Responding to the notifications will take approximately 15 minutes per day per staff, for a total of 10 hours per staff over the 40 working days (20 staff × 10 hours × 60 sites = 12,000 hours). Fourth, up to 2 PHA staff at each of the 60 days will spend up to 8 hours each preparing transaction counts data at the end of the time measurement period (2 staff × 8 hours × 60 sites = 960 hours). Finally, up to 2 PHA staff at 130 PHAs will participate in the small program telephone survey. These staff will spend up to 2 hours preparing for the telephone survey, including assembling financial statements and other documentation, and up to 2 hours completing the survey (2 staff × 4 hours × 130 PHAs = 1,040 hours). The total estimated burden across all proposed data collection activities is 19,340 hours.

Status of the proposed information collection: This is a new collection.
