[Docket OST-2005-22602]

RIN 2105-AD60

Grants and Cooperative Agreements to State and Local Governments; Grants and Agreements with Institutions of Higher Education, Hospitals and Other Non-Profit Organizations

AGENCY: Office of the Secretary (OST), DOT.

ACTION: Notice of proposed rulemaking (NPRM); request for comments.

SUMMARY: This proposal would amend Department of Transportation regulations on uniform administrative requirements for grants and agreements with institutions of higher education, hospitals and other non-profit organizations. Specifically, the DOT proposes to make requirements for these grants and agreements consistent with

the uniform administrative requirements for grants and cooperative agreements to state and local governments. In addition, this proposal would update references to applicable cost principles for grants and cooperative agreements with state and local governments and for grants and other agreements with institutions of higher education, hospitals and other non-profit organizations that appear in current Department of Transportation regulations.

DATES: Comments must be received on or before June 16, 2008

ADDRESSES: You may file comments identified by the docket number DOT-OST-2007-0022 by any of the following methods:

○ *Federal eRulemaking Portal:* go to <http://www.regulations.gov> and follow the online instructions for submitting comments.

○ *Mail:* Docket Management Facility, U.S. Department of Transportation, 1200 New Jersey Ave., SE., West Building Ground Floor, Room W12-140, Washington, DC 20590-0001.

○ *Hand Delivery or Courier:* West Building Ground Floor, Room W12-140, 1200 New Jersey Ave., SE., between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal Holidays.

○ *Fax:* (202) 493-2251.

Instructions: You must include the agency name and docket number DOT-OST-2007-0022 or the Regulatory Identification Number (RIN) for the rulemaking at the beginning of your comment. All comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided.

Background

Regulations governing two types of U.S. Department of Transportation grant and cooperative agreement recipients are found in Parts 18 and 19 of Title 49 of the Code of Federal Regulations:

1. *49 CFR Part 18:* Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments.

2. *49 CFR Part 19:* Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations

Both of these parts contain a provision that governs allowable costs. However, while 49 CFR 18.22(a) identifies certain specific limitations on the use of grant or cooperative agreement funds by state or local governments receiving financial assistance from the U.S. Department of Transportation, 49 CFR 19.27 does not contain similar limitations. Specifically, under 49 CFR 18.22(a), grant funds may only be used for:

(1) The allowable costs of the grantees, subgrantees and cost-type contractors, including allowable costs in the form of payments to fixed-price contractors; and

(2) Reasonable fees or profit to cost-type contractors but not any fee or profit (or other increment above allowable costs) to the grantee or subgrantee.

This proposal would impose the same limitation on the use of funds used for grants and agreements with institutions of higher education, hospitals, and other non-profit organizations as there are on the use of funds used for uniform administrative requirements for grants and cooperative agreements to state and local governments, which are set forth above.

In addition, this proposal would update references to applicable cost principles for grants and cooperative agreements with state and local governments that appear in 49 CFR 18.22(b) and include comparable updated references in 49 CFR 19.27(b) with regard to grants and agreements awarded to institutions of higher education, hospitals, and other non-

profit organizations. These updated references are necessary in light of the establishment of title 2 of the Code of Federal Regulations in 2004. Subtitle A of title 2 of the Code of Federal Regulations consists of government-wide guidance from the Office of Management and Budget (OMB) to Federal agencies for grants and other financial assistance and nonprocurement agreements that previously had been contained in seven separate OMB circulars and other OMB policy documents. Currently, 49 CFR 18.22(b) references three specific OMB circulars that are now codified in several Parts in chapter II, subtitle A of title 2 of the Code of Federal Regulations. This proposal would amend 49 CFR 18.22(b) by replacing the citations to these former OMB circulars with the appropriate references in title 2 of the Code of Federal Regulations and would reflect these same changes in 49 CFR 19.27(b).

Rulemaking Analyses and Notices

All comments received before the close of business on the comment closing date indicated above will be considered and will be available for examination in the docket at the above address. Comments received after the comment closing date will be filed in the docket and will be considered to the extent practicable. In addition to late comments, the DOT will also continue to file relevant information in the docket as it becomes available after the

comment period closing date, and interested persons should continue to examine the docket for new material. A final rule may be published at any time after close of the comment period.

Executive Order 12866

The Department has determined that this rule is nonsignificant. It is purely administrative in nature and does not impose new burdens on any parties.

Regulatory Flexibility Act of 1980

The Department certifies that this rule will not have a significant effect on a substantial number of small entities. This is because, as a purely administrative rule, it does not create economic effects on anyone. The amendment would not change or limit the potential eligibility of any small entity.

Unfunded Mandates Reform Act of 1995

This regulatory action does not contain a Federal mandate that will result in the expenditure by State, local, and tribal governments, in aggregate, or by the private sector of \$100 million or more in any one year, as adjusted for inflation.

Paperwork Reduction Act of 1995

This regulatory action will not impose any additional reporting or recordkeeping requirements covered under the Paperwork Reduction Act.

Executive Order 13132 (Federalism)

This regulatory action does not have Federalism implications, as set forth in Executive Order 13132. It will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

SUPPLEMENTARY INFORMATION:

I. Introduction

In December 1975, during the aftermath of the energy crisis created by the oil embargo of 1973-74, Congress enacted the Energy Policy and Conservation Act (EPCA). The Act established an automotive fuel economy regulatory program by adding Title V, "Improving Automotive Efficiency," to the Motor Vehicle Information and Cost Saving Act. Title V has been amended

from time to time and codified without substantive change as Chapter 329 of Title 49 of the United States Code. Chapter 329 provides for the issuance of average fuel economy standards for passenger automobiles (passenger cars) and automobiles that are not passenger automobiles (light trucks).

Section 32902(a) of Chapter 329 states that the Secretary of Transportation shall prescribe by regulation corporate average fuel economy (CAFE) standards for passenger cars for each model year. That section also states that "[e]ach standard shall be the maximum feasible average fuel economy level that the Secretary decides the manufacturers can achieve in that model year." The Secretary has delegated the authority to implement the automotive fuel economy program to the Administrator of NHTSA. 49 CFR 1.50(f). Section 32902(f) provides that, in determining the maximum feasible average fuel economy level, we shall consider four criteria: Technological feasibility, economic practicability, the effect of other motor vehicle standards of the Government on fuel economy, and the need of the United States to conserve energy.

Congress enacted the Energy Independence and Security Act of 2007 (EISA) on December 18, 2007, which further amends Chapter 329 of Title 49. EISA made a number of important changes to EPCA, including:

- Replacing the old statutory default standard of 27.5 mpg for passenger automobiles with a mandate to establish passenger automobile and light truck standards, beginning with model year (MY) 2011, set sufficiently high to ensure that the average fuel economy of the combined industry wide fleet of all new passenger automobiles and light trucks sold in the United States during MY 2020 is at least 35 mpg.

- Limiting to five the number of years for which standards can be established in a single rulemaking.

- Mandating the reforming of CAFE standards for passenger cars by requiring that all CAFE standards be based on one or more vehicle attributes,
