

Avenue, SW., Room 716G; Washington, DC 20201; (202) 690-7694.

**SUPPLEMENTARY INFORMATION:** CFSAC was established on September 5, 2002 to advise, consult with, and make recommendations to the Secretary through the Assistant Secretary for Health, on a broad range of topics including (1) The current state of knowledge and research about the epidemiology and risk factors relating to chronic fatigue syndrome, and identifying potential opportunities in these areas; (2) current and proposed diagnosis and treatment methods for chronic fatigue syndrome; and (3) development and implementation of programs to inform the public, health care professionals, and the biomedical, academic, and research communities about chronic fatigue syndrome advances.

The agenda for this meeting is being developed and will be posed on the CFSAC Web site, <http://www.hhs.gov/advcomcfs>, when it is finalized.

Public attendance at the meeting is limited to space available. Individuals must provide a photo ID for entry into the meeting. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify the designated contact person. Members of the public will have the opportunity to provide comments at the meeting. Pre-registration is required for public comment by November 13, 2006. Any individual who wishes to participate in the public comment session should call the telephone number listed in the contact information to register. Public comment will be limited to five minutes per speaker. Any member of the public who wishes to have printed material distributed to CFSAC members should submit materials to the Acting Executive Secretary, CFSAC, whose contact information is listed above prior to the close of business November 13, 2006.

Dated: September 25, 2006.

**CDR John J. Eckert,**

*Acting Executive Secretary, Chronic Fatigue Syndrome Advisory Committee.*

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Agency for Toxic Substances and Disease Registry

[ATSDR-224]

#### Availability of Two Interaction Profiles [Final Documents] at <http://www.atsdr.cdc.gov>

**AGENCY:** Agency for Toxic Substances and Disease Registry (ATSDR), Department of Health and Human Services (DHHS).

**ACTION:** Notice of availability.

**SUMMARY:** This notice announces the availability of two interaction profiles prepared by ATSDR [final documents].

**DATES:** The interaction profiles will be available to the public on or about, October 1, 2006.

**ADDRESSES:** The documents will also be available on ATSDR's Web site at <http://www.atsdr.cdc.gov>.

**FOR FURTHER INFORMATION CONTACT:** Please submit questions regarding information contained in the profiles to Dr. Hana Pohl, Division of Toxicology and Environmental Medicine, Agency for Toxic Substances and Disease Registry, Mailstop F-32, 1600 Clifton Road, NE., Atlanta, Georgia 30333, telephone (888) 422-8737.

**SUPPLEMENTARY INFORMATION:** The interaction profiles were developed by ATSDR for hazardous substances at National Priority List (NPL) sites under sections 104(i)(3) and (5) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA or Superfund), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA). This public law mandates that ATSDR shall assess whether adequate information on health effects is available for the priority hazardous substances. Where such information is not available or under development, ATSDR shall, in cooperation with the National Toxicology Program, initiate a program of research to determine these health effects. The Act further directs that where feasible, ATSDR shall develop methods to determine the health effects of substances in combination with other substances with which they are commonly found.

To carry out these legislative mandates, ATSDR has developed a chemical mixtures program. As part of the mixtures program, ATSDR developed a guidance manual that outlines the latest methods for mixtures health assessment. In addition, a series

of documents called interaction profiles are being developed for certain priority mixtures that are of special concern to ATSDR. The purpose of an interaction profile is to evaluate data on the toxicology of the "whole" priority mixture (if available) and on the joint toxic action of the chemicals in the mixture in order to recommend approaches for the exposure-based assessment of the potential hazard to public health.

The documents were submitted to both the peer-review and the public review processes. Changes in the documents reflect those addressing the comments.

The following documents will be available to the public on or about, October 1, 2006.

#### Document 1

Interaction profile for atrazine deethylatrazine, diazinon, simazine, and nitrate.

#### Document 2

Interaction profile for chlorpyrifos, lead, mercury, and methylmercury.

Dated: September 21, 2006.

**Kenneth Rose,**

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

#### Disease, Disability, and Injury Prevention and Control Special Emphasis Panel: Development and Testing of a Coal Mine Safehouse, Program Announcement (PA) 04-038

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC) announces the following meeting:

**Name:** Disease, Disability, and Injury Prevention and Control Special Emphasis Panel (SEP): Development and Testing of a Coal Mine Safehouse, PA 04-038.

**Time And Date:** 1 p.m.-3 p.m., October 20, 2006 (Closed).

**Place:** Teleconference.

**Status:** The meeting will be closed to the public in accordance with provisions set forth in section 552b(c)(4) and (6), Title 5 U.S.C., and the Determination of the Director, Management Analysis and Services Office, CDC, pursuant to Public Law 92-463.
