**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Viola Lewis-Willis, Bureau of the Census, Room 1408, Building #2, Washington, DC 20233, and (301) 763-3285.

**SUPPLEMENTARY INFORMATION:**

#### I. Abstract

The BC-170, Census Employment Inquiry, is used to collect information such as personal data and work experience from job applicants. The BC-170 is used throughout the census and intercensal periods for special censuses, decennial census pretests, and dress rehearsals for short-term time limited appointments. Applicants completing the form for a census related position are applying for temporary jobs in office and field positions (clerks, enumerators, crew leaders, supervisors). In addition, as an option to the OF-612, Optional Application for Federal Employment, the BC-170 may be used when applying for temporary/permanent office and field positions (clerks, field representatives, supervisors) on a

recurring survey in one of the Census Bureau's 12 Regional Offices (ROs) throughout the United States. This form is completed by job applicants at the time they are tested. Selecting officials review the information shown on the form to evaluate an applicant's eligibility for employment. During the decennial census, the BC-170 is intended to expedite hiring and selection in situations requiring large numbers of temporary employees for assignments of a limited duration.

The use of this form is limited to only situations which require the establishment of a temporary office and/or involve special, one-time or recurring survey operations at one of the ROs. The form has been demonstrated to meet our recruitment needs for temporary workers and requires significantly less burden than the Office of Personnel Management (OPM) Optional Forms that are available for use by the public when applying for Federal positions. Over the next three years, we expect to recruit approximately 102,000 applicants for census jobs (*i.e.*, one-time censuses, special censuses and decennial pretests and dress rehearsals), resulting in a significant savings in respondent burden.

#### II. Method of Collection

We collect this information at the time of testing for temporary and permanent positions. Potential employees being tested complete a four-page paper application at the time of testing.

#### III. Data

*OMB Number:* 0607-0139.

*Form Number:* BC-170A, BC-170B, BC-170D.

*Type of Review:* Regular submission.

*Affected Public:* Individuals.

*Estimated Number of Respondents:* 34,000.
