

in their comments. Additionally, we are seeking comment on proposals in the *Sixth Further Notice*, which include inquiries and requests for information on the impacts for small entities and courses of action that might be considered to accommodate the resources small entities. For example, as part of the proposed information collection requirement to make information available to frequency coordinators to ensure that these operations are protected from interference, the *Sixth Further Notice* proposed a one-year deadline for licensees to complete this information collection after final rules in this proceeding become effective. Before the deadline, the Commission would waive frequency coordination requirements. After one year, the information collection would be subject to frequency coordination requirements, including frequency coordination fees. The Commission also sought comment on whether the status of a license should become secondary if the incumbent licensee does not meet the one-year deadline. The *Sixth Further Notice* sought comment on whether small entities should have a lengthier deadline, and what showing the Commission should require from licensees to attest that they qualify as small entities. The *Sixth Further Notice* also asked whether the Commission should require small entities to file attestations by the one-year deadline or accept attestations after the deadline at the time they eventually complete the information collection.

91. The Commission is hopeful that the comments it receives will specifically address matters impacting small entities and include data and analyses relating to these matters. Further, while the Commission believes the rules that are eventually adopted in this proceeding should benefit small entities, whether public safety or non-public safety, by giving them more options for gaining access to valuable spectrum, the Commission expects to more fully consider the economic impact and alternatives for small entities following the review of comments filed in response to the Eighth Further Notice. The Commission's evaluation of this information will shape the final alternatives it considers, the final conclusions it reaches, and any final actions it ultimately takes in this proceeding to minimize any significant economic impact that may occur on small entities.

*F. Federal Rules That May Duplicate, Overlap, or Conflict With the Proposed Rules*

None.

#### IV. Ordering Clauses

92. Accordingly, *it is ordered*, pursuant to the authority found in sections 4(i), 4(j), 302, 303(b), 303(f), 303(g), 303(r), 309(j) and 405 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 154(j), 302a, 303(b), 303(f), 303(g), 303(r), 309(j), and 405, that this Eighth Further Notice of Proposed Rulemaking *is hereby adopted*.

93. *It is further ordered* that, pursuant to applicable procedures set forth in §§ 1.415 and 1.419 of the Commission's Rules, 47 CFR 1.415, 1.419, interested parties may file comments on the Eighth Further Notice of Proposed Rulemaking on or before 30 days after publication in the **Federal Register**, and reply comments on or before 60 days after publication in the **Federal Register**.

94. *It is further ordered* that the Commission's Consumer and Governmental Affairs Bureau, Reference Information Center, *shall send* a copy of this Eighth Further Notice of Proposed Rulemaking, including the Initial Regulatory Flexibility Analysis to the Chief Counsel for Advocacy of the Small Business Administration.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

DoD is proposing to amend the DFARS to implement section 1006 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2019 (Pub. L. 115-232), as amended by section 1011 of the NDAA for FY 2020 (Pub. L. 116-92). Section 1006 applies to accounting firms that provide financial statement auditing to DoD in support of the audit under 31 U.S.C. 3521 or audit remediation services in support of the Financial Improvement and Audit Remediation Plan described in 10 U.S.C. 240b. DoD, as a matter of policy, is extending this requirement to firms other than accounting firms that provide such services. Such firms, when responding to a solicitation or awarded

a contract for the acquisition of covered services, must disclose to DoD before any contract action (including award, renewals, and modifications) the details of any disciplinary proceedings with respect to the accounting firm or its associated persons before any entity with the authority to enforce compliance with rules or laws applying to audit services offered by the accounting firm. Section 1011 amended section 1006 to require any disclosures to be treated as confidential to the extent required by the court or agency in which the proceeding occurred and to be treated in a manner consistent with any protections or privileges established by any other provision of Federal law.

DoD received input from one respondent in response to the early engagement opportunity posted on the Defense Acquisition Regulations System web page for the NDAA for FY 2019. The input was considered in the formulation of the proposed rule. The rule is expected to have a minor impact as it is expected to apply to approximately a dozen firms.

## II. Discussion and Analysis

DoD proposes to add a new paragraph (d) to DFARS 237.270, Acquisition of audit services; a new solicitation provision 252.237–70XX, Preaward Transparency Requirements for Firms Offering to Support Department of Defense Audits—Representation and Disclosure; and a new contract clause at 252.237–70YY, Postaward Transparency Requirements for Firms that Support Department of Defense Audits. The provision will not be included in the annual representations and certifications, because it affects very few offerors and requires update every time an offer is submitted.

For audit remediation services, both accounting and non-accounting firms are able to bid on and perform this work. Section 1006 of the NDAA for FY 2019 only requires that accounting firms providing financial statement auditing or audit remediation services to DoD provide the details on any disciplinary proceedings with respect to the accounting firm or its associated persons. DFARS 237.270(d)(1) specifies that, as a matter of policy, DoD proposes to require this information from any offeror responding to a DoD solicitation for such services, in order to have a level playing field for the competition.

DFARS 237.270(d)(2) specifies that this requirement applies to solicitations and contracts for financial statement auditing required under 31 U.S.C. 3521(e) (as explicitly stated in the statute) and clarifies that the covered

audit remediation services are those in support of the Financial Improvement and Audit Remediation Plan described in 10 U.S.C. 240b (based on a reading of section 1006 in conjunction with section 1002 of the same NDAA for FY 2019).

DFARS 237.270(d)(3) clarifies that the “associated persons” referred to in section 1006 include principals and employees. Federal Acquisition Regulation (FAR) 2.101 defines “principals” to mean an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity.

The solicitation provision at DFARS 252.237–70XX only requires reporting of disciplinary proceedings within the last 3 years that are not yet fully adjudicated or settled or that were fully adjudicated or settled against the offeror. Postaward, prior to each subsequent contract action, the proposed clause at DFARS 252.237–70YY requires contractors to report any changes in previously reported proceedings and any newly initiated proceeding that has not yet been adjudicated or settled, or has been fully adjudicated or settled against the contractor. The provision and the clause each require that the disclosure shall, at a minimum, include the entity hearing the case, the case or file number, and a brief description of the allegation or conduct at issue, and if fully adjudicated or settled, a brief description of the outcome.

The proposed provision and clause also include assurance that the Government will safeguard and treat as confidential all statements provided pursuant to this provision where the statement has been marked “confidential” or “proprietary” by the offeror or contractor. Statements so marked will not be released by the Government to the public pursuant to a request under the Freedom of Information Act, 5 U.S.C. 552, without prior notification to the offeror or contractor and opportunity for the offeror or contractor to claim an exemption from release. The Government will treat any statement provided pursuant to this provision and clause as confidential to the extent required by any other applicable law.

## III. Applicability to Contracts at or Below the Simplified Acquisition Threshold (SAT) and for Commercial Items, Including Commercially Available Off-the-Shelf (COTS) Items

Consistent with the determinations that DoD made with regard to application of the requirements of

section 1006 of the NDAA for FY 2019, as amended by section 1011 of the NDAA for FY 2020, DoD does not intend to apply the requirements of section 1006 of the NDAA for FY 2019 to contracts at or below the SAT, but does intend to apply the rule to contracts for the acquisition of commercial items, excluding COTS items.

### *A. Applicability to Contracts at or Below the Simplified Acquisition Threshold*

41 U.S.C. 1905 governs the applicability of laws to contracts or subcontracts in amounts not greater than the simplified acquisition threshold. It is intended to limit the applicability of laws to such contracts or subcontracts. 41 U.S.C. 1905 provides that if a provision of law contains criminal or civil penalties, or if the Federal Acquisition Regulatory Council makes a written determination that it is not in the best interest of the Federal Government to exempt contracts or subcontracts at or below the SAT, the law will apply to them. The Principal Director, Defense Pricing and Contracting (DPC), is the appropriate authority to make comparable determinations for regulations to be published in the DFARS, which is part of the FAR system of regulations. DoD does not intend to make that determination. Therefore, this rule will not apply at or below the simplified acquisition threshold.

### *B. Applicability to Contracts for the Acquisition of Commercial Items, Including COTS Items*

10 U.S.C. 2375 exempts contracts and subcontracts for the acquisition of commercial items (including COTS items) from provisions of law enacted after October 13, 1994, that, as determined by the Under Secretary of Defense for Acquisition and Sustainment (USD(A&S)), set forth policies, procedures, requirements, or restrictions for the acquisition of property or services unless—

- The provision of law—
  - Provides for criminal or civil penalties;
  - Requires that certain articles be bought from American sources pursuant to 10 U.S.C. 2533a or that strategic materials critical to national security be bought from American sources pursuant to 10 U.S.C. 2533b; or
  - Specifically refers to 10 U.S.C. 2375 and states that it shall apply to contracts and subcontracts for the acquisition of commercial items (including COTS items); or
- USD(A&S) determines in writing that it would not be in the best interest

of the Government to exempt contracts or subcontracts for the acquisition of commercial items from the applicability of the provision.

This authority has been delegated to the Principal Director, DPC.

Although sections 1006 and 1011 do not refer to 10 U.S.C. 2375 or state that these sections apply to contracts and subcontracts for the acquisition of commercial items, the types of audit services targeted by the law generally are commercial services. If commercial items are exempted, the statutes will be without effect, undermining the overarching public policy purpose of the law. Therefore, DoD has determined that it is in the best interest of the Federal Government to apply the rule to contracts for the acquisition of commercial items, excluding COTS items, as defined at FAR 2.101.

#### IV. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993.

#### V. Congressional Review Act

As required by the Congressional Review Act (5 U.S.C. 801–808) before an interim or final rule takes effect, DoD will submit a copy of interim or final rule with the form, Submission of Federal Rules Under the Congressional Review Act, to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States. A major rule under the Congressional Review Act cannot take effect until 60 days after it is published in the **Federal Register**. This rule is not anticipated to be a major rule under 5 U.S.C. 804.

#### VI. Regulatory Flexibility Act

DoD does not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule is expected to apply to approximately a dozen entities. However, an initial regulatory flexibility

analysis has been performed and is summarized as follows:

DoD is proposing to amend the DFARS to implement section 1006 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2019 (Pub. L. 115–232), as amended by section 1011 of the NDAA for FY 2020 (Pub. L. 116–92), and DoD policy to provide a level playing field among firms that provide audit services, whether accounting firms or other than accounting firms.

Section 1006 applies to accounting firms that provide financial statement auditing or audit remediation services to DoD in support of the audit under 31 U.S.C. 3521 or audit remediation services in support of the Financial Improvement and Audit Remediation Plan described in 10 U.S.C. 240b. Such firms, when responding to a solicitation or awarded a contract for the acquisition of covered services, must disclose to DoD before any contract action (including award, renewals, and modifications) the details of any disciplinary proceedings with respect to the accounting firm or its associated persons before any entity with the authority to enforce compliance with rules or laws applying to audit services offered by the accounting firm. DoD policy extends this requirement to firms other than accounting firms, in order to provide a level playing field in competitive acquisitions.

DoD estimates there are 12 respondents that submit offers and 10 respondents that receive award of one or more contracts covered by this rule. Of the estimated 12 respondents, DoD further estimates that only two of these respondents are small entities.

This rule proposes to add a solicitation provision and a contract clause that require details of any disciplinary proceedings with respect to the firm or its associated persons before any contract action on a covered contract in support of DoD audits.

The rule does not duplicate, overlap, or conflict with any other Federal rules.

DoD considered applying the rule to only accounting firms, but that would create a situation in which the rule would not apply to other firms that also provide these services, leading to unfair competitions. Applying the rule to other than accounting firms does not create a significant burden for small entities. DoD invites comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD will also consider comments from small entities concerning the existing regulations in subparts affected by this rule in accordance with 5 U.S.C.

610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (DFARS Case 2019–D010), in correspondence.

#### VII. Paperwork Reduction Act

The rule contains information collection requirements that require the approval of the Office of Management and Budget (OMB) under the Paperwork Reduction Act (44 U.S.C. chapter 35). Accordingly, DoD has submitted a request for approval of a new information collection requirement concerning Requirement for Firms Used to Support Department of Defense Audits (DFARS Case 2019–D010) to OMB. The DFARS rule adds a new documentation submission and reporting requirement.

A. Public reporting burden for this collection of information is estimated to average approximately 0.27 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The annual reporting burden estimated as follows:

*Respondents:* 18.

*Responses per respondent:* 23.

*Total annual responses:* 414.

*Preparation hours per response:* 0.27 hours, approximately.

*Total response burden hours:* 113.

B. Request for Comments Regarding Paperwork Burden. Written comments and recommendations on the proposed information collection, including suggestions for reducing this burden, should be sent to Ms. Susan Minson at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503, or email [Susan\\_M\\_Minson@omb.eop.gov](mailto:Susan_M_Minson@omb.eop.gov), with a copy to the Defense Acquisition Regulations System, Attn: Mr. David E. Johnson, OUSD(A&S)DPC/DARS, Room 3B938, 3060 Defense Pentagon, Washington, DC 20301–3060. Comments can be received from 30 to 60 days after the date of this notice, but comments to OMB will be most useful if received by OMB within 30 days after the date of this notice.

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the DFARS, and will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of

the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Defense Acquisition Regulations System, Attn: Mr. David Johnson, OUSD(A&S)DPC/DARS, Room 3B938, 3060 Defense Pentagon, Washington, DC 20301-3060, or email [osd.dfars@mail.mil](mailto:osd.dfars@mail.mil). Include DFARS Case 2019-D010 in the subject line of the message.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

DoD is proposing to revise the DFARS to implement paragraph (a)(2) of section 831 of the National Defense Authorization Act (NDAA) for Fiscal

Year (FY) 2021 (Pub. L. 116–283). Section 831(a)(2) amends 10 U.S.C. 2302e(a) to revise the type of contract line items or options that may be included, without additional competition, in contracts initially awarded from the competitive selection of a proposal resulting from a broad agency announcement (BAA).

When awarding a contract that results from the competitive selection of a proposal received in response to a BAA, 10 U.S.C. 2302e(a) permits the inclusion of certain contract line items or contract options that would not otherwise be covered under the general solicitation authority of a BAA. These contract line items or contract options: (1) Must be for certain services related to the technology developed under the contract, or the delivery of initial or additional items created as a result of the work performed under the contract; and (2) are subject to the quantity, term, and dollar value limitations expressed at 10 U.S.C. 2302e(b).

10 U.S.C. 2302e is intended to help streamline the process for moving technologies from science and technology into production and to enable the transition of technology for faster fielding by allowing the performance of certain work to continue while a follow-on or production contract is awarded.

##### II. Discussion and Analysis

Section 831(a)(2) amends 10 U.S.C. 2302e to replace “provision of advanced component development, prototype” with “development and demonstration.” As a result, when awarding a contract that results from the competitive selection of a proposal received in response to a BAA, contracting officers may now include a contract line item or contract option for the “development and demonstration” of technology developed under the contract. This revision provides a broader scope of effort and funding for which these contract line items and contract options can be awarded.

This proposed rule reflects the authority provided by section 831(a)(2) and clarifies for contracting officers that a contract line item or contract option included in an award pursuant to 10 U.S.C. 2302e is not limited to the funding types used for the general solicitation authority of a BAA, which are listed at DFARS 235.016.
