

inspection experience indicates that operators should devote additional attention to assure compliance.

States are implementing the DIMP rule under their individual state statutory authority in accordance with the applicable certification under 49 U.S.C. 60105 or agreement under section 60106. State inspectors will participate in this webinar, but not all states will be represented. Since regulatory structures differ among states, operators should contact the state authority regulating their distribution pipeline system for more information.

The DIMP rule also required distribution pipeline operators to report failures of mechanical fittings that result in hazardous leaks. Such failures have been the cause of a number of serious accidents on distribution pipelines. Collection of this data is intended to facilitate better understanding of the causes of fitting failures and actions that can/should be taken to prevent future failures. Operators have the option of submitting reports as failures occur or of submitting all reports for a calendar year by March 15 of the following year. The new reporting requirement became effective on April 4, 2011. Operators have submitted many reports to PHMSA. These reports will be analyzed before the webinar and PHMSA will discuss the results of these analyses. Operators should note that lessons from mechanical fitting failure reporting will be preliminary at this time. They will be based on a limited set of data. The data set is likely to increase significantly as additional reports are received on or before March 15, 2012. Even then, though, only one year of data will be available, which may not be sufficient to identify trends. Nevertheless, the initial analyses will provide some information that will be shared with stakeholders, and operators will be given a chance to comment on the mechanical fitting failure reporting process.

Information Collections Open for Comment

Currently, we are seeking comments on the following forms and recordkeeping requirements:

Title: Personnel Questionnaire—Alcohol and Tobacco Products.

OMB Control Number: 1513-0002.

TTB Form Number: 5000.9.

Abstract: The information listed on TTB F 5000.9, Personnel Questionnaire—Alcohol and Tobacco Products, enables TTB to determine whether or not an applicant for an alcohol or tobacco permit meets the minimum qualifications. The form identifies the individual, residence, business background, financial sources for the business, and criminal record. If the applicant is found not to be qualified, the permit may be denied.

Current Actions: We are submitting this information collection for extension purposes only. The information collection, estimated number of respondents, and estimated total annual burden hours remain unchanged.

Type of Review: Extension of a currently approved collection.

Affected Public: Business or other for-profit.

Estimated Number of Respondents: 5,000.

Estimated Total Annual Burden Hours: 10,000.

Title: Change of Bond (Consent of Surety).

OMB Control Number: 1513-0013.

TTB Form Number: 5000.18.

Abstract: A Change of Bond (Consent of Surety) is executed by both the bonding company and a proprietor and acts as a binding legal agreement between the two parties to extend the terms of a bond. A bond is necessary to cover specific liabilities on the revenue produced from untaxpaid commodities. The Change of Bond (Consent of Surety) is filed with TTB and a copy is retained by TTB as long as it remains current and in force.

Current Actions: We are submitting this information collection as a revision. A change in the supporting statement reflects a change to a regulatory section number contained in the final rule that revised 27 CFR Part 19, Distilled Spirits Plants (see T.D. TTB-92, February 16, 2011, 76 FR 9080). The information collection, estimated number of respondents, and estimated total annual burden hours remain unchanged.

Type of Review: Revision of a currently approved collection.

Affected Public: Business or other for-profit.

Estimated Number of Respondents: 2,000.

Estimated Total Annual Burden Hours: 2,000.

Title: Application for and Certification/Exemption of Label/Bottle Approval.

OMB Number: 1513-0020.

TTB Form Number: 5100.31.

Abstract: The Federal Alcohol Administration Act (the FAA Act, 27 U.S.C. 201 *et seq.*) requires the alcoholic beverage labels to provide the consumer with adequate information regarding a product's identity and prohibits the use of misleading information on such labels. The FAA Act also authorized the Secretary of the Treasury Department to issue regulations to carry out its provisions. To ensure compliance with the FAA Act and the related regulations, industry members complete TTB F 5100.31 as an application to label their products.

Current Actions: TTB F 5100.31, Application for and Certification/Exemption of Label/Bottle Approval, was revised in part to accommodate the Alcohol and Tobacco Tax and Trade

Bureau's ongoing efforts to streamline the Certificate of Label Approval application and review process. Minor changes were made to the application portion of the form, including elimination of the requirement to show wording appearing on caps and seals and other materials firmly affixed to the container. Minor changes were also made to the second and third pages of the form including changes to the instructions for completing the form and the conditions of approval. The circumstances under which approved labels may be modified without submission of a new application for certificate of label approval were also updated to include additional circumstances. Finally, the supporting statement and form reflect the new section numbers used in the final rule that revised 27 CFR Part 19, Distilled Spirits Plants (see T.D. TTB-92, February 16, 2011, 76 FR 9080).

Type of Review: Revision of a currently approved collection.

Affected Public: Business or other for-profit.

Estimated Number of Respondents: 7,738.

Estimated Total Annual Burden Hours: 67,566.

Title: Claim for Drawback of Tax on Tobacco Products, Cigarette Papers, and Cigarette Tubes.

OMB Number: 1513-0026.

TTB Form Number: 5620.7.

Abstract: TTB F 5620.7 documents that cigars, cigarettes, and cigarette papers and tubes were shipped to a foreign country, Puerto Rico, the Virgin Islands, or a possession of the United States and that the tax has been paid on these tobacco articles. TTB F 5620.7 is the claim form that a person who paid the tax on the articles uses to file for a drawback or refund for the tax that was paid.

Current Actions: We are submitting this information collection as a revision. We are consolidating two collections (1513-0026 and 1513-0102) into one (1513-0026). Both collections contain some of the same regulatory sections. In addition to the duplicate sections, we are adding sections 44.228, 44.229, and 44.230 to 1513-0026 to ensure that all related 27 CFR regulatory sections are covered. Afterwards, 1513-0102 will be discontinued.

Type of Review: Revision of a currently approved collection.

Affected Public: Business or other for-profit.

Estimated Number of Respondents: 288.

Estimated Total Annual Burden Hours: 144.

Title: Taxable Articles without Payment of Tax.

OMB Control Number: 1513-0027.

TTB Form Number: 5200.14.

Abstract: The tobacco manufacturer or export warehouse proprietor is liable for the tax on tobacco products until execution of the certification by Customs or an authorized receiving officer on TTB F 5200.14, which indicates verification of export or bonded transfer. TTB needs this information to protect the revenue. If this TTB form is not properly completed, TTB will assess the tax on the manufacturer of tobacco products or cigarette papers and tubes or on the proprietor of the export warehouse or customs manufacturing warehouse for products not exported or properly disposed of.

Title: Drawback on Distilled Spirits Exported.

OMB Control Number: 1513-0042.

TTB Form Number: 5110.30.

Abstract: The information collected on TTB F 5110.30 provides a uniform format for determining that taxes have already been paid. The form details specific operations and accounts for taxable commodities. Tax liability is established to prevent jeopardy to the revenue derived from distilled spirits. TTB examines and verifies entries so as to identify unusual activities, errors, or omissions.
