohio in an ADR session mediated by a professional mediator, arranged through Cornell University's Institute on Conflict Resolution. As part of the ADR session, based upon the facts discussed during the mediation session and the commitments noted in Section IV below, the NRC will not issue a Notice of Violation to AVI for this issue.

III

By letter dated June 9, 2005, AVI committed to include in its policy/programs, information necessary to ensure that its future activities with NRC licensees will incorporate training for its employees involved with the NRC licensees regarding safety conscious work environment (SCWE) and safety culture. The training program will have the objective of reinforcing the
