

both December 7, 2015 and August 3, 2016. These regulations apply to existing and new aerospace manufacturing and rework facilities where the total hazardous air pollutants (HAP) emitted are greater than or equal to 10 tons per year of any combination of HAP, or where the total HAP emitted are greater than or equal to 25 tons per year of any combination of HAP. New facilities include those that commenced construction or reconstruction after the date of proposal. Operations covered include: cleaning, primer and top coat application, repainting, chemical milling maskant application, handling and storage of waste, and specialty coating operations. This information is being collected to assure compliance with 40 CFR part 63, subpart GG.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: None.

Respondents/affected entities: Aerospace manufacturing and rework facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart GG).

Estimated number of respondents: 144 (total).

Frequency of response: Initially, semiannually, annually.

Total estimated burden: 154,000 total hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$16,800,000 (per year), includes \$224,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no significant change in burden from the most recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Second, the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. There is an increase in capital and operation & maintenance costs due to an adjustment to increase from 2007 to

2022 \$ using the CEPCI Equipment Cost Index.

Courtney Kerwin,

Director, Information Engagement Division.

Agency Information Collection Activities Submission to the Office of Management and Budget for Review and Approval; Comment Request; Toxic Chemical Release Reporting (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Toxic Chemical Release Reporting, (EPA ICR Number 2613.07, OMB Control Number 2070-0212) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR which is currently approved through June 30, 2025. Public comments were previously requested via the **Federal Register** on September 18, 2024, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before December 27, 2024.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OPPT-2020-0078, to EPA online using www.regulations.gov (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 2821T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under

30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Katherine Sleasman, Office of Program Support (7602M), Office of Chemical Safety and Pollution Prevention, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 566-1206; email address:

sleasman.katherine@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR which is currently approved through June 30, 2025. An agency may not conduct, or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on September 18, 2024 during a 60-day comment period (89 FR 76470). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: Pursuant to section 313 of the Emergency Planning and Community Right-to-Know Act (EPCRA), certain facilities that manufacture, process, or otherwise use specified toxic chemicals in amounts above reporting threshold levels as provided in 40 CFR 372.25 must submit annually to EPA and to their designated state or Indian country officials toxic chemical release forms containing information specified by EPA; (see 42 U.S.C. 11023). In addition, pursuant to section 6607 of the Pollution Prevention Act (PPA), facilities reporting under section 313 of EPCRA must also report pollution prevention and waste management data, including recycling information, for such chemicals; (see 42 U.S.C. 13106). EPA compiles and stores these reports in a publicly accessible database known as the Toxics Release Inventory (TRI). Regulations at 40 CFR part 372, subpart B, require facilities that meet the above criteria to report annually.

This ICR consolidates the following final rule ICRs titled: "Rule-Related ICR Amendment; Changes to Reporting Requirements for Per- and

Polyfluoroalkyl Substances; Community Right-to-Know Toxic Chemical Release Reporting, Final Rule (RIN 2070-AK97)” (OMB Control Number 2070-0225; EPA ICR Number 2724.02), “Addition of Natural Gas Processing Facilities to the Toxics Release Inventory (TRI) (Final Rule)” (OMB Control Number 2070-0206; EPA ICR Number 2560.02); and “Parent Company Definition for TRI Reporting (Final Rule)” (OMB Control Number 2070-0216; EPA ICR Number 2597.02) into this renewal ICR. Upon OMB approval of this ICR, EPA intends to discontinue OMB Control Numbers 2070-0225, 2070-0206, and 2070-0216.

Form numbers: 9350-1, 9350-2, and 9350-3.

Respondents/affected entities: Entities potentially affected are those that apply to owners and operators of facilities covered under EPCRA section 313(a). EPCRA section 313(a) includes facilities that meet the following three criteria: have 10 or more full-time employee equivalents (*i.e.*, a total of 20,000 hours worked per year or greater; see 40 CFR 372.3). The full list of potentially affected entities by North American Industry Classification System (NAICS) codes for facilities that must report to TRI (including exemptions and/or limitations), if all other reporting thresholds are met, can be found at 40 CFR 372.23.

Respondent's obligation to respond: Mandatory (40 CFR 372.23).

Estimated number of respondents: 24,742 (total).

Frequency of response: Annual.

Total estimated burden: 3,600,970 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$285,304,888 (per year), which includes \$0 annualized capital or operation & maintenance costs.

Changes in the estimates: There is an overall average decrease of 698 Form Rs and an increase of 1600 Form As estimated to be submitted to EPA as a result of EPA's exercise of its discretionary authority to apply TRI reporting requirements to 2,990 particular facilities, for specified chemicals. There is a decrease of 15,858 burden hours. This is an adjustment to the estimates.

Courtney Kerwin,

Director, Information Engagement Division.

Proposed Settlement With Bona Fide Prospective Purchaser, Miners Point Ventures, LLC, Central City, Clear Creek Superfund Site, Colorado

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed settlement; request for public comment.

SUMMARY: Notice is hereby given by the U.S. Environmental Protection Agency (EPA), Region 8, of an administrative settlement agreement for response action by bona fide prospective purchaser entered into voluntarily by the United States of America (“United States”) on behalf of the United States Environmental Protection Agency (“EPA”), the State of Colorado (“State”) and Miners Point Ventures, LLC (“Purchaser”) in connection with the Central City, Clear Creek Superfund Site in Idaho Springs, Clear Creek County, Colorado (“Site”). It is now subject to public comment, after which EPA may modify or withdraw its consent if comments received disclose facts or considerations that indicate that the proposed agreement is inappropriate, improper, or inadequate.

DATES: Comments must be submitted on or before December 27, 2024.

ADDRESSES: The proposed agreement and additional background information relating to the agreement will be available upon request. Any comments or requests or for a copy of the proposed agreement should be addressed to Crystal Kotowski-Edmunds, Enforcement Specialist, Superfund and Emergency Management Division, Environmental Protection Agency, Region 8, Mail Code 8SEM-PAC, 1595 Wynkoop Street, Denver, Colorado 80202, telephone number: (303) 312-6124, email address: edmunds.crystal@epa.gov, and should reference the Central City, Clear Creek Site. You may also send comments, identified by Docket ID No. EPA-R08-SFUND-2024-0475, to <https://www.regulations.gov>. Follow the online instructions for submitting comments.

FOR FURTHER INFORMATION CONTACT: Amelia Piggott, Attorney, Office of Regional Counsel, Environmental Protection Agency, Region 8, Mail Code 8ORC-LEC, 1595 Wynkoop, Denver, Colorado 80202, telephone number: (303) 312-6410, email address: piggott.amelia@epa.gov.

SUPPLEMENTARY INFORMATION: This settlement provides for the performance of a response action by Purchaser and the payment for certain response costs incurred by the United States and the State of Colorado at or in connection with property within the Site (“Property”). Uncovered mine waste containing lead and arsenic is located on the Property. EPA and the State previously installed engineering controls to a mine waste pile on the Property to ensure lead and arsenic-laden mine waste do not erode into Clear Creek. Uncovered mine waste remains on the Property. Purchaser anticipates developing the Property into a mining-related tourist attraction that will include operation of a gondola that will transport tourists to recreational hiking trails. In order to ensure the development will be protective of human health and the environment, the Purchaser will conduct risk assessment work.

For thirty (30) days following the date of publication of this document, EPA will receive electronic comments relating to the proposed agreement. EPA's response to any comments received will be available for public inspection by request. Please see the **ADDRESSES** section of this document for instructions.

Aaron Urdiales,

Division Director, Superfund and Emergency Management Division, Region 8.

Clean Air Act Operating Permit Program: Order on Petitions for Objection to State Operating Permit for Flint Hills Resources Ingleside LLC, San Patricio County, Texas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petition.

SUMMARY: The Environmental Protection Agency (EPA) Administrator signed an Order dated November 14, 2024, granting in part and denying in part two petitions dated July 10, 2024 (collectively the Petitions), from the Environmental Integrity Project, Ingleside on the Bay Coastal Watch Association, and TCHD Consulting LLC (the Petitioners). The Petitions requested that the EPA object to a Clean Air Act (CAA) title V operating permit issued by the Texas Commission on
