SUPPLEMENTARY INFORMATION:**I. Additional Information About the Proposed Settlement Agreement**

The proposed settlement agreement would resolve two cases filed by the WildEarth Guardians (“Guardians”) and Sierra Club involving EPA actions under the CAA Title V operating permit program. On January 7, 2015, Guardians and Sierra Club filed petitions with the Environmental Appeal Board (“EAB”) challenging a Part 71 Operating Permit issued by EPA Region 8 on December 5, 2014, to Deseret Power Cooperative (“Deseret”) to operate the Bonanza Power Plant (“Bonanza Plant”), a 500-megawatt coal-fired power plant located within the exterior boundaries of the Uintah and Ouray Indian Reservation in Utah. Under the proposed settlement agreement, Deseret would submit an application for a minor New Source Review (NSR) permit which would provide for installation of low NO_x burners with over-fire air controls, along with other operator-requested permit terms and conditions. The agreement also provides that if EPA Region 8 issues a final permit with provisions that are consistent with the settlement agreement: (1) Petitioners would file motions to dismiss the EAB appeals; (2) EPA would withdraw a proposed Prevention of Significant Deterioration Permit for the facility; (3) Deseret would withdraw an outstanding permit application; and (4) Deseret and Sierra Club would withdraw their respective and related FOIA requests. Under the agreement EPA would also state its plan to withdraw a proposed Prevention of Significant Deterioration Permit for the Plant. The proposed settlement agreement also provides that nothing in the agreement shall be construed to limit or modify any discretion afforded EPA by the Act or by general principles of administrative law in taking those actions. See the proposed settlement agreement for specific details.

For a period of thirty (30) days following the date of publication of this notice, the Agency will accept written comments relating to the proposed settlement agreement from persons who
