

accommodations due to a disability, please contact Gerri Flemming at least seven days in advance of the meeting at the phone number listed above. Written statements may be filed with the Board either before or after the meeting. Individuals who wish to make oral statements pertaining to agenda items should contact Gerri Flemming's office at the address or telephone listed above. Requests must be received five days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Individuals wishing to make public comments will be provided a maximum of five minutes to present their comments.

Minutes: Minutes will be available by writing or calling Gerri Flemming at the address or phone number listed above. Minutes will also be available at the following Web site: <http://cab.srs.gov/srs-cab.html>.

Issued at Washington, DC, on June 27, 2014.

LaTanya R. Butler,

Deputy Committee Management Officer.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Secretary of Energy Advisory Board, Task Force on Technology Development for Environmental Management

AGENCY: Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces an open meeting of the Secretary of Energy Advisory Board (SEAB), Task Force on Technology Development for Environmental Management (EM). SEAB was reestablished pursuant to the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770) (the Act). This notice is provided in accordance with the Act.

DATES: Tuesday, July 15, 2014; 9:45 a.m.–3:00 p.m.

ADDRESSES: Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Corey Williams-Allen, Deputy Designated Federal Officer, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585; telephone (202) 586-1916; seab@hq.doe.gov.

SUPPLEMENTARY INFORMATION:

Background: The Board was established to provide advice and recommendations to the Secretary on the Department's basic and applied research, economic and national security policy, educational issues, operational issues and other activities as directed by the Secretary. The Task Force on Technology Development for EM is charged with assessing the value of a renewed EM science and technology development effort and how such a program would be structured.

Purpose of the Meeting: The meeting will be an opportunity to hear an overview of environmental management at the Department.

Tentative Agenda: The meeting will start at 9:45 a.m. on July 15, 2014. The tentative meeting agenda includes presentations from DOE program offices and national laboratories. From approximately 9:45 a.m. to 12:00 p.m. and 12:30 p.m. to 2:45 p.m., the Task Force will hear presentations from DOE program offices/national laboratories on environmental management. The meeting will conclude at 3:00 p.m.

Public Participation: The meeting is open to the public. Individuals who would like to attend must RSVP to Corey Williams-Allen no later than 5:00 p.m. on Thursday, July 10, 2014 at seab@hq.doe.gov. Please provide your name, organization, citizenship and contact information. Anyone attending the meeting will be required to present government issued identification. Individuals and representatives of organizations who would like to offer comments and suggestions may do so at the end of the meeting on Tuesday, July 15, 2014. Approximately 15 minutes will be reserved for public comments. Time allotted per speaker will depend on the number who wish to speak but will not exceed 5 minutes. The Designated Federal Officer (or designee) is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Those wishing to speak should register to do so beginning at 9:30 a.m. on July 15, 2014.

Those not able to attend the meeting or have insufficient time to address the committee are invited to send a written statement to Corey Williams-Allen, U.S. Department of Energy, 1000 Independence Avenue SW., Washington DC 20585, or by email to: seab@hq.doe.gov.

This notice is being published less than 15 days prior to the meeting date due to programmatic issues and members' availability.

Minutes: The minutes of the meeting will be available by contacting Mr. Williams-Allen. He may be reached at

the postal address or email address above.

Issued in Washington, DC on June 27, 2014.

LaTanya R. Butler,

Deputy Committee Management Officer.

[FR Doc. 2014-15512 Filed 7-1-14; 8:45 am]

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Wind and Water Power Program: Guidance for Hydroelectric Incentive Payments

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of availability of draft guidance

SUMMARY: The U.S. Department of Energy (DOE) invites public comment on its draft Guidance for EPA Act 2005 Section 242 Program. The guidance describes how DOE intends to provide incentive payments to the owners or operators of qualified hydroelectric facilities for electric energy generated and sold for a specified 10-year period as authorized under section 242 of the Energy Policy Act of 2005.

DATES: Comments regarding this draft guidance must be received on or before July 17, 2014.

ADDRESSES: Written comments may be sent to the Office of Energy Efficiency and Renewable Energy (EE-4), U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0121, or by email at hydroincentive@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information should be directed to Mr. Steven Lindenberg, Office of Energy Efficiency and Renewable Energy (EE-4), U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0121, (202) 586-2783, hydroincentive@ee.doe.gov.

SUPPLEMENTARY INFORMATION: In the Energy Policy Act of 2005 (EPA Act 2005; Pub. L. 109-58) Congress established a new program to support the expansion of hydropower energy development at existing dams and impoundments through an incentive payment procedure. Under section 242 of EPA Act 2005, the Secretary of Energy is directed to provide incentive payments to the owner or operator of qualified hydroelectric facilities for electric energy generated and sold by a qualified hydroelectric facility for a specified 10-year period. (See 42 U.S.C. 15881) DOE has not made these incentive payments

in the past due to a lack of appropriations for the hydroelectric production incentive. The conference report to the Fiscal Year 2014 Omnibus Appropriations bill, however, includes \$3,600,000 for conventional hydropower under section 242 of EPA Act 2005.

In response, DOE developed draft guidance intended to describe the application process and the information necessary for DOE to make a determination of eligibility under section 242. The draft guidance is available at: <http://energy.gov/eere/water/power-program>.

Issued in Washington, DC, on June 26, 2014.

David Danielson,

Assistant Secretary, Energy Efficiency and Renewable Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

Bioenergy Technologies Office; Request for Information (RFI) Regarding Integrated Biorefinery Lessons Learned and Best Practices

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice.

SUMMARY: The U.S. Department of Energy (DOE), Bioenergy Technologies Office (BETO), invites public comment on its Request for Information (RFI) regarding Integrated Biorefinery Lessons Learned and Best Practices. The purpose of this RFI is to solicit feedback from industry, academia, research laboratories, government agencies, and other stakeholders on issues related to lessons learned and best practices developed during the design, financing, construction, commissioning, startup, shakedown and operations of pilot-, demonstration-, and commercial-scale integrated biorefineries.

DATES: Comments regarding the RFI must be received on or before July 15, 2014.

ADDRESSES: Comments may be emailed to: IBR_LL_RFI@go.doe.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information should be directed to: IBR_LL_RFI@go.doe.gov.

SUPPLEMENTARY INFORMATION: The Office of Energy Efficiency and Renewable Energy (EERE), within the Department

of Energy (DOE), accelerates development and facilitates deployment of energy efficiency and renewable energy technologies. EERE, through its Bioenergy Technologies Office (BETO) is seeking public comment on Integrated Biorefinery Lessons Learned and Best Practices. Since 2006, many companies that specialize in converting biomass to fuels and products have taken the next step to build and operate integrated pilot-, demonstration-, and commercial-scale facilities. During the design, financing, and construction of these projects many lessons learned and best practices have been developed. BETO compiles and updates the lesson learned and best practices information from its portfolio of integrated biorefinery projects as they move forward towards completion.

At a series of recent workshops conducted by BETO to garner industry input on potential Funding Opportunity Announcements (FOAs), BETO was repeatedly informed that the dissemination of lessons learned and best practices was of great interest to the bioindustry. BETO recognizes that some lessons learned and best practices may be considered business sensitive, proprietary, privileged or otherwise confidential information. As such, BETO does not generally release this type of information without prior approval. However, lessons learned and best practices that are of a general and common nature can be shared and it is BETO's objective to help advance the state of the bioenergy technology industry as a whole by compiling and disseminating this type of high-level, cross-cutting information.

One way in which BETO is attempting to focus its efforts in this area is to request industry input through this Request for Information (RFI). BETO hopes to collect information regarding what lessons learned and best practices the industry has developed and is interested in, discover what lessons learned and best practices the industry is willing to share, and provide a forum in which to share this information with the bioenergy community. Assuming sufficient interest is provided in response to this RFI and meaningful data can be collected, BETO anticipates inaugurating an interactive forum focused on lessons learned and best practices at its upcoming Biomass 2014 Conference (<http://www.energy.gov/eere/bioenergy/biomass-2014-growing-future-bioeconomy>), which is currently scheduled to be held on July 29-30, 2014 in Washington, DC. In its RFI, DOE requests comments, information, and recommendations on Lessons Learned

and Best practices associated with the design financing, construction, commissioning, startup, shakedown and operations of pilot-, demonstration-, and commercial-scale integrated biorefineries. Because information received in response to this RFI may be used to structure future programs and FOAs and/or otherwise be made available to the public, respondents are strongly advised to clearly and conspicuously mark any business sensitive, proprietary, privileged or otherwise confidential information in their response. The RFI, titled, "Integrated Biorefinery Lessons Learned and Best Practices", is available at: <https://eere-exchange.energy.gov>.

Issued in Washington, DC, on: June 25, 2014.

Jonathan Male,

Technology Office Director, Bioenergy Technologies Office, Energy Efficiency and Renewable Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

Notice of Request for Information (RFI) on Fuel Cells for Continuous On-Board Recharging Application for Battery Electric Light-Duty Vehicles

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy (DOE).

ACTION: Request for Information.

SUMMARY: The U.S. Department of Energy (DOE) invites public comment on its Request for Information (RFI) number DE-FOA-0001145 regarding Fuel Cells for Continuous On-Board Recharging Application for Battery Electric Light-Duty Vehicles. The RFI document is posted at <https://eere-exchange.energy.gov/>.

The RFI solicits feedback from industry, academia, research laboratories, government agencies, and other stakeholders on issues related to the technical and economic feasibility of commercializing fuel cell range extenders for available battery electric vehicles (BEVs) in the United States market. The Department of Energy is specifically interested in information on BEV makes and models where an after-market modification to extend the vehicle range using a Polymer Electrolyte Membrane (PEM) fuel cell system would be most feasible. This is solely a request for information and not a Funding Opportunity Announcement
